# Budget Message

By

GOVERNOR GOODWIN J. KNIGHT

1954-55 Budget

*To the Senate and Assembly of the Legislature of California:*

It is a pleasure to welcome you, the elected representatives of the people of our State, to Sacramento and to the 1954 Budget and special sessions.

In the many things which you and I must do in the next 30 days I am anxious to extend to you every assistance of my office and its staff. I propose to be available to your committees and to you individually every day for conferences and the sincere exchange of information and ideas, to the end of making this a most successful meeting of the Legislature.

I believe the transition from one administration to another has been accomplished smoothly and efficiently during the five months since my succession to the Governorship in October, 1953. The value and quality of our fine civil service organization have been demonstrated, and our various departments of government are performing for the people of California good service and an honest administration of their governmental affairs. To continue to do so is the determined purpose of all of us.

We meet today under the mandate of our Constitution for our regular budget session. I have called a special session to function concurrently with the budget session, but that fact should not be construed as the beginning of a policy of making each or any budget session an occasion for the discussion of a wide variety of issues which properly belong in a general session.

Before we had annual sessions of the Legislature, it was a frequent occurrence for our previous Governors to call special sessions to consider emergency matters. If we had no annual budget session I would probably have followed that practice. It is therefore no departure from tradition to call a special session at this time. However, it was not the intent of the people to make the budget session a modified general session. For that reason I have been obliged to refuse to include in the call for the special session a substantial number of items which may have merit and which many sincere citizens believe should be considered by the Legislature now. Many proposed laws which were not approved by the 1953 Legislature, or which were approved but were vetoed

by the Governor, have been presented to me for inclusion in this special session. Despite their claimed merit, they are not in my opinion emergency measures and must therefore be deferred 10 months from now to the regular 1955 Session of this Legislature.

As Governor I must so rule in order to maintain the spirit of the constitutional amendment providing for an annual budget.

## GROWTH AND POPULATION

In examining the condition of our State we are confronted with certain important facts. Before I mention a very fundamental one I would remind you that constant repetition of a great truth may detract from the appreciation of its significance. Nevertheless, I must continue to direct your attention toward the continuing rapid increase in population of our State. This phenomenal condition has been discussed many times but we must not fail to take it into account in all of our thinking and planning for the future.

We can by the work done here provide the methods and means for making life for all the people better. We can and we will adopt those plans which are looking toward finer things for the future—casting aside worn out dogmas and embracing the newest and the most progressive policies that are known in political science, social welfare, and sound finance, and we can do it strictly within the provisions of constitutional law. With this statement of broad general purpose, I now direct your attention toward specific matters.

## THE BUDGET

In conformity with Section 34, Article IV of the Constitution, I submit to you the Budget for the State of California for the Fiscal Year ending June 30, 1955.

This budget does not require additional taxes. It is built on strict economy and demonstrates that it is possible to maintain high standards of essential public services without heavy increases in expenditures.

There is abundant evidence that the economy of the Nation, and especially of this State, is vigorous and healthy. A long period of inflation has apparently been halted. Employment is being sustained at the highest annual level in our history. Industrial and commercial activity is at a high rate. Defense production will continue in large volume in this State for some time to come. Plant expansion and the establishment of new industries for civilian goods continue to be important factors in our economy. Our per capita income and savings are among the highest in the Nation.

On the other hand, the stresses and strains accompanying a heavy population growth continue to beset California's Budget. The good signs should not obscure the recent drop in farm income and upturn in unemployment in this State. Though neither of these

unfavorable developments has reached alarming proportions they are not to be ignored. While having every confidence in our State's future, we must be on the alert for signs of danger and be ready to use all facilities at our disposal for combating any threat to the well being of our people. The revenue estimates and expenditure requirements of this budget envision a healthy, growing economy adjusting itself to a stabilized dollar. The forecasts of economic factors and tax yields are more fully discussed in a statement on revenue estimates contained in the budget summary.

I am pleased to present to you an expenditure program which can be financed without additional taxes or higher tax rates. This is one of the few budgets in our State's history which calls for a net reduction in expenditures. The program contained in this State Budget for the fiscal year beginning July 1, 1954, and ending June 30, 1955, totals \$1,423,345,684, as compared with \$1,429,615,586 for the present, 1953-54, year. The amount of \$1,002,665,990, or more than 70 percent is established by constitutional mandate or fixed by provisions of other continuing law. Only \$420,679,694, or less than 30 percent, represents the controllable segment where costs are in some degree subject to direct determination by the Governor and authorization by the Legislature in approving the Budget Bill. Mandatory appropriations are \$40,794,529 above the corresponding total in the current year, due chiefly to growth in school attendance and a greater volume of highway construction. Controllable costs are \$47,064,431 less than in the current year, largely as a result of careful analysis of expenditure requirements and decreases in recommended appropriations for capital outlay. In spite of the fact that proposed expenditures have been curtailed wherever possible, the total outgo for the State's General Fund will exceed the revenues estimated to be received during the year by \$76,456,161. I propose that this deficiency be met by using a carry-over surplus and by utilizing a portion of the reserve funds which have been set aside in earlier years.

The expenditure requirements are very completely analyzed and explained in the budget document. I will mention here the larger and more important items under the three major headings of State Operations, Capital Outlay, and Local Assistance.

## STATE OPERATIONS

The requirements for carrying forward the many important services performed by the several departments of the State Government have been calculated at minimum needs, with reductions made wherever possible. Substantial increases are unavoidable for the following departments, however, where recently completed institutions and facilities must be manned and operated in order to care for the great increase in their human charges.

*Mental Hygiene, Youth Authority, and Corrections:* We must add \$6,110,696 to the budget for the Department of Mental Hygiene to enable it to care for 3,600 more patients with an im-

proved program of treatment. There will be Youth Authority facilities for 500 more cases and there will be 1,150 more cases under parole supervision. This will require an addition of \$2,303,812 to the budget of the Youth Authority. The Department of Corrections will require an increase of \$2,770,832 for an estimated 1,036 more prisoners. The number of convictions has been increasing at a greater rate than in previous years.

*State Colleges, University of California:* Enrollment in the 11 state colleges will be 1.937 greater and these educational centers will require \$1,374,338 more in state support. The budget for the University of California proposes total expenditures of \$81,719,748, an increase of \$7,108,282. This is a substantial amount but I am convinced that the Regents, the President and other officers of the University have presented a conservative budget. Most of the increase is for recently added activities such as the activation of two new teaching hospitals, one in Los Angeles and one in San Francisco, and the new campus at Riverside.

Of the total budget for the University, I am recommending that \$54,632,364 be appropriated from the General Fund, taking into account the fact that the University has on hand reserve funds of approximately \$13,000,000 built up from prior year surpluses and from payments from the Federal Government representing reimbursements for overhead costs of research projects operated by the University for the Federal Government. This would require the use of approximately \$6,600,000 of these reserves. Since it will be necessary to draw upon reserve funds available to the State's General Fund to balance this budget, it is quite appropriate that the Board of Regents be expected to make use of a portion of its reserves as well. I wish to make it very clear there is no intent that any portion of the University's endowment funds derived from private gifts be affected in any way.

*Highway Patrol:* There is continued growth of motor vehicle registrations. Total number of licensed drivers in California is well past six million. The total registrations for 1954 are estimated at 6,250,000. This is by far the greatest number in any state in the Union, exceeding second-place New York by approximately 29 percent and third-place Pennsylvania by nearly 58 percent. The manpower in our Highway Patrol has by no means kept pace with the tremendous growth in motor vehicle traffic. It is imperative that we have more traffic officers on the highways to reduce the horrible toll in deaths and injuries.

Objective studies have been made to determine what an adequate Highway Patrol should be to cope with present day conditions. Each study, which has been independent of the other, indicates that the present strength of 1,517 should be increased by approximately 1,400 men. This budget proposes the addition of 220 officers, the maximum number which can be readily recruited and trained in one year as a very moderate increment toward this goal.

To match this increase in the Highway Patrol I am recommending an increase in the same ratio of the driver improvement program in the Department of Motor Vehicles. This carries the enforcement program through to the individual drivers, holding each driver responsible for his traffic violations and accidents, and suspending or revoking drivers' licenses when necessary to protect the driving public.

### CAPITAL OUTLAY

*Building Construction:* In the last decade we have spent more than \$500,000,000 for new buildings and facilities, not including highways. Despite these vast expenditures, we are in no position to stop building now. Our continued growth makes it necessary to build more hospital and prison facilities, and more Youth Authority schools. Our state university and state college system must have additional classrooms and other structures to meet the greatly increased enrollments which they will have in the next few years. We are badly in need of additional office buildings. The departments concerned are making a careful reappraisal of their needs on a long term basis. I am insisting upon simplicity in design and construction so as to obtain the maximum in utility for each dollar spent. Wherever practicable, existing institutions will be expanded so as to use present central services most effectively.

In addition to the money provided in this budget for building construction purposes, there is in the Architecture Revolving Fund in excess of \$100,000,000 in money previously appropriated and yet to be spent for building purposes. In my opinion the pipelines should be allowed to clear, so that we may become more current in our construction work. The procedure of appropriating large sums of money years in advance of the actual construction work has tied up millions of dollars considerably in advance of actual needs. One year's tax revenues have thus been supplying money which more properly should come from receipts in later years. Now that we are reaching the point where we are exhausting the surpluses built up through inflation-swollen revenues we can no longer afford this type of financing. I am therefore proposing that funds be appropriated for the planning of a project in the year in which the planning work is to be done and that appropriations for the construction work be made for the year in which the contracts are to be let and the construction accomplished. In this year of transition between the old and new procedures, recommended appropriations for construction work include only the most urgent items which cannot be deferred even for one year. This program includes in addition amounts for plans which should be ready for construction appropriations in the succeeding year.

Because of more favorable construction costs than were anticipated, a substantial amount will be saved in carrying out construction projects previously authorized. This saving will help meet the cost of next year's Capital Outlay budget.

For these reasons the 1954-55 Fiscal Year Capital Outlay budget is considerably smaller than in previous years and very likely smaller than will be needed in subsequent years.

*Highway Construction:* Highways are a factor of vital importance to the economy of California in providing a convenient and efficient means of transportation for persons and property. Modern highways are no longer a luxury but a living necessity.

Throughout the postwar years State Government has been hard pressed to keep its highway system abreast of the demands made by tremendous increases in the number of motor vehicles, which now average one for each two residents of the State. On two recent occasions action has been taken to accelerate the program of highway construction, and the full effect of this action is now becoming apparent. In its 14,000-mile state system, California has 1,250 miles of multi-lane divided highways—more of these safe, modern highways than any other state.

By constitutional provision, all of the revenue derived from motor vehicle taxes and fees must be used exclusively for highway purposes. This includes the highway patrol, administration of driver licensing and motor vehicle registration, as well as construction and maintenance of highways.

Outlays for highway construction and improvement in 1954-55 will total \$214,363,069, an increase of \$9,776,754 over the current year and \$89,084,963 more than was spent for this purpose in 1952-53. The proposed program involves 585 miles of state highways, including 162 miles of multi-lane urban freeways and inter-city expressways.

## LOCAL ASSISTANCE

In appraising California's Budget it is important to understand the role played by the State in providing financial assistance to local units of government—counties, cities, and school districts. More than half of all state expenditures are actually made to these agencies. Excluding Capital Outlay items, two-thirds of the day-to-day expense is incurred in connection with school support; welfare payments to the aged, blind, and to needy children; contributions for public health; allocations for city streets and county roads; and aid in maintaining other local activities. During the 1954-55 Fiscal Year these assistance payments will amount to \$785,836,143, and 92 percent of this total represents costs fixed by the Constitution or other continuing law. Only eight percent is subject to determination by the Governor and annual review by the Legislature in approving the Budget Bill.

*School Costs:* Continued rapid growth in public school enrollment accounts for the largest single increase in the budget program for 1954-55. By provisions of the Constitution, state support of public schools is set at \$180 for each pupil in average daily attendance during the preceding year. With an aggregate attendance roll of nearly 2,200,000, the mandatory requirement under

this formula is estimated at the record total of \$395,622,803, an increase of \$28,566,562 over the sum provided in the current year.

In addition, the State will appropriate funds for free textbooks, teachers' retirement, support of child care centers, and debt service on school building bonds. Total payments to local governments for school purposes next year will reach \$434,331,756, or more than 30 percent of the entire state expenditure program.

*School Bond Retirement:* By the first of the next fiscal year \$325,000,000 in state bonds will have been issued for the purpose of making loans to financially distressed school districts to aid them in school building construction. The school districts are required to make repayments of the loans in accordance with their ability to pay. These repayments are applied as a partial offset against the bond interest and redemption payments which the State is obliged to pay from the General Fund. In 1952 a special reserve of \$50,000,000 was set aside to be used to meet a portion of the State's share of these bond interest and redemption payments. As of June 30, 1954, about \$3,200,000 of this sum will have been amortized against such payments, leaving a balance of \$46,800,000.

When the \$50,000,000 was reserved for this purpose a provision was made for amortizing the reserve over the life of the bond issues. While I appreciate the desirability of such a reserve to help meet future payments, I believe it is preferable to use a portion of this reserve to keep the budget in balance now that the General Fund is so hard put to meet its current obligations. Accordingly I recommend that \$28,000,000 of this reserve fund be returned to the General Fund during the 1954-55 Fiscal Year.

### **SURPLUS AND RESERVES**

When you completed your session in 1953 it was estimated that the General Fund would end the current fiscal year with an unbudgeted surplus on June 30, 1954, of \$9,600,000. It now appears that 1952-53 and 1953-54 revenues will exceed the budget estimate by \$14,000,000. We saved approximately \$11,000,000 from the 1952-53 appropriations and will save an additional \$14,000,000 in this current year. With these savings and other adjustments we can safely anticipate an accumulated General Fund surplus of \$49,043,085 on June 30, 1954 for carry-over into the next budget year. This carry-over surplus, together with the use of the reserve fund which I have just discussed will be sufficient to balance the General Fund budget under my recommended expenditure program.

### **REVENUE DEFICIENCY FUND**

In 1947 a Revenue Deficiency Reserve of \$75,000,000, commonly called the "Rainy Day" Fund, was established out of what was then excess revenues. This fund has the primary purpose of maintaining stability in our state financing by meeting any deficiency

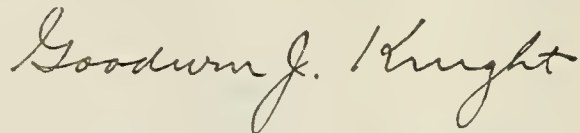

in revenues caused by an unexpected decline in business activity. The fund also has been made available for disaster relief should there ever be an extreme emergency such as an atomic attack. Present uncertainties as to the future make it highly desirable that this Revenue Deficiency Fund be held intact. I am therefore glad to present to you a budget with a plan for balancing it without the need for making any inroads upon this Revenue Deficiency Fund.

In my opinion a sound public finance program neither incurs heavy deficits nor piles up large unneeded surpluses. Unless there are compelling, extraordinary circumstances, our governmental budgets should meet current expenditures out of current revenues, taxing our citizens only the amounts needed to perform the services from which they will benefit. If the tax system produces more revenues than are needed, prompt steps should be taken to reduce the tax levies. Ideally we should have a system of revenues sufficiently flexible to meet our needs without causing undue disturbances and inconveniences to the taxpaying public.

The budget which I present herewith has been drafted with these principles in mind. I believe you will find in it a fair and equitable allocation of financial support among the many services provided by State Government, avoidance of waste, and a sincere regard for the burden now being carried by our taxpayers.

May I again offer the full cooperation and assistance of my administration in your analysis of this budget.

Respectfully submitted

Governor

March 1, 1954

# Letter of Transmittal

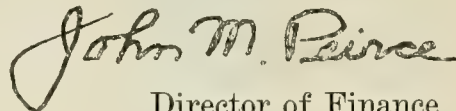

HONORABLE GOODWIN J. KNIGHT, *Governor of California*  
*State Capitol, Sacramento, California*

DEAR GOVERNOR KNIGHT: Transmitted herewith are the summary tables and detailed statements for the Budget of the State of California for the Fiscal Year July 1, 1954, to June 30, 1955.

Expenditure requirements as presented herein have been carefully established in strict compliance with your policy of maintaining essential services at minimum costs. Revenues are estimated on the basis of what appears to be the most reasonable forecast of economic conditions.

The Department of Finance has had excellent cooperation from other departments in the preparation of this Budget.

Respectfully yours,

A handwritten signature in dark ink, reading "John M. Peirce". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.

Director of Finance

March 1, 1954

# Budget Revenue Estimates

Revenue of State government during the next fiscal year is estimated to total \$1,310,791,389, or approximately \$19,524,000 more than in the current period. For the most part, this increase can be traced to motor vehicle tax revisions enacted in 1953 to accelerate the State's highway construction program. Basically, the estimates are predicated upon a gradual settling down in general business activity after the peak of defense prosperity reached last year. No sharp economic reversal is contemplated; nor is there allowance for the possibility of a drastic change in international affairs.

General Fund receipts are estimated at \$801,884,647 for the coming budget year, compared with a revised estimate of \$812,064,638 in 1953-54. Most of the decline is expected in connection with sales tax collections, largely due to the prospect of curtailed purchasing of consumer durable goods and a slight drop in building activity. Income tax payments by corporations and individuals should remain near current levels, while insurance tax receipts are expected to increase moderately above the record shown for the present year.

Collections for the various special funds will aggregate \$508,906,742, or approximately \$29,704,000 more than during the current year. It is in this segment of the total that adjustments in motor vehicle taxes are apparent. Higher fuel tax rates, increased registration and weight fees, and the greater proportion of relatively new cars assessed under the license tax will produce \$452,116,000 in revenue next year, as compared with \$422,458,000 this year and \$323,636,619 in 1952-53. Special fund receipts other than taxes connected with the ownership or operation of motor vehicles will amount to \$56,790,742 in 1954-55, as against \$56,745,042 in the current year.

A comparison of receipts during the three fiscal years covered by this budget is shown below:

## COMPARATIVE STATE REVENUE (Thousands of dollars)

	<i>Actual</i> 1952-53	<i>Estimated</i> 1953-54	<i>Estimated</i> 1954-55
<b>General Fund:</b>			
Sales and use taxes----	\$460,110	\$467,100	\$455,100
Franchise tax -----	119,127	128,000	126,600
Personal income tax----	94,551	102,000	99,200
Insurance tax -----	29,171	34,325	38,700
Inheritance and gift taxes -----	23,474	26,950	28,100
Alcoholic beverage taxes	19,684	20,121	20,385
Other revenue -----	27,860	33,569	33,800
<b>Total, General Fund..</b>	<b>\$773,977</b>	<b>\$812,065</b>	<b>\$801,885</b>
<b>Special Funds:</b>			
Motor vehicle fuel taxes	\$170,871	\$235,820	\$256,940
Motor vehicle fees-----	150,103	184,051	192,664
Other revenue -----	55,899	59,332	59,303
<b>Totals, Special Funds</b>	<b>\$376,872</b>	<b>\$479,203</b>	<b>\$508,907</b>
<b>Grand Totals -----</b>	<b>\$1,150,850</b>	<b>\$1,291,268</b>	<b>\$1,310,791</b>

Amounts shown in this table for 1952-53 and 1953-54 represent revisions of the estimates presented a year ago. Adjusted for changes in accounting practice and legislative amendments, actual receipts to the General Fund of \$773,977,227 in 1952-53 were \$1,985,371 above the revised estimate of last year, while the \$812,065,000 now estimated for 1953-54 represents an upward revision of \$12,100,000, or 1.5 percent above the figure carried in the 1953-54 budget. Special fund receipts amounting to \$376,872,481 in 1952-53 were within 1 percent of the total projected a year ago. The \$479,203,000 shown for special funds in 1953-54 represents an increase of \$85,359,000 over the total shown last year, with virtually the entire difference resulting from motor vehicle tax increases adopted after the former estimates were made.

## Economic Background

With minor exceptions, State revenue is generated as a by-product of the complex industrial machine which makes up the nation's economy. In the last quarter century, this machine has operated under a succession of severe stresses: deep depression, intense war, and uneasy peace. Its capacity has been increased tremendously since World War II in response to the need for defense material, coupled with growing civilian requirements. Although few, if any, know either its present maximum power or its normal output, the last two years have proved that under forced draft its product is huge. California has played an increasingly important part in this production, and its record economic activity, translated at inflation levels into personal income, sales volume, and profit, has resulted in record State tax yields.

The national economic machine was slowing down somewhat in the last half of 1953. From an annual rate of \$371 billion in the second quarter of last year, gross production of goods and services dropped to \$365 billion in the final three months. A further decline is expected in 1954, but the change is likely to be relatively small. Many of the important factors which combined to make 1953 a banner year will continue to exert great pressure during the coming months.

In appraising the 1954 outlook, four broad segments of the economy must be considered: consumer expenditures for goods and services; residential construction and private investment in plant and equipment; net export transactions; and the expenditures of government. Of these, the government sector appears to be the most easily measured and the most certain. Barring another outbreak of hostilities or a serious rise in international tension, expenditures for national security are expected to decline from more than \$51.8 billion last year to approximately \$47.5 billion in 1954.

This is the result both of the reduced appropriations in the current Federal budget and the further reductions contemplated in the expenditure program recommended by the President for the next fiscal year. If international friction were to increase, the total would probably be larger, but defense expenditures in 1954 are not likely to drop below the proposed level even though there may be a cooling in the international climate.

Other purchases of goods and services by the Federal government are expected to be under the \$6.2 billion total of last year. State and local agencies will spend more, partly as a direct result of current population growth but chiefly in their efforts to bring highways nearer to the standards of modern traffic needs, build schools, provide water and sanitation facilities, and construct other public works. Increases in these areas will partially offset the anticipated decline in defense expenditures, with the result that the total payments by government for goods and services will be approximately \$79.5 billion, or less than 5 percent below the peacetime record of \$83.4 billion in 1953.

Private construction and expenditures for producers' equipment reached an all-time high of \$51.8 billion in 1953, marking the latest in a series of eight years of unprecedented investment. Recent surveys indicate that this important element in the nation's economy will decline only slightly during the current year, and adoption of the proposal to liberalize amortization of plant and equipment for income tax purposes could result in a ninth successive record this year. There is general agreement that home building and industrial construction will decline, but the losses in these areas will be partly offset by an increase in outlays for commercial structures, office buildings, and public utility plants. According to the United States Department of Commerce, new private construction during 1954 will be within 2 percent of last year's total.<sup>1</sup> One private survey, covering the thirty-seven eastern states, places the decline at 6 percent,<sup>2</sup> while another<sup>3</sup> estimates spending on plant and equipment (excluding homes) at 4 percent below 1953.

In projecting the 1954 economic pattern for purposes of the revenue forecasts, residential construction and expenditures for producers' equipment have been carried at a level 10 percent below last year. Other construction, the sector for which current surveys are most promising, has been estimated to decrease 5 percent from the volume achieved in 1953.

Inventory accumulation was another important element in the high level of private investment last year. With a moderate decline in the general economic situation, efforts will be made to bring inventories into line with current needs, particularly in durable goods. Hence there is a strong possibility that an inventory liquidation, such as occurred in 1949, may take place

this year. The accompanying estimates (See adjoining table) contemplate a reduction of \$2.5 billion in the aggregate inventories of business concerns in 1954. Chiefly as a result of this anticipated reversal of inventory pattern, from a \$3.9 billion accumulation to a \$2.5 billion liquidation, total expenditures for private investment are estimated to drop from \$55.7 billion last year to \$44.5 billion in 1954.

## ECONOMIC DATA

(Dollar amounts in billions)

Source: Data for 1952 and 1953 compiled by federal and state agencies; 1954 estimated by State Department of Finance, Division of Budgets and Accounts.

## Personal Expenditures

The real key to economic trends in 1954 rests in the purchases of food, clothing, appliances, cars, supplies, and services to meet the needs of one hundred and sixty-three million individuals. If consumers decide to continue the rise in living standards characteristic of the postwar period, 1954 will be the most productive year in history. If they spend as much as they did in 1953, national production will hold close to last year's total. On the other hand, if individuals curtail consumption drastically at the prospect of a slipping in economic activity, they will not only reduce the demand for products and services in this sector of the economy, but will influence business investment in plant and equipment as well.

There is no way to foretell what this decision will be, but important factors influencing the choice can be listed. First, the reduction in personal income tax effective last January 1st will leave approximately \$3 billion additional purchasing power in the hands of consumers.<sup>4</sup> Expiration of the excess profits tax on the same date will tend to maintain dividend payments,

<sup>1</sup> *Construction and Building Materials*, November, 1953; U. S. Department of Commerce.

<sup>2</sup> *Guns and Butter and Babies*, F. W. Dodge Corporation.

<sup>3</sup> *Business Week*, November 7, 1953; McGraw-Hill Publishing Company.

<sup>4</sup> Personal income as reported in national economic accounts excludes social security contributions. Adjustment has been made in the estimate of personal income given below for the \$0.6 billion increase in employee contributions starting in 1954.

as will reduction in the rate on corporations, if this feature of the Federal law is allowed to go into effect April 1st. Second, the volume of liquid assets held by individuals has expanded rapidly in the last few years and stands at an all time high of more than \$175 billion.<sup>5</sup> A slight dip into this reserve would sustain expenditures at last year's level. Third, the rate of liquid savings during 1952 and 1953 was unusually high. Return to the rate of earlier years would add several billion dollars to individual spending this year. Fourth, rapid population growth will add to the aggregate volume of consumer needs. Finally, industry can be counted on to stir the desire of consumers for up-to-date articles through improvements in designs and changes in styles, and through aggressive salesmanship.

Considerations pointing toward curtailment in personal expenditures include the downward shading in spending for residential construction, business investment in plant and equipment, and total purchases by governmental agencies. These changes undoubtedly will result in the elimination of premium-pay overtime for some workers, dropping of marginal employees, and possibly some reduction in regular hours of employment. In addition, the expansion in short-term consumer credit, which contributed \$4 billion to purchasing power last year, is not likely to be an important factor in the economic affairs of 1954.

On balance, it seems reasonable to assume a fair degree of stability in total consumer expenditures this year. Durable goods will probably decline in sales volume, due both to the unexpectedly large number of units disposed of last year and to the probable constriction in credit. Purchases of nondurable items, more closely tied to population growth and not as readily postponable, should hold to the 1953 total, while payments for services may increase slightly. The latter change is predicated largely on further increases in rents, which after years of control have not yet returned to a normal level of relationship with other cost-of-living components. In total, personal consumption expenditures this year are estimated at \$228 billion, a net drop of \$1.9 billion from the 1953 total.

Foreign aid payments by the United States are likely to decline next year due to the change in national policy and improved conditions abroad. As these payments are treated as an offset to an export balance in the national economic accounts, net foreign investment will become a neutral factor in the accounting for 1954.

With this pattern of demand, some decline in employment and increase in unemployment is to be expected. This development should not be interpreted as a sign of recession or depression, however. Unemployment was extremely low last year. In the last quarter century only the three years, 1943 through 1945, when the war effort was at its height, recorded more complete employment of the nation's civilian labor force. Hence the prospect of higher average

unemployment next year—possibly in excess of three million—represents a return to the conditions of 1950.

Salary and wage receipts will decline with employment, and proprietorship income may also be somewhat lower as markets become more competitive. Property income (rent, interest, and dividends) is likely to be relatively stable or increase slightly, while transfer payments (largely unemployment benefits and retirement pensions) will increase as one of the "built-in stabilizers" comes into play. Total personal income is expected to decline under these computations from \$285 billion in 1953 to \$275 billion this year, but with the income tax reductions of January 1st, the relative decline in personal taxes will be greater than the drop in income.<sup>6</sup> Disposable income in 1954 is estimated at \$242.5 billion, against \$248 billion last year. This should support personal consumption expenditures of \$228 billion and leave a saving ratio of 6.0 per cent, compared with 7.3 per cent in 1953 and 7.2 per cent in 1952.

Prices have been remarkably stable for more than two years and are expected to remain at approximately present levels through 1954. The fiscal program of the Federal Government for 1954-55 involves a balance between income and expenditures on a cash basis. Hence fiscal operations will be neither inflationary nor deflationary. The potential of flush production and a buyers' market may cause price adjustments in some areas, but these are not expected to be of major significance.

The all-important single figure which emerges from these considerations is a gross national product of \$352 billion in 1954, down about 4 percent from the \$367 billion of last year. This seems to be a reasonable interpretation of trends as they now appear and is in general agreement with most of the predictions.

California undoubtedly will participate fully in this continued prosperity. Its population is growing at the rate of nearly 500,000 persons each year and will reach an estimated 12,950,000 by the end of the budget period. With a growth of 20 percent in the period from 1950 to 1955, its need for facilities of all kinds remains great. Recent census enumerations show no end to the shifting of this larger population toward suburban areas, and this contributes further to the need for new homes, stores, highways, schools, and service units of all kinds.

Production of aircraft, California's principal industrial contribution to national security, is more likely to be expanded than to contract under the reappraisal of defense requirements. Improvement is recorded in motion picture production, another major activity. And each successive year of progress brings a greater degree of stability to the newer industries—petrochemicals, electronics, television, and apparel, to name only a few. One of the important problems is in cotton production, where acreage restrictions will curtail the output of a premium crop. While the out-

<sup>6</sup> The effect of liberalizing amendments to the federal income tax recommended by the President have not been included in these computations. If approved, these changes would further increase disposable income.

<sup>5</sup> Federal Reserve *Bulletin*, July, 1953, page 720, and *Federal Reserve Charts*, December, 1953, page 47.

look in other agricultural production may not be improved over last year, with adequate rainfall and normal growing conditions, it is no worse.

The aggregate income of California residents during 1953 is estimated at \$24.9 billion, and under the economic pattern here visualized the current year's total will be approximately \$24.2 billion. Reduction in Federal income tax will cushion the effect of this decline, however. Income remaining after payment of Federal and State income taxes in 1954 is estimated to be \$21.2 billion, compared with \$21.5 billion last year. Actual spending volume will depend somewhat on personal saving practices and business policy regarding consumer credit. For present purposes, it has been assumed that the rate of liquid savings will decline in 1954 and credit will be restricted slightly. On this basis, spendable resources<sup>7</sup> of California civilians this year have been estimated at \$19.9 billion, against \$20.5 billion in 1953.

A summary of economic data and population projections underlying the revenue estimates is given in the table on page A-20.

### GENERAL FUND REVENUE

Although economic conditions basically determine State revenue receipts, a change in business activity is not reflected immediately by a change in tax collections. In case of the sales tax, a difference in volume of taxable transactions begins to show up within the course of a month and is fully evident within four months. Franchise tax payments are due in two installments three and nine months, respectively, following the close of taxpayer's fiscal year. The lag is somewhat longer in the case of the personal income tax, but a great many people pay their State income tax in full on or before April 15th, the due date for the first installment. Insurance tax remittances for one calendar year are received in November of the following year, and under some circumstances inheritance tax payments may be delayed even longer. Because of these staggered receipts, the decline in 1954-55 tax collections will be even less than the modest readjustment in economic affairs. General Fund revenue at \$801,885,000 will represent a drop of less than 1.3 percent from the estimated total for 1953-54.

#### Sales Tax—\$455,100,000

The 3 percent State tax on sales of tangible personal property is expected to yield \$455,000,000 during 1954-55, and permit fees will amount to \$100,000. Total receipts from this source in the current fiscal year are estimated at \$467,100,000, and actual collections in 1952-53 amounted to \$460,109,833.

The budget-year forecast contemplates a moderate decline in sales of durable goods, after the record volume of 1953, but an increase in purchases of non-

durable items which last year were below the usual relationship to the spendable resources of California civilians.

The sales tax is the largest plank in the State's tax structure, returning nearly 60 percent of the money available to the General Fund and 35 percent of all State revenue. Broad based, it applies to items bought at retail stores and to sales by manufacturers, wholesalers, and similar vendors when the property involved will be used or consumed by the purchaser. The principal exemptions are: sales for resale (including raw materials), food to be consumed off the premises of the retailer, and gasoline used in motor vehicles. In 1953, approximately 39 percent of the tax was paid in connection with purchases of nondurable goods—chiefly apparel, meals and beverages, and household supplies. Sales of motor vehicles and motor vehicle supplies and parts accounted for 21 percent of the total; 11 percent came from building materials; 10 percent from consumer durables other than motor vehicles (i.e., home furnishings, appliances, jewelry, and similar items); and 18 percent from sales of machinery, equipment, and supplies to commercial, industrial, and service establishments. About 1 percent of the total was unallocated. Relative importance of commercial and industrial buying is an important feature of the levy which tends to be hidden in the commonly used name, retail sales tax.

As in previous years, two methods have been used to estimate the volume of transactions subject to sales tax during the period covered by this budget.<sup>8</sup> One employs the average relationship between taxable sales and the estimated spendable resources of civilians in California during the 18 years 1935 through 1952.<sup>9</sup> Based on this relationship, the \$19.9 billion of spendable resources estimated for 1954 should produce taxable transactions amounting to \$14.95 billion.

The second estimate is based on analysis of trends during the last five years in the 44 business classifications for which sales tax data are reported by the State Board of Equalization, together with advice regarding the general outlook for certain specialized industries. On this basis, taxable transactions of \$14.75 billion are indicated. A final estimate of \$14.8 billion was used for the calendar year 1954.

A number of factors influence this forecast. In the first place, sales of new motor vehicles are likely to decline from the high level of 1953. The probable new car market of the nation is estimated to be between 4,600,000 and 5,700,000 units.<sup>10</sup> The upper limit of this range is equal to sales in 1953; the lower level would represent a drop of 20 percent. There seems to be some indication that automobile production this year will be about 5,100,000 units, and assuming no

<sup>8</sup> In preparing revenue estimates, calendar year data are used almost exclusively in order to take full advantage of such related material as census reports, income payments, and other economic data. All estimates include assessments of additional tax, interest, and penalties as a result of the audit programs of tax administering agencies. Calendar year estimates are apportioned to fiscal years on the basis of ratios during recent years.

<sup>9</sup> The correlation equation: Taxable sales equal  $-.893$  plus  $0.796$  times spendable resources.

<sup>10</sup> *The Business Outlook 1954*, National Industrial Conference Board, December, 1953, page 31. Also *Fortune*, September, 1953, page 220.

<sup>7</sup> Spendable resources of civilians is a term developed in connection with the forecast of sales tax revenue. It represents civilian income less Federal and State income tax payments, plus or minus the increase or decrease in short-term consumer credit, minus or plus the increase or decrease in liquid assets held by individuals.

further inventory accumulation, sales have been estimated at this level, or approximately 10 percent below the number sold last year. New car sales in California during 1954 are estimated at 400,000, compared with 447,000 last year, while truck sales of 61,000 are projected, against 71,000 in 1953. A corresponding decrease is assumed in the volume of new trailer sales. Unit prices may be slightly lower, but it is probable a greater proportion of vehicles will have some optional equipment. Consequently, the total cost will remain unchanged.

Although the need for motor vehicle supplies and parts should increase with larger registrations, used car prices have shown a weakness during recent months and volume of used car sales may trend downward along with new vehicle business. For this reason, a moderate (6.5 percent) decline has been assumed in sales of used cars and motor vehicle supplies and parts.

In spite of rather optimistic predictions made recently regarding residential building this year, it is believed that some decline can be expected from the near record pace of the last two years. Residential construction is becoming more dependent upon the replacement demand and movement of population. With a little more than 7 percent of the Nation's population, California has accounted for 15 percent of the dwelling units constructed in the last four years. The occupancy ratio, which dropped from 3.2 persons per unit in 1940 to 3.0 persons per unit in 1950, undoubtedly has declined further as one new dwelling unit has been provided for each 2.2 persons added to the population since 1950. Though residential construction *may* continue its present pace, it seems likely the volume will be tailored more closely to population growth in the next few years. Somewhat the same situation exists in the industrial field. Defense plant construction will be relatively unimportant and activity will be more dependent upon the long-term growth of the Pacific Coast area. Although commercial building may advance somewhat, possible increases at this point are unlikely to offset completely the adjustments in home and industrial construction.

With a decline in residential and industrial building, there is likely to be less need for consumers' durable items and producers' equipment. Sales of consumers' durable goods were down slightly in 1953, notwithstanding the high level of new residential building. The anticipated increase in commercial and service establishments is not likely to involve the large outlays for machinery and equipment which accompany a broad industrial expansion.

While the keen demand for durables may be dulled a little this year, sales of nondurables can be expected to increase. Apparently consumers tend to curtail their purchases of clothing and supplies when they spend a lot for a new car or an expensive household appliance. Conversely, when sales of durables are light there is a tendency to increase expenditures for nondurables. Moreover, consumption of food, apparel and household supplies is closely related to population, and purchases are not as easily postponed as those for cars and appliances. In view of these con-

siderations, expenditures for nondurable goods are estimated at \$6,130,000,000 this year, or 3.4 percent above the indicated total for 1953.

A summary of taxable transactions in seven broad groups as estimated for the current year, together with corresponding figures for 1952 and 1953, is given in the following table:

	(Millions of dollars)			Percent change 1953-1954
	1952	1953 *	1954	
Nondurable goods . . .	\$5,701.4	\$5,930.0	\$6,130.0	3.4
Consumer durables † . .	1,516.1	1,510.0	1,400.0	-7.3
Motor vehicles—new . . .	1,101.5	1,450.0	1,300.0	-10.4
Motor vehicles—used, supplies, and parts . . .	1,822.1	1,817.0	1,700.0	-6.5
Building materials . . .	1,661.5	1,725.0	1,580.0	-8.5
Producers' equipment and supplies † . . . . .	2,461.9	2,690.0	2,550.0	-5.2
Unallocated . . . . .	134.8	140.0	140.0	-
Totals . . . . .	\$14,399.3	\$15,262.0	\$14,800.0	-3.0

\* Actual for first three calendar quarters; fourth quarter estimated.

† Other than motor vehicles and building materials.

Receipts from the sales tax audit program in 1954-55 are expected to total \$12,000,000, while approximately \$2,000,000 will be collected in connection with the refund of gasoline tax paid on fuel consumed in airplanes or put to other nonhighway uses.

### Franchise Tax—\$126,600,000

Corporate profits from operations in California during the calendar year 1953 increased 13.5 percent over the total for 1952, according to estimates obtained from a sample of 342 corporations which comprise 44 percent of the State franchise tax base. Among the groups reporting particularly impressive gains were those engaged in oil production (after an adverse earnings record in 1952), banks and financial corporations, and service industries. The gain recorded in manufacturing and utilities fell slightly below the average, while profits by retail corporations held to their 1952 level. Construction was the only important segment reporting a reduction in profits between 1952 and 1953.

On the basis of this selected sample, taxable earnings of banks and corporations from California operations last year are estimated at \$2,952,292,000. Tax payments on this record volume of earnings will be received during the calendar year 1954. With approximately 58 percent to be received before June 30, franchise tax collections during 1953-54 will be the largest in the history of this levy. The remaining 42 percent of the tax on last year's income will be received after July 1, 1954, and will therefore constitute State revenue for the next fiscal year.

Corporate profits during 1954, on which the first installment of taxes will be paid in the last half of the 1954-55 fiscal year, are expected to decline 7.5 percent from the 1953 level. This estimate allows for some slight contraction in business volume, increased operating expense, and a shading of profit margins under greater competition.

Collections as a result of the audit program have increased substantially in recent years. Particular effort was made to clear up a backlog of audit work

during 1953 which contributed to aggregate assessments of \$7,983,252. A total of \$7,000,000 is anticipated under the audit procedure during 1954, and a more normal level of \$6,500,000 is allowed for 1955.

In total, receipts from the bank and corporation franchise tax<sup>11</sup> during 1954-55 are estimated at \$126,600,000. At this level, collections will be \$1,400,000 below the \$128,000,000 record volume indicated for the current year but substantially above actual receipts of \$119,127,440 in 1952-53.

### Personal Income Tax—\$99,200,000

As receipts from the personal income tax depend upon the income received by Californians, the estimates of revenue from this source are based upon data on income payments to individuals in California, published by the United States Department of Commerce. Using available data and the general assumptions outlined earlier the Department of Finance has prepared estimates of income payments to California residents for 1953 and 1954. These with the last published year are shown in the table below.

<i>Income Payments (Millions of dollars)</i>			
	1952	1953	1954
Salaries and Wages	\$15,790	\$17,246	\$16,650
Proprietors' Income	3,456	3,549	3,250
Property Income (dividends, interest, rents)	2,526	2,680	2,700
Other Income	1,374	1,465	1,600
Total	\$23,146	\$24,940	\$24,200

Tax receipts attributable to salaries and wages, proprietors' income, dividends, interest, and rents were related to their counterparts in the income payment series for prior years. Based on these relationships and the estimates above, projections were made for tax liability on 1953 and 1954 incomes. The volume of capital gains was estimated to drop under somewhat lower economic activity for 1954. Allowance was also made for the effect of California legislation enacted in 1953 affecting this tax. Neither reduced Federal income taxes nor higher social security taxes will directly affect this revenue since neither is deductible in computing California income tax liability.

Under the conditions outlined above the personal income tax has been estimated to produce \$99,200,000 in revenue during 1954-55 compared with \$102,000,000 for the 1953-54 Fiscal Year. More than 85 percent of the latter will depend on revenue due between January 1 and June 30, 1954. Actual collections during 1952-53 totaled \$94,551,424.

### Insurance Tax—\$38,700,000

Revenue for the 1954-55 fiscal year from the State insurance tax will depend upon premiums collected by insurance companies during 1953. To estimate such collections, reports were received from 122 companies on the volume of business done in California last year. The companies selected account for about 70 percent

<sup>11</sup> The supplementary corporation income tax is combined with the bank and corporation franchise tax for purposes of revenue estimating and reporting in this budget. The two levies are identical in essential features. The corporation income tax is estimated to yield \$1,000,000 in 1954-55 and \$1,170,000 in the present fiscal year. Actual receipts last year were \$1,148,976.

of the tax base. These reports indicate a continuation of the trend of recent years in greater volume of premiums, particularly in the disability and automobile insurance fields.

On the basis of this information, gross premiums less dividends paid or credited to policy holders are estimated to reach a total of \$1,701,387,000, or approximately 13.0 percent over the previous year. After necessary adjustments and deductions for local property taxes paid on principal business offices in California, net revenue from this source has been estimated at \$38,700,000. Corresponding totals for the current year and for 1952-53 are \$34,324,894 and \$29,171,123, respectively.

### Inheritance and Gift Taxes—\$28,100,000

Inheritance and gift tax receipts depend only indirectly upon the level of economic conditions in a particular year. Property values are important factors in determining the extent of inheritance tax liability, but even more important are the number and size of bequests and the relationship between beneficiaries and decedents. Inheritance tax collections are currently running at an annual rate of \$2.10 per capita. The high level of security prices and property values prevailing during the last two years should tend to sustain this volume of receipts for the months immediately ahead. On this basis, revenue from the inheritance tax has been estimated at \$26,500,000 in 1954-55, and \$25,350,000 in the current year. These amounts may be compared with \$21,880,943 in 1952-53.

Gift tax collections of \$1,600,000 are estimated for both 1954-55 and the current year. The actual amount from this source last year was \$1,592,992 and the average for the last seven years has been \$1,400,000. Although a factor of growth is apparent in the record of gift tax receipts, the random year-to-year fluctuations have been so wide that growth alone cannot be relied upon in making projections for the future.

### Alcoholic Beverages—\$20,385,000

Revenue from the excise taxes on distilled spirits, beer, and wine has shown a trend since the war similar to the growth in the adult population of the State. The estimates for 1953-54 and 1954-55 are based on a projection of this trend, tempered by the slightly lower income of Californians anticipated for 1954.

In terms of the State's 8,457,060 adult population, annual consumption of distilled spirits is estimated at 2.38 gallons per capita, beer 2.3, dry wine 1.1, sweet wine 1.9, and sparkling wine at 0.5 gallons.

Comparative collections of alcoholic beverage taxes are shown below:

	Actual 1952-53	Estimated 1953-54	Estimated 1954-55
Distilled spirits	\$15,614,723	\$16,000,000	\$16,100,000
Beer		3,622,000	3,780,000
Dry wine		87,500	91,000
Sweet wine		310,800	318,000
Sparkling wine		100,600	96,000
Totals	\$19,683,843	\$20,120,900	\$20,385,000

### **Private Car Tax—\$1,250,000**

Railroad cars owned by companies other than railroads are taxed by the State in lieu of local levies on this type of property. The tax is based upon assessed value and the number of days each unit of equipment is located in California during the year. The rate imposed is the average tax on real and personal property throughout the State in the preceding fiscal year. On this basis, an assessment of \$1,221,510 was made for 1953-54, including minor amounts of interest and penalties. Collections during 1952-53 amounted to \$1,127,104. Fragmentary data indicate that the number of cars assessed in 1954 will be approximately the same as in 1953. The average values per unit have been rising slowly in the last four years and this slight up-trend will probably continue. The average tax rate will be a few cents more. This pattern indicates total receipts of \$1,250,000 in 1954-55.

### **Other General Fund Revenue—\$32,549,647**

Revenue to the General Fund from horse racing (see below) will amount to \$5,409,000, while \$2,512,000 will be received from motor vehicle license fees and \$24,628,647 from nontax sources.

Nontax income for the State General Fund consists chiefly of charges for services, such as the payments for care of patients at State hospitals; oil and mineral royalties; receipts from sale or rental of State property; and interest on investments. The principal change anticipated next fiscal year is a sharp drop in interest income from \$11,851,130 in the current period to \$8,799,132 estimated for 1954-55. Three factors contribute to this decline: (1) an acceleration of interest earnings in 1953-54, (2) a change in law diverting to special funds a part of the interest formerly accruing to the General Fund, and (3) the anticipated decline in General Fund surplus during 1954-55.

Departmental revenue from service charges, rents, royalties, and similar sources is expected to increase moderately, while miscellaneous revenue will be substantially above the current year's total as the legislation enacted last year to provide a surcharge on traffic fines to finance driver education becomes more completely reflected.

General Fund receipts from nontax sources are estimated to total \$24,628,647 during 1954-55, against \$25,373,959 in the present fiscal year, and \$19,929,153 in 1952-53. Details of the items comprising these amounts are shown in Schedule 2.

### **SPECIAL FUND REVENUE <sup>12</sup>**

Though there are some borderline items, special fund revenue can be classified into three categories: (1) the receipts from broad tax levies which are dedicated to specific functions; (2) charges made for spe-

<sup>12</sup> Trust funds, such as contributions to the various retirement plans; bond funds, such as receipts from the sale of school building bonds; sinking funds for bond interest and redemption; working revolving funds; utility funds, such as the Veterans Farm and Home Building Fund; and assessment funds, are not government cost funds and are not included in the general category of special funds. State payments to any of these noncost funds are, of course, regarded as an expenditure and reported as such.

cial governmental services to specific groups or individuals; and (3) certain rentals, royalties, and other revenue earmarked for particular purposes. Motor vehicle taxes and fees which must be used for highways, roads, and streets illustrate the first of these classes. License fees for the regulation of businesses and professions are typical of the second, while the third includes royalties devoted to beach and park development and school support. Interest earned on the investment of special fund money accrues to the fund invested. One characteristic is common to all—the restriction against diversion of these funds to other uses without a change in the Constitution or the statutes, and in some instances a change in both.

More than one-third of all State governmental revenue accrues to special funds and is thus restricted as to use. A substantial share derives from the levies imposed in connection with the ownership and operation of motor vehicles—the fuel taxes, registration and weight fees, the tax on companies transporting persons and property for hire over State highways, drivers' licenses, fees on the transfer of vehicle ownership, and other minor charges. Together with the license fee levied in lieu of local property taxes on motor vehicles, these are estimated to return \$452,000,000 during the 1954-55 fiscal year, or 89 percent of the special fund total.

Fees and charges for regulatory services and special assistance to various sections of industry, business, and the professions are the second largest source of income to these accounts. These are followed in fiscal importance by horse-racing license fees, which are divided between the General Fund, the Fair and Exposition Fund, and other funds, with most of the revenue deposited in the Fair and Exposition Fund and used for support of agricultural fairs and agricultural education. In addition, it is estimated the State will collect \$8,650,000 in liquor license fees which will be returned to local governments. It will receive \$2,175,743 in interest on investments for special funds and will obtain \$2,850,000 as the State's share of oil and mineral royalties.

### **Motor Vehicle Fees—\$182,538,000**

California has often been described as a state on wheels, and this characteristic has an important bearing upon the State's revenue. With 7.6 percent of the Nation's population, it has 10 percent of the privately-owned cars and trucks. Its six million vehicles at the end of 1953 represented nearly one car, truck, motorcycle, or trailer for each two people in the State. Population increase, prosperity, and the trend toward suburban living have been factors in motor vehicle growth and will continue to influence requirements this year. Fee-paid registrations of 6,250,000 are estimated by the end of 1954, and 6,560,000 are predicted by the close of 1955. Registration fees, license fees, drivers' licenses, and other charges are estimated at \$182,538,000 for 1954-55, compared with \$173,800,000 this fiscal year, and \$139,406,133 for the twelve months which ended June 30, 1953.

The increase in motor vehicle revenue during these three years is only partly the result of growth, however. The upward revision of taxes and principal fees to provide additional funds for State highway construction is a more important factor. As part of a coordinated attack on the problem of inadequate highways, registration and weight fees were raised one-third, effective July 1, 1953, with respect to vehicles not previously registered, and January 1, 1954, with respect to renewals. The charge for registering a vehicle is now \$8 compared with the previous \$6, and the graduated schedule of weight fees on trucks and commercial trailers is higher in the same proportion. As 92.5 percent of a calendar year's fees are paid between January 1 and June 30, these increases are substantially reflected in 1953-54 receipts and are fully effective in the estimates for the coming fiscal year. Drivers' licenses and transfer fees were increased on July 1, 1953, and this change is more fully evident in the current year's total. In the aggregate, \$24,000,000 additional revenue for highway purposes will be generated by the increase in vehicle fees this fiscal year and this will grow to \$31,400,000 in 1954-55.

The motor vehicle license fee, levied in lieu of local taxes on this type of property, is estimated to produce \$83,000,000 during 1954-55, as against \$79,500,000 this year, and \$72,234,508 in 1952-53. In this instance the annual increases are due to growth in number of units and to the higher prices of motor vehicles. The license fee of \$2 per \$100 of market value (based upon the purchase price and age of the vehicle) has not been changed since January 1, 1949. Except for administration costs and interest and redemption charges on highway bonds, collections from this source are returned to local governments for expenditure. One-half of the net revenue is allocated to counties and one-half to cities.

Drivers' license fees are estimated at \$5,500,000 in 1954-55 against \$5,742,000 this year and \$3,378,810 in the last completed period. The anticipated decline in revenue from this source next year is traceable entirely to the cyclical pattern in license renewals. The larger volume to be received both this year and next, compared with 1952-53, is due to the increase from the former \$2 fee to the present \$3 fee.

A summary of actual and estimated collections under each of the motor vehicle fees during the period covered by this budget is shown below:

	<i>(Millions of dollars)</i>		
	<i>Actual 1952-53</i>	<i>Estimated 1953-54</i>	<i>Estimated 1954-55</i>
Registration and weight-----	\$59.7	\$82.5	\$87.6
Vehicle license (in lieu) -----	72.2	79.5	83.0
Drivers' license -----	3.4	5.7	5.5
Transfer -----	2.6	4.6	5.2
Caravan -----	1.0	0.5	0.5
Other revenues -----	0.4	0.8	0.7
Totals -----	\$139.4	\$173.8	\$182.5

## Motor Vehicle Fuel Taxes—\$256,940,000

The fuel tax estimates presented in this budget are affected by three factors: the increase in tax rates enacted last year, the growth in registrations, and a slight drop in fuel consumption per vehicle. On July 1, 1953, the gasoline tax rate was increased from 4.5 cents to 6 cents per gallon, the Diesel fuel tax from 4.5 cents to 7 cents per gallon, and a storage tax of 1.5 cents was imposed on gasoline held on July 1, 1953, on which the higher rate had not been paid. Since the tax on Diesel fuel is reported and paid by the user, a storage tax on this product was not necessary. Total receipts in the next fiscal year are estimated at \$256,940,000, compared with \$235,820,000 indicated for the current fiscal year period and \$170,871,274 in 1952-53.

Increased motor efficiency and the gain in multiple-car families have caused a slight decline in gasoline consumption per car. From a total of 653.8 gallons per vehicle in 1952-53, current data indicate a drop in consumption rate to 641 gallons this year. With an expected drop in new car sales and a lower disappearance of older vehicles during the coming fiscal year, consumption has been estimated at the 640-gallon level during 1954-55. The situation is even more pronounced in the case of Diesel units. The up-trend in number of Diesel trucks has been accentuated recently by stricter enforcement of this levy, particularly with regard to out-of-State haulers, but the increase in taxpaying units has been accompanied by a decline in the average volume of fuel consumed per registered unit. In the 1952-53 fiscal year 20,835 Diesels consumed an average of 8,416 gallons and current figures indicate 25,400 units with an average consumption of 7,440 gallons this fiscal year. These trends have been projected at 28,000 trucks with 7,200 gallons average consumption in 1954-55.

Comparative revenues from the two fuel taxes are given below:

	<i>(Millions of dollars)</i>		
	<i>Actual 1952-53</i>	<i>Estimated 1953-54</i>	<i>Estimated 1954-55</i>
Gasoline -----	\$163.0	\$223.6	\$243.0
Diesel fuel -----	7.9	12.2	13.9
Totals -----	\$170.9	\$235.8	\$256.9

## Motor Vehicle Transportation Tax—\$12,638,000

The 3 per cent tax on gross receipts from transportation of persons and property is estimated to return net revenue of \$12,600,000 in 1954-55. In addition, there will be approximately \$38,000 in permit fees. The total of these amounts may be compared with \$12,838,000 this year and \$13,359,212 in 1952-53.

Highway transportation companies are allowed to offset one-third of the amounts paid as weight fees against their gross receipts tax liability. Higher weight fees provided last year, coupled with a moderate growth in the number of trucks, will increase the aggregate of these credits from \$2,237,992 in 1952-53 to \$3,000,000 this year and \$3,200,000 in 1954-55.

## Horse Racing Fees—\$23,181,000

Revenue from horse racing fees is estimated to total \$23,181,000 during 1954-55 based on an estimated \$408 million to be wagered in parimutuel pools at California horse racing meets during the period. Approximately \$410 million will be wagered during the current year compared with \$362 million in 1952-53. Generally, wagering follows the trend of income, and the slight drop in disposable income can be related to anticipated decline in the amount to be bet. However, the trends have not been consistent at all tracks and after adjusting to fiscal year periods, revenue in 1954-55 shows no appreciable change from that anticipated for 1953-54.

Receipts from horse racing fees are shown in the table below:

	<i>(Thousands of dollars)</i>		
	<i>Actual 1952-53</i>	<i>Estimated 1953-54</i>	<i>Estimated 1954-55</i>
Pari-mutuel pools -----	\$19,176	\$21,533	\$21,534
Breakage -----	1,293	1,356	1,404
Miscellaneous license fees --	37	37	39
Unclaimed pari-mutuel tickets -----	454	260	204
Totals -----	\$20,960	\$23,186	\$23,181
General Fund Revenue --	\$4,141	\$4,386	\$5,409
Special Fund Revenue ---	\$16,819	\$18,800	\$17,772

During 1952-53 and 1953-54 one million dollars from fees on parimutuel pools were deposited in the Wildlife Restoration Fund and one million dollars accruing to the General Fund were subsequently transferred to the Capital Outlay and Savings Fund. The statute diverting these amounts expires in 1953-54.

## Liquor License Fees—\$8,650,000

Liquor license fee receipts are estimated at \$8,650,000 for 1954-55, compared with \$8,695,000 expected in the current year and \$8,686,641 collected in 1952-53. Liquor license fees in recent years have shown a persistent slight downward trend. This was interrupted in 1952 by the issuance of new on-sale licenses authorized under provisions of the Business and Professions Code relating such licenses to population as determined by the Census. Approximately 400 new licenses were issued between March, 1952, and December, 1953.

The issuance of new on-sale licenses, except those then pending, was discontinued in January, 1954. Estimates presented in this budget are based on this change and the normal downward trend. A special session will be held to consider modifications in alcoholic beverage control laws but no allowance can be made at this time for a possible change in policy.

Revenue from this source is returned to cities and counties on the basis of the value of licenses issued in each jurisdiction without deduction of State administrative costs.

## Other Special Funds—\$32,880,742

Other special fund receipts during the ensuing fiscal year are estimated at \$32,880,742, an increase of approximately \$1,043,000 over the corresponding amount for the current period. The total includes fees collected by regulatory agencies, receipts from sale of fishing and hunting licenses, charges for special services, oil and mineral royalties dedicated to school support, interest on investments held by special funds, and other miscellaneous income items. Detailed information on this revenue is shown in Schedule 2 of the budget summary.

## TAX TRENDS

The basic tax structure of California has not been changed since the essential features were enacted in 1935. Highway user tax rates have been increased to finance an accelerated highway construction program. There have been perfecting amendments to close loopholes, but no important new taxes have been added and there has been no broadening of the base of existing levies.

However, there have been a number of revisions in General Fund taxes over the years, tending to lighten the burden of these levies upon individual taxpayers. For example, State income tax exemptions are \$1,000 higher for both individuals and families, and the maximum tax rate is now 6 percent on taxable incomes in excess of \$25,000, compared to 15 percent above \$250,000 prior to 1944. As far as possible, the State has followed a policy of making technical features of the personal income tax correspond to similar features in the Federal law. This has been done largely as a convenience to the taxpayer, and the changes have been made over a period of years. No single amendment was believed to involve a substantial sum of money at the time the change was made, but at current income levels the cumulative effect is a tax saving to the people of California amounting to many millions of dollars each year.

The retail sales tax law originally contained five exemptions; there are some 26 exemptions at the present time. Some of these have been granted in the interest of more equitable tax treatment; some were enacted for administrative convenience; and some conferred a tax advantage on particular groups or industries. In the aggregate, however, the tax saving and the effect upon State revenue at present business levels amount to additional millions of dollars.

More than \$30,000,000 formerly accruing to the General Fund has been diverted to other uses, such as highway construction and assistance to counties and cities.

General Fund revenue averaged \$173,000,000 in the five fiscal years just before World War II. This is in sharp contrast with the \$775,656,000 estimated for next year, yet the burden of these taxes upon the income of the people of California is less today than

it was 15 years ago. General Fund tax payments this year will amount to \$3.15 per \$100 of individual income and the projections for 1954-55 indicate a ratio of \$3.21 per \$100 of total personal income.<sup>13</sup> The corresponding prewar figures averaged \$3.43 in the five-year period.

While the burden of General Fund taxes is lighter, motor vehicle levies—the chief source of special fund revenue—have increased substantially. The motor

<sup>13</sup> These comparisons are made between taxes received by the State during a fiscal year and income received by California residents in the preceding calendar year. Data on income payments to individuals are available only on a calendar year basis. Since there is a slight lag between the taxable event and receipt of tax revenue by the State, the comparison is believed to be valid.

vehicle fuel tax is now double its prewar level and the Diesel fuel tax is more than twice the old rate. Registration and weight fees have been more than doubled; a driver's license fee has been imposed; and miscellaneous fees have been increased. As a result, highway user tax payments per vehicle will average \$59.06 next year, compared with \$23.69 in 1939-40. Total special taxes will amount to \$1.97 per \$100 of individual income next year, against an average of \$1.44 in prewar years.

A summary of income payments to individuals in California, State tax collections, per capita taxes, and tax payments per \$100 of income to individuals is shown in the following table:

# **SUMMARY OF STATE POPULATION, INCOME OF CALIFORNIA RESIDENTS, AND STATE TAX COLLECTIONS** *Excluding Departmental and Miscellaneous Revenues*

Year	Estimated Population July 1st (Thousands)	Estimated Income of Individuals (Millions)	Income per Capita	Fiscal Year	State Tax Collections			Taxes per Capita			Taxes per \$100 of Individual Income

\* Amounts shown during period of World War II represent civilian population, estimated income of civilians, and per capita civilian income.

Population data, 1936 through 1949, are based on United States Census Bureau estimates; population, 1949 to date, estimated by the State Department of Finance.

Income of individuals, 1936 through 1952, from United States Department of Commerce estimates, *Survey of Current Business*, Aug. 1953. Reported totals for 1941 through 1945 have been adjusted to exclude income of armed forces personnel. Data for 1953 and 1954 are estimates by the State Department of Finance.

Income per capita computed from population and income data shown. Amounts differ somewhat from U. S. Department of Commerce estimates.

Taxes per capita computed on the basis of population January 1st, the midpoint of the fiscal year.

# STATE REVENUE TRENDS SINCE 1939-40

a. SALES, FRANCHISE, AND PERSONAL INCOME TAXES.  
b. FOR STATE HIGHWAYS, DEPARTMENTS OF MOTOR VEHICLES AND HIGHWAY PATROL, AND APPORTIONMENT TO CITIES AND COUNTIES.

\* Credits to the General Fund for overhead charged to agencies supported from special funds. The adjustment is necessary to avoid duplication of the amounts shown.

# Analysis of Expenditures, 1954-55

Basically, the expenditure requirements of State Government arise from the number of persons to be served and the level of service to be provided. While both factors are reflected in the budget total, the population element is beyond the control of the budget-maker and the level of service is only partially controllable. In some instances, such as school support and debt payments, expenditure levels are dictated by provisions of the State Constitution. Other items, such as highway operations or payments for old age security, are determined by provisions of existing law. In yet another category are the amounts appropriated annually as a result of legislative action on the Governor's budget recommendations. Only in this third group is there any substantial degree of budget-making control over the quantity and quality of governmental service.

The expenditure program contained in this State budget for the fiscal year beginning July 1, 1954, and ending June 30, 1955, totals \$1,423,345,684. Of this amount, \$1,002,665,990, or more than 70 percent is established by constitutional mandate or fixed by provisions of other continuing law. Only \$420,679,694, or less than 30 percent, represents the controllable segment where costs are in some degree subject to direct determination by the Governor and authorization by the Legislature in approving the Budget Bill. Mandatory appropriations are \$40,794,529 above the corresponding total in the current year, due chiefly to growth in school attendance and a greater volume of highway construction. Controllable costs are \$47,064,431 less than in the current year, largely as a result of careful analysis of expenditure requirements and decreases in recommended appropriations for capital outlay.

The accompanying tabulations (opposite page and Schedule 3) summarize expenditures under three general headings: (1) State operations, which include expense of the Legislature, the courts, the executive offices, and all departments, boards, commissions, and institutions; (2) capital outlay for highways, buildings, and other purposes, and (3) assistance to local governments for school support, social welfare, public health, roads and streets, and other activities.

Expenditures for state operations amount to \$375,192,679, or approximately one-fourth of the budget total. Roughly one-fifth is represented in capital outlay—\$214,363,069 for new or improved highways and \$47,953,793 for other improvements to the State's physical plant. More than half of the total, \$785,836,143, will be paid to local governments in the form of subventions for specific purposes and shares of revenue collected by the State but earmarked by law for local use. Comparative amounts for each of these three broad purposes during the years covered by this budget are given in the table below. A long-

term picture of developments in each section is given in Chart 6.

	(Millions of dollars)			Change from 1953-54	
	Actual 1952-53	Estimated 1953-54	Proposed 1954-55	Amount	Pct.
State operations -----	\$320.3	\$356.5	\$375.2	\$18.7	5.2
Capital outlay -----	207.2	318.4	262.3	—56.1	—17.6
Local assistance -----	649.2	754.7	785.8	31.1	4.1
Totals -----	\$1,176.7	\$1,429.6	\$1,423.3	—\$6.3	—0.4

From the budget viewpoint education is the principal function of State Government. Approximately 37.6 percent of the total budget for 1954-55 will be spent for some activity in the field of education. This includes the administrative services of the State Department of Education; maintenance of the State Library; support of the university, colleges, and special schools; apportionments for public schools; free textbooks; contributions for teachers' retirement; child care centers; and capital outlay for educational institutions.

The second ranking category, accounting for 26.2 percent, involves expenditures for highways and motor vehicle regulation. This includes not only maintenance and construction of the State Highway System, but also regulation of motor vehicles, support of the Highway Patrol, and allocations for county roads and city streets. The two items—education and highways—account for 63.8 percent of all expenditures projected for the next fiscal year.

Far below these two leading activities are the amounts for social welfare and public health (12.6 percent of the total), mental hygiene and corrections (7.9 percent), conservation and development of natural resources (4.7 percent), fiscal affairs which include tax collection and financial management (2.2 percent), and all other activities such as the regulation of business and industry, support of the Legislature and courts, civil defense, general administration, and debt service, which in the aggregate account for 8.8 percent of next year's budget.

Expenditures for each of these seven functional classifications are outlined in the following paragraphs.

## Education—\$534,515,000

The total of \$534,515,000 budgeted for education in the next fiscal year is the net result of several underlying trends. Most important of these is the rapid growth in public school attendance. The number of pupils in average daily attendance at California public schools has increased by 155,331 this year and under the constitutional provision stipulating a state contribution of \$180 per pupil, this will add approximately \$28,000,000 to the State's mandatory school apportionments. Average daily attendance this year is estimated at 2,192,500, a new attendance record that will automatically result in state school apportionments of \$394,650,000 during 1954-55. In addition, \$990,000 will be provided for driver education, under motor vehicle safety legislation adopted last year.

This, together with other adjustments will result in total state school apportionments of \$395,623,000 during the 1954-55 fiscal period.

The State's obligation to meet a substantial share of the interest and redemption on school building bonds is a second factor contributing to expansion in education expense. Assistance to school districts for this purpose will require payments aggregating \$8,772,500 in the coming year, an increase of \$1,452,000 over the current figure.

In total, state assistance for local school purposes next year, including support, free textbooks, teachers' retirement, maintenance of child care centers, and debt service, will amount to \$434,332,000, an increase of \$29,265,000 over the corresponding amount in the present fiscal year.

A third major factor in the budget program for education is the continued increase in college enrollments. As in the case of public schools, the service demands upon state colleges this year stand at an all-time record and additional students are expected in 1954-55 as expanding capacities allow these educational centers to accept their share of the growing number of high school graduates. Enrollments at the 11 state colleges are expected to reach 31,035 full-time students next year, or 1,937 above the current total. In line with this growth, recommended appropriations for college support are \$21,944,000, an increase of \$1,374,000 above the estimated requirements in the present fiscal year.

In view of the added demand upon state funds for college support, and the even more urgent needs to come as future enrollments reflect the growing wave of college-age youth during the next few years, the budget program provides for an increase in the level of student fees established in 1933. Current fees aggregating \$30 a year would be increased to \$49 under this recommendation, providing approximately \$800,000 more for direct expenditure by the colleges and bringing California charges more nearly into line with the \$70 national average for similar tax-supported colleges.

Enrollments on the eight campuses of the University of California are estimated at 34,505 during the next school year, an increase of 1,820 over the number attending these institutions in the current period. The support program of the University from all funds for the 1954-55 Fiscal Year involves expenditure of \$81,720,000, an increase of \$7,108,000 over the total in 1953-54. The major portion of this increase is attributable to the further activation of the Medical Centers at San Francisco and Los Angeles, the first full year of operation and the addition of senior year courses at the College of Letters and Sciences at Riverside, the removal of Santa Barbara College to the new campus at Goleta, and provision for the usual salary adjustments and promotions.

Expenditures for University support from the state funds total \$54,632,000, a decrease of \$797,000 from the corresponding total in 1953-54. This decrease is made possible by a suggested increase in student fees from \$84 to \$140 a year which is estimated to produce \$1,900,000 in added revenue. The University is also

requested to expend \$6,600,000 of its accumulated reserve funds to aid in the support of the expanded program. The major part of these reserves has been built up out of payments by the Federal Government for overhead on research contracts during and since the war.

A material decline in expenditures for capital outlay at all educational centers is the final determinant in the trend of education costs budgeted for next year. From a total of \$36,722,000 in the current year—third highest in the postwar building program—capital outlay expenditures will drop to \$14,922,000 in 1954-55.

The capital outlay program for the state colleges consists primarily of additional classroom buildings to meet overcrowded conditions resulting from large enrollment increases. These facilities are added at Fresno, Long Beach, San Diego, San Jose, and Polytechnic's Kellogg campus.

Construction of a gymnasium and athletic field at the California School for the Deaf, Berkeley, is also provided. The new building will permit the assignment of the old gymnasium for the sole use of the California School for the Blind.

The capital outlay program for the University, other than for agricultural projects, involves for the most part conversion of old buildings on the Los Angeles campus for more adequate use and the purchase of initial complements of equipment for the activation of programs in projects already constructed. One new classroom building on the Berkeley campus is financed. Expenditures for nonagricultural projects total \$4,790,150.

Receipts from the Fair and Exposition Fund to the University under a continuing appropriation amount to \$3,540,530 for 1954-55. Projects financed from this source total \$1,279,600, leaving \$2,260,931 to be added to plant reserve for expenditure at a later date as agriculture projects are approved by the Regents.

A summary of expenditures for education in 1954-55, together with corresponding figures for the two preceding fiscal years, is given in the table below:

Expenditures for Education

## Highways, Streets, Traffic, and

### Motor Vehicle Regulation—\$373,215,000

Budget recommendations for the next fiscal year intensify the State's attack upon the twin goals of securing highway improvements and reducing traffic accidents. Full effect of the accelerated highway program adopted last year will become apparent in 1954-55 with the spending of \$214,363,000 for construction. This represents an increase of \$9,777,000 over the current year and \$89,085,000 more than was spent for this purpose in 1952-53. Including expenditures from federal aid funds, this budget involves 585 miles of state highways including 162 miles of multi-lane urban freeways and intercity expressways, in addition to a large mileage of rural routes.

Evidence of the progress being made in meeting the State's highway problem can be found in the fact that a year ago there were only 60 miles of full, multilane freeways. Now there are 115 miles of these highest type modern arteries, and an additional 100 miles are under construction. In the 14,000-mile system, there are 1,250 miles of multilane divided highways and nearly half of these are expressways or full freeways with all intersecting traffic carried on separation structures.

Taking advantage of the additional funds made available for advance acquisition of rights of way, expenditures for this purpose during 1954-55 will amount to \$6,000,000, compared with \$4,985,686 this year. This program allows the State to obtain adequate rights of way before property values are inflated by the prospect of a new highway, increasing population density, or extensive development.

State payments of motor vehicle revenue to counties and cities for roads and streets will amount to \$89,248,000, a drop of \$6,729,000 from the present fiscal year, but \$10,000,000 more than was distributed for this purpose in 1952-53. Provision was made at the 1953 legislative session to speed up the release of gasoline tax, and this change will earmark 14 months' revenue for local units during the current fiscal year. Only the usual 12 months' collections will be available in 1954-55.

Second phase of the attack on highway problems involves an increase in the number of Highway Patrol officers. During the last calendar year there were 69,249 reportable accidents on state highways, 45,910 persons injured, and 2,336 rural traffic fatalities. The 1954-55 Budget proposes to add 20 traffic sergeants and 200 patrolmen to the present traffic force of 1,517. The cost of this expansion will be approximately \$1,315,000 per year, or the equivalent of 20 cents for each registered vehicle.

As a third approach, the Governor has recommended continued emphasis upon driving tests and more thorough examinations of applicants for drivers' licenses than is possible under the increased work load of the current year. The Department of Motor Vehicles is this year confronted with an 18 percent increase in the number of applicants. Twenty-four additional positions were established in the Division of Drivers' Licenses on January 1, 1953, in order to approach the same level of service that has been authorized in past years.

A summary of expenditure recommendations for highways, traffic control, and motor vehicle regulation is given below:

#### Expenditures for Highways, Streets, and Motor Vehicle Regulation

## Social and Industrial Welfare, Public

### Health, and Related Activities—\$179,171,000

Expenditures in the broad area of health and welfare during 1954-55 will amount to \$179,171,000, a decrease of \$297,000 from the corresponding total of the current fiscal year. Activities comprised in this group include public assistance, public health, industrial welfare, assistance to veterans, and the State's program for stabilization of employment. Reductions in the volume of building to be undertaken at the Veterans' Home and in the hospital construction program jointly financed with the Federal and local governments are the principal factors in the expenditure decline. These will more than offset increases in the cost of public assistance, health activities, and other welfare items.

Most of the State's expenditures for social welfare and public health are made through the county governments. Subventions for these purposes and for services to veterans during 1954-55 are estimated at \$159,249,000, or nearly 90 percent of all health and welfare payments. Public assistance (old age security, assistance to the blind, and aid to needy children) will amount to \$140,612,000, and an additional \$3,811,000 is provided for hospital care of the aged and blind, inspection of boarding homes for aged and children, and support of the State's adoption program. Of these assistance programs, old age security is the largest both from the viewpoint of the number of persons involved and State expenditure requirements. The number receiving this aid has been relatively stable during recent years, partly because of the great demand for workers which kept people employed beyond the usual retirement age or made it possible for more young people to support their aging relatives, and partly because of the increasing importance of the Federal old age retirement insurance program, which now provides pension allowances for a third of those over 65 years of age.

An increase in the number of recipients under all three programs is anticipated next year. In some degree this is an adjustment for an expected slight tightening in employment, but chiefly it is due to our growing population. The estimated average number of persons to be granted assistance during 1954-55, average monthly payments, and the State's share of these monthly amounts are summarized below.

	Average number of recipients	Average monthly payment	State's share of aid
Old age security-----	274,900	\$69.25	\$30.88
Aid to needy children—			
Family groups-----	174,700 *	37.51 *	13.65 *
Aid to needy children—			
Foster homes-----	9,650	61.25	37.00
Aid to the blind-----	11,820	85.35	38.33
Aid to partly self-supporting blind-----	460	88.70	73.93

\*Including needy relatives.

Administrative expense of the State Department of Social Welfare incurred in coordinating and supervising the assistance programs will amount to \$2,194,000 during 1954-55, an increase of \$47,000 over the estimated cost of these activities during the current fiscal year.

Undoubtedly the State's role in public health passes largely unnoticed by most of the people of California, for here again the greater part of all expenditure is made through county, city, or district offices. Enumeration of a few of the services either provided or partly financed by the State illustrates the importance of this work, however. They include the inspection of water and sanitation facilities, disease control, enforcement of pure food and drug laws, maternal and child health, aid to crippled children, public health nursing, mosquito control, prevention and treatment of tuberculosis, and financial assistance for local hospital construction. In total, the 1954-55 budget provides \$19,174,000 for these purposes, \$1,053,000 less than the amount required in the current year. In large measure this is due to the decline in hospital construction from the present high level and completion of a new central office and laboratory building for the State Health Department. Also, the State's appropriation for mosquito control in 1954-55 will return to the usual \$400,000 annual amount after an additional emergency allowance of \$300,000 in the current year to prevent the recurrence of an encephalitis epidemic similar to that of 1952. Excluding these three items, expenditures for public health in 1954-55 will exceed the current year's total by \$371,000. One of the principal changes is the transfer of the diagnostic expense incurred under the crippled children program from operations of the central state office to local health departments. In the initial years of this activity, all expenditures were made by the State in order to assure that limited funds would be used to meet the most urgent needs on a state-wide basis and to retain direct control over the costs involved. As the program became firmly established and extent of the problem became evident, an increasing share of the administration has been consolidated in county health offices. Completion of this process next year accounts for the decline in recommended appropriations for the State Health Department and the increase in expenditures for crippled children, shown

in the accompanying summary table. During the 1954-55 Fiscal Year, assistance will be given to more than 50,000 crippled youngsters at a cost of \$3,600,000 in state funds plus a contribution of \$1,972,000 by local governments.

In addition to affording veterans a means of securing a home or farm under the long established, self-liquidating Farm and Home Purchase Act, the State operates a Veterans' Home which in 1954-55 will have an average membership of 1,862. It also extends financial assistance to veterans and veterans' dependents in securing an education, provides advice on veterans' problems, and assists in presenting claims against the United States arising out of war service. The increase in expenditures next year is related to the growing number of veterans who have served in the Korean War.

The Department of Industrial Relations is charged with responsibility for administering State labor laws and promoting the welfare of wage earners in California. Among other activities, this unit enforces safety regulations and laws relating to the employment of women and children, establishes apprenticeship standards, supervises housing requirements (with particular regard to hotels, apartment houses, motels, trailer courts, and labor camps), regulates employment agencies, and collects data on employment, wage rates, and hours of labor. Additional services in connection with the settling of industrial accident claims, partial withdrawal of federal funds provided for support of the apprenticeship standards program, and larger contributions for accident compensation under the subsequent injuries law are the principal factors contributing to the moderate expenditure increases recom-

\* Support of crippled children program amounting to \$600,000 transferred to local assistance section.

mended for next year. The subsequent injuries law was enacted in 1945 to encourage employment of handicapped persons by providing that the State shall contribute to the compensation of such individuals who sustain a subsequent industrial injury. The cost of giving these benefits has been increasing over the years both with the growth in employment and with acceptance of the program by employers, but there has also been real progress in providing useful work for people who a few years ago would have been forced to live on a disability allowance, with a consequent drain on the compensation insurance fund.

Recommended appropriations for each of the general activities making up the social welfare and health functions of the State during 1954-55, together with corresponding totals for the current period and the last completed fiscal year, are shown in the accompanying table.

### ***Mental Hygiene and Corrections—\$113,141,000***

Perhaps the most fundamental change in governmental policy during recent years has occurred in the field of mental hygiene and corrections. In contrast with mere custody, the State now emphasizes treatment and rehabilitation. The present objective is to return mentally ill patients to useful life as rapidly as possible, bearing in mind the best interest of both the patient and the community. This program is continued in the 1954-55 Budget, and will be extended moderately through the operation of additional specialized receiving and treatment centers in the various mental hospitals, and new facilities allowing a more complete segregation of inmates at prisons.

During the next fiscal year the State will provide care and treatment for an average of 46,400 patients in its mental hospitals, an increase of 3,600 over the corresponding total in 1953-54. It will place in operation one completely new maximum security hospital near Atascadero, and will expand substantially the capacities of five older institutions. The new facility at Porterville, dedicated in May of last year, will more than double in effectiveness with an average of 1,408 patients, as compared to 583 during its first year of operation. With this installation, the State has at last begun to discharge its responsibility to the thousands of mental defectives who cannot be cared for in existing hospitals.

Recommended expenditures for mental hygiene total \$76,269,000, a reduction of \$16,518,000 from the estimated cost during the current fiscal year. The entire decrease occurs in provisions for capital outlay, which in 1954-55 will amount to \$11,874,000 against the unusual total of \$34,503,000 this year. Current expense—including, among other things, the salaries of hospital personnel and the cost of food, clothing, and medical supplies—will total \$64,395,000, or \$6,111,000 more than during the current year. The gains in patient population and the relatively higher operating cost of the new maximum security hospital and the intensive treatment units are the principal factors contributing to this change.

Continued emphasis is being placed on the assignment of certain patients to family care outside the

hospitals as a means of providing a home environment, expanding effective capacity, and achieving operating economies. Provision for this phase of the program is increased 16 percent in the new budget.

The principal item contemplated in capital outlay proposals for next year is a \$9,335,755 development at Metropolitan State Hospital in Norwalk. Additional bed capacity is urgently needed, and expansion of this existing institution offers an efficient and economical solution.

In the field of corrections, the State now operates seven facilities for adult offenders, with an inmate population estimated to average 15,390 during 1954-55, or 1,036 more than this year. Existing facilities are overcrowded and the additional capacity will be obtained by leasing temporarily a vacant military base to house 450 older prisoners, establishing a prison farm at Tehachapi, and providing additional space at all prisons except San Quentin and Terminal Island. Operating expense of correctional institutions for adults will increase from \$18,610,000 in the current year to \$21,380,000 in 1954-55. While growth in the number of prisoners is the principal factor in this change, other elements include: (1) provision for an increase in the number of parolees, with an accompanying expansion in supervisor positions; (2) partial transfer of the prisoner education program from local school districts to the State; (3) greater emphasis on inmate classification; and (4) preparation for transfer of the Medical Facility from Terminal Island to Vacaville.

In order to meet the continuing population growth and reduce overcrowding at prisons, construction plans in 1954-55 call for additions which will ultimately accommodate 4,600 more prisoners. Among the more immediate moves are the Tehachapi prison farm, the leased military base, and additional buildings at the institution near Soledad. Longer term expansion involves plans for additions to existing institutions in the south and a new prison to be located in the northern part of the State. Capital outlay expenditures are budgeted at \$4,515,000, compared with \$8,415,000 for this purpose in the current year.

Institutions operated by the Youth Authority for the correction of juvenile offenders will have a substantially larger capacity as a result of the two new reception centers to be opened this year, and additions at two of the existing schools. The average population of these facilities will increase from 1,851 currently to 2,358 in fiscal 1954-55. The reception centers in particular are the keystones in the program to give intensive study to the medical and training needs of these young offenders, leading to better classification and segregation, and effective rehabilitation. More complete discharge of the State's responsibilities in these areas, coupled with a greater number of former inmates under parole supervision, will require operating expenditures of \$9,105,000 in 1954-55 as against \$6,801,000 in the present fiscal year.

With completion of the reception centers and additions at existing schools, the building program of the Youth Authority will drop sharply from \$6,783,000 this year to \$900,000 in the coming period. Recommended budget appropriations include acquisition of a site for a new training school, additions at the Paso

Robles and Los Guilucos schools, and replacement of old structures at Preston School of Industry.

#### Expenditures for Mental Hygiene and Corrections

#### Conservation and Development of Natural Resources—\$67,171,000

This classification brings together the activities of several state agencies in the broad field of natural resource development. Included are the services to agriculture and mining industries, fish and game conservation, beach and park operations, watershed protection, water resource development, flood control, and support of agricultural fairs. In total, expenditures amounting to \$67,171,000 are provided for these purposes during 1954-55, a decline of \$3,326,000 from the present year. A slight rise in current operating expense will be more than offset by a drop in capital outlay for all items except wildlife conservation.

The principal changes contemplated in the operating program proposed for next year relate to the Department of Fish and Game. Work on the tuna tagging project, undertaken to obtain information regarding the origin of fish taken by California boats, will be intensified in order to provide data essential to the development of a sound conservation policy for this important industry. Provision is also made for the operation of fish hatcheries and the management of waterfowl areas sponsored during recent years by the Wildlife Conservation Board. Capital outlay expenditures by the board for the development of fish hatcheries, waterfowl feeding areas, and game refuges will be increased substantially in the next year in order to complete the conservation program now authorized to the fullest extent possible with funds available.

Other features of budget recommendations in the field of natural resources include: (1) a slight expansion in the number of honor camps operated by the Division of Forestry in cooperation with the Departments of Corrections and the Youth Authority; (2) provision to reduce the backlog of studies needed in the regulation of petroleum and natural gas production; and (3) additional assistance in the activities of soil conservation districts, under legislation adopted last year. With the exception of the wild life program mentioned above, expenditures for capital outlay by all conservation and development agencies will be reduced in 1954-55 from the levels of the current year. Chief items in the capital outlay program in this budget include allocation of \$2,567,000 for

local agricultural fairs required under existing laws which govern distribution of horse racing revenue, \$2,472,000 for beach and park development, and \$1,785,000 required in connection with flood control and reclamation projects under jurisdiction of the State Reclamation Board.

#### Fiscal Affairs—\$30,775,000

Expenditures for fiscal management and tax collection in 1954-55 are budgeted at \$30,775,000, moderately below requirements of the current year. Of this total, \$8,432,000 will be used for support of control and business management functions, including budget preparation, purchasing, maintenance and operation of buildings, disbursing, auditing, financial reporting, and similar activities. In the aggregate, the cost of these items will be \$155,000 less than during the 1953-54 Fiscal Year.

Expenses of tax collection and administration of revenue laws are projected at \$21,641,000 in the budget year, or approximately \$1,113,000 more than is devoted to this purpose in the present program. Three factors account for virtually all of this increase: (1) the larger volume of personal income tax returns; (2) more complete employment in positions now authorized for sales tax enforcement; and (3) collection of data required by the Board of Equalization in discharging its constitutional duty to review and equalize the assessment of property among the several counties of the State in connection with local tax levies.

Capital outlay for office buildings and other structures will decline from \$2,091,000 in the current year to \$703,000 during 1954-55.

A summary of the items comprising expenditures for fiscal affairs is given below:

#### Expenditures for Fiscal Affairs

	(Thousands of dollars)			Change from	
	Actual 1952-53	Estimated 1953-54	Proposed 1954-55	1953-54 Amount	Pct.
State Operations:					
Control and Management:					
Board of Control	\$20	\$24	\$24	\$ ---	---
Controller	1,705	1,793	1,833	40	2.2
Department of Finance	5,551	6,560	6,347	-213	-3.2
Treasurer	229	211	228	18	8.4
Subtotals	\$7,504	\$8,587	\$8,432	-\$155	-1.8
Tax Collection:					
Board of Equalization	\$14,209	\$15,270	\$16,002	\$732	4.8

Office buildings, etc.	\$3,742	\$2,091	\$703	-\$1,388	-66.4
Grand Totals	\$30,035	\$31,205	\$30,775	-\$430	-1.4

#### Other Expenditures—\$125,357,000

Expenditures not included in one of the six categories summarized above will amount to \$125,357,000 during the 1954-55 Fiscal Year under the recommendations contained in this budget. This represents an increase of \$1,333,000 from the corresponding total in the current fiscal year.

The principal items in this miscellaneous category are the apportionments of motor vehicle license fees and liquor license receipts to cities and counties. The former represents collections made by the State from motor vehicle owners and stands in place of local taxes on this type of property. With the exception of amounts spent for administration and approximately \$2,500,000 required for interest and redemption on highway bonds, all revenue from this source is returned to the local units for expenditures. As a result of the increasing number of higher priced vehicles, license fees apportionments are expected to increase \$3,649,000 next year to reach a record total of \$77,537,000. Liquor license distributions will amount to \$8,640,000, a slight decline from the amount indicated this year.

Two substantial expenditure items carried in the current program are not repeated in the recommended expenditures for next year: \$2,284,000 for civil defense equipment and supplies and \$1,823,000 for emergency repairs in areas damaged by 1952 earthquakes.

Expenditures for construction of armories housing units of the National Guard in fiscal 1954 will be substantially below the current year level.

In accordance with recent practice, an unallocated fund of \$2,450,000 is provided to meet unforeseen developments in the State's building programs. This money will be distributed to approved projects by the Public Works Board as the year progresses.

Principal changes contained in recommended amounts for State operations include provision for the regular session of the Legislature in 1955. As this meeting will run approximately four months as compared with the one-month budget session in 1953-54, legislative expense will be higher next year. Another cyclical type of expenditure to be considered in the 1954-55 budget is the printing of ballots for the general election to be held next November. This item accounts for essentially all of the \$230,000 increase shown in the table below for general administration.

Less: Amounts in Sinking Funds, November 30, 1953, Available for Payment of Principal.....						60,271,493	-----
NET BONDED DEBT.....						\$559,119,507	-----

1 There is \$174,611.24 in the Sacramento State Building Interest and Sinking Fund in excess of the amount necessary to retire all outstanding bonds.

2 Money was transferred from the General Fund to the Bond Sinking Fund of 1943 to pay the principal and interest on these issues to final maturity; however, \$5,000,000 was loaned to the Highway Fund for the Golden Gate Bridge and Highway District. This loan will not be repaid until after final maturity of the bonds.

3 Money is transferred from the Motor Vehicle License Fee Fund to the General Fund in the amount to meet the annual interest and redemption payments.

4 Money was transferred to the School Board Retirement Fund to pay part of the annual redemption requirements on the School Building Bonds. In addition, repayments from school districts and interest earned on the bond funds is available to pay part of the interest and redemption payments.

5 The servicing of these bonds is primarily the responsibility of the San Francisco Harbor Improvement Fund and the Veterans Farm and Home Building Fund; however, in the last analysis they are general obligation bonds.

6 Callable on or after January 2, 1951, in the amount available in the sinking fund.

7 Callable on or after January 2, 1955, in the amount available in the sinking fund.

8 \$500,000 callable on or after March 1, 1971.

9 Callable on or after January 2, 1941, in the amount available in the sinking fund.

## **Position Titles**

In the detailed departmental and agency budgets, positions included in the state civil service have been set forth under the official class titles established therefor by the Personnel Board. Positions exempt from civil service have been listed by their departmental titles, as set forth on the official roster of employees maintained by the Personnel Board, or as maintained by the State Controller under the central pay installation.

## **Positions Now Authorized**

In general, the positions included under this heading are those which were established as of July 1, 1953, together with those for which funds were provided in the 1953-54 Fiscal Year Budget or otherwise authorized as of that date. Amounts shown for positions now authorized represent actual salary payments for 1952-53 and estimated salary payments during 1953-54 and 1954-55, assuming full-year employment, unless the position is estimated to be established materially later than July 1, 1953. In such cases only the cost from date of establishment is shown.

Replacement of positions at a higher level either (a) upon completion of a training period or (b) after temporarily "down grading" are included under this heading. Such transactions are indicated by showing both class titles on the same line, with a salary range of the minimum salary of the lower class and the maximum of the higher class. Examples: (a) administrative trainee-junior staff analyst, \$295-415, (b) junior-intermediate clerk, \$200-281.

Continuation during 1954-55 of positions authorized temporarily until June 30, 1954, are included under "Positions Now Authorized." These positions may be identified by an explanation in parentheses indicating the extent of the continuation, such as: (extended to December 31, 1954) or (extended to permanent).

## **Proposed New Positions**

Proposed positions for the budget year which have not yet been established or authorized have been listed under this heading. Proposed increases in time of part-time positions are also listed under this heading, if the increase amounts to one-half time or more; otherwise the position is shown under "Positions Now Authorized" on the increased time basis.

Proposed new positions include upward replacement of positions only to extent that they involve major organizational changes.

## **Estimated Salary Savings**

Unless indicated to the contrary by experience and anticipated conditions, a lump sum deduction is made

from each group total of salaries and wages in anticipation of savings which are estimated to accrue because of temporarily vacant positions, and the lower entrance rates of salary at which replacement personnel are paid.

The amounts of such estimated savings may not correspond to the number of positions deducted because of adjustments to the latter for positions authorized to start after July 1. The amounts shown opposite such positions are for the estimated costs for the period of occupancy only and, therefore, there is no money savings to be anticipated.

## **Number of Positions**

Filled positions in 1952-53 are counted to the nearest tenth of full-time and full-year employment, except for members of boards and commissions, temporary help, etc.

Authorized positions for 1953-54 and 1954-55 are counted to the nearest tenth of full time. Full-time positions authorized to start later than July 1st are counted as full positions, but the totals are adjusted for the unused time by a deduction under estimated salary savings.

All items enclosed in parentheses in the number of positions columns are excluded from position totals.

## **Salary Range**

Rates of pay listed under this heading represent salary ranges established by the State Personnel Board for civil service, state college, and Maritime Academy classifications, or fixed by statute or by the appointing authority and approved by the Director of Finance for other exempt positions.

The amounts shown indicate (1) the minimum rate and (2) the maximum rate. The minimum of the range serves as the normal entrance rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class.

Under the revised pay plan adopted by the State Personnel Board on July 25, 1947, the intermediate steps in each salary range have been fixed at a uniform percentage interval of 5 percent, except that no interval is less than \$10. This plan is used also for most salaries fixed for exempt positions. A table of salary ranges in the state service is included at the end of this section. Thus, \$220-268 indicates a monthly salary range having steps of \$220-\$231-\$243-\$255-\$268. Salary ranges for instructional positions in the state colleges and in other state agencies are set forth below.

# Schedule of Usual Salary Ranges in the State Service \*

Range No.	Steps					Range No.	Steps				
9	\$140	\$150	\$160	\$170	—	30	\$415	\$436	\$458	\$481	\$505

Principal Instructor, C. P. C. and Fresno <sup>b</sup>	—	—	—	6,672—8,940	6,672—8,940

### EXTENT OF PROFESSIONAL PREPARATION

- CLASS I Persons whose academic or professional preparation is deemed equivalent to four years beyond high school graduation or holders of recognized bachelor's degrees.
- CLASS II Persons whose academic or professional preparation is deemed equivalent to five years beyond high school graduation or holders of recognized master's degrees.
- CLASS III Persons whose academic or professional preparation is deemed equivalent to six years beyond high school graduation.
- CLASS IV Persons whose academic or professional preparation is deemed equivalent to seven years beyond high school graduation or holders of recognized doctor's degrees.

<sup>a</sup> Based on salaries effective October 1, 1953.

<sup>b</sup> The positions for C. P. C. (California Polytechnic College) and the Agriculture Division of Fresno State College receive, in addition to the above schedule, three steps, or approximately 15 percent, if employed for 12 months instead of the normal 10-month teaching period.

# Salary Schedule for Instructional Positions—Other State Agencies

(Ranges and Criteria of Application for Teachers)

Range	Steps				
A -----	\$325	\$341	\$358	\$376	\$395
B -----	341	358	376	395	415
C -----	358	376	395	415	436
D -----	376	395	415	436	458
E -----	395	415	436	458	481
F -----	415	436	458	481	505

## CRITERIA FOR RANGE DETERMINATION

ACADEMIC  
(Preparation)

VOCATIONAL  
(Preparation)

Range A Emergency or special credential, without bachelor's degree.

—

Range B Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential.

—

Range C Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 12 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential.

Three years' experience as journeyman craftsman.

Range D Bachelor's degree or regular elementary, junior high, or kindergarten-primary credential; plus 24 upper division or graduate units which were not counted toward degree or which were taken subsequent to obtaining credential or regular secondary credential.

Qualification for special secondary vocational Class A Credential in T and I and PS Education.

## Merit Salary Adjustments

Subject to availability of funds, Section 18856 of the Government Code requires that each employee in the civil service receive an increase of one intermediate step in his salary range during each year in which his service rating is equal to or above a reasonable minimum, which has been fixed by the Personnel Board as "Standard."

Employees in salary ranges with a maximum step of \$415 and below may receive an increase from the first step to the second step of their salary range upon satisfactorily completing their probationary period (six months). In addition, employees in salary ranges with a maximum step of \$243 may receive a further increase from the second step to the third step upon satisfactorily completing the second six months of continuous employment.

Provision for the salary adjustments to which present employees will become entitled during the balance of the current year and in the budget year has been included in the amounts shown opposite each position or group of like positions. Inasmuch as turnover of personnel generally results in replacement at a lower step in the salary range, the amount budgeted for salary adjustment opposite each position is offset by a lump sum deduction for downward adjustments included in the deduction for "estimated salary savings."

Similar amounts for salary adjustments have been provided for exempt positions, where requested by the agency. Such adjustments have been computed in accordance with the salary schedule in effect for the respective positions.

## Salary Range Adjustments

In determining the appropriate salary level for a class, a number of factors are taken into consideration by the State Personnel Board:

1. Rates of pay of private employers and of other public jurisdictions for comparable work.

2. Internal consistency of rates; equal pay for equal work, and pay differentials based on differences in the kind, difficulty and responsibility of the work.

3. Conditions of work in the class.

4. The adequacy of existing appropriations which may be used for salary increase purposes.

The rates of pay of a group of approximately 1,500 laborers, workmen, and mechanics in the state service are established at the hourly wage rates negotiated with private contractors in the county in which they are employed. They receive all the collateral benefits, such as premium pay for night work, travel time, and overtime received by employees in private industry and, in addition, they receive the added state benefits of vacation and sick leave with pay, plus 5 cents and 10 cents an hour increase after one and two years' employment with the State.

The salary ranges shown are those in effect on January 1, 1954, and salaries and wages expenditures for both the 1953-54 and 1954-55 Fiscal Years reflect rates of pay then in effect. Statutory salaries are provided for at rates inclusive of enactment by the 1953 Legislature (Chapter 1613, Statutes of 1951, Statutory Salary Equalization Plan, and other special enactments).

13					(21.7%)
14	<b>GENERAL ANALYSIS</b>				
15	Number of positions-----	49.5	47	47	-
16	The increase in total expenditures is due principally to the increase in the number of days in the legislative session. Expenditures are more comparable to those of 1952-53 Fiscal Year. Generally, provision is made to render the same level of service as that provided in the 1952-53 Fiscal Year with no major items of increase.				
17	Chapter 1445, Statutes of 1953, abolished the Code Commission and created the Law Revision Commission. As a result of this legislation, reimbursements for services rendered to the Code Commission by this bureau have been eliminated.

## JUDICIAL COUNCIL

The Judicial Council surveys the condition of business in the courts with the view of simplifying and improving the administration of justice. Suggestions are submitted to the courts for expediting business and helping to secure uniformity. The chairman also equalizes the work of judges by making assignments to courts with heavy dockets. The council also collects and compiles statistics on all courts and makes many special studies looking to the improvement of the administration of justice, some of which are required by the Legislature and others voluntarily undertaken.

## Governor's Office

## OFFICE OF CIVIL DEFENSE

Pursuant to Chapter 1, Division 7, Military and Veterans Code, as amended (Civil Defense Act of 1950) the Governor has assigned the duties thereunder to personnel in his office, known and referred to as the Office of Civil Defense. This office is responsible for coordinating the plan and program for the civil defense of the State.

Headquarters Office at Sacramento

## GENERAL ANALYSIS

Number of positions----- 149.6 125.5 115.5 -10

The program is tentatively continued at the presently reduced level of service. Studies are currently being made by the League of California Cities and the County Supervisors' Association. The reports from these organizations will have a bearing upon the budget of this agency and a final recommendation on this budget will be made after these reports have been received and reviewed.

A 25 percent reduction in personnel is being effected during the current year with reductions in related operating expenses. Likewise salary ranges have been reflected at the revised rates effective February 1, 1954, in accordance with a Personnel Board classification and salary survey.

The following 44.5 positions are being abolished during the current year:

Classification	Date of Abolishment	Classification	Date of Abolishment
Deputy director-----	June 30, 1954	Two assistant chiefs—public information-----	June 30, 1953
Executive secretary-----	Feb. 12, 1954	Three field representatives—public information-----	June 30, 1953
Secretary-stenographer-----	June 30, 1954	Assistant chief—training-----	Oct. 31, 1953
Assistant director-----	June 30, 1954	Field representative—training-----	Oct. 31, 1953
Assistant director-----	June 30, 1953	Intermediate stenographer-clerk—	
Intermediate stenographer-clerk-----	July 14, 1953	public information-----	June 30, 1953
Intermediate typist-clerk-----	Sept. 30, 1953	Chief—radiological services, reduced to half time-----	Sept. 1, 1953
Intermediate typist-clerk-----	Oct. 19, 1953	Special radiological technician-----	June 30, 1953
Junior clerk-----	Sept. 30, 1953	Field representative—radiological services-----	Feb. 28, 1954
Assistant chief—law enforcement-----	July 31, 1953	Intermediate typist-clerk—radiological services-----	Sept. 30, 1953
Assistant chief—law enforcement-----	June 30, 1953	Assistant regional coordinator III—region 3-----	Oct. 26, 1953
Assistant chief—evacuation and welfare-----	June 30, 1954	Intermediate stenographer-clerk—region 3-----	Oct. 20, 1953
Assistant chief—medical and health-----	June 30, 1954	Intermediate stenographer-clerk—region 4-----	June 30, 1953
Hospital consultant-----	June 30, 1953	Assistant regional coordinator II—region 4-----	Oct. 30, 1953
Medical officer II-----	June 30, 1953	Assistant regional coordinator I—region 5-----	Nov. 30, 1953
Field representative—medical and health-----	June 30, 1954	Assistant regional coordinator II—region 6-----	June 30, 1953
Senior account clerk—medical and health-----	June 30, 1954	Intermediate typist-clerk—region 6-----	June 30, 1953
Intermediate stenographer-clerk—medical and		Assistant regional coordinator—region 7-----	Sept. 30, 1953
health-----	June 30, 1953	Assistant regional coordinator II—region 8-----	July 20, 1953
Assistant chief—transportation-----	June 30, 1953	Intermediate stenographer-clerk—region 8-----	Sept. 4, 1953
Chief, engineer services-----	June 30, 1953	Assistant regional coordinator III—region 10-----	Nov. 19, 1953
Field representative—communications-----	June 30, 1954	Intermediate stenographer-clerk—region 10-----	June 30, 1953
Chief, public information replaced by public			
information officer-----	Sept. 30, 1953		

The net increase in operating expenses is a result of changing from a part-year expenditure in 1953-54 to a full-year expenditure in 1954-55. The part-year operating expenses result from rent and maintenance costs of equipment installed during 1953-54. The main items affected include teletype and telegraph; rental of communications equipment; maintenance and supplies for communications equipment, radiological equipment, fire trucks and rescue trucks.

The increase in rent is due to the repayment of the cost of the Civil Defense headquarters building in Sacramento.

<sup>a</sup> Composed of savings in salaries and wages, \$134; in operating expenses, \$200, and in equipment, \$100.

<sup>b</sup> Salary increased by Chapter 1613, Statutes of 1951. Effective date delayed until January 3, 1955, by Section 22, Art. V of the Constitution.

## STATE EMPLOYEES' RETIREMENT SYSTEM

The Board of Administration, State Employees' Retirement System, administers the State Employees' Retirement System and the Legislators' Retirement System. This involves determination of membership, computation, collection, and recording of employer contributions and member contributions, service and compensation; the computation and payment of withdrawals of member contributions and death and retirement benefits, including retirement for service, ordinary and industrial disability and industrial death; the investment of funds; the preparation of periodic and special valuations, the preparation of annual and special reports.

Members of the State Employees' Retirement System consist of state employees (including most university employees) and employees of approximately 325 local governmental jurisdictions participating on a contractual basis. Members of the Legislators' Retirement System consist of legislators and elective state officials who elect membership.

The Board of Administration is also charged with the recording of pay roll deductions for state employees who request deductions for the purchase of United States Defense Savings Bonds; and the registering and issuance of bonds so purchased, to state employees.

Office at Sacramento

53	Terminations (by withdrawal) .....	17,346	17,988	18,000	18,000

<sup>a</sup> Composed of savings in salaries and wages, \$4,994; operating expenses, \$1,763; equipment, \$406; and excess reimbursements, \$91.

<sup>b</sup> Composed of savings in operating expenses.

## STATE EMPLOYEES' RETIREMENT SYSTEM—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1	ADMINISTRATION						
2	Analysis						
3							
4							
5	SALARIES AND WAGES: The increase is due to two additional clerical positions proposed for increased work load, full year						
6	cost of the actuary position to be established in 1953-54 in lieu of a consulting actuary and an anticipated increase in employ-						
7	ment stability. A reduction in temporary help results from improved procedures in processing ballots for the board member						
8	election and the annual closing of member accounts.						
9							
10	OPERATING EXPENSES: The decrease is due primarily to printing items that will not be printed in 1954-55. Minor increases						
11	result from increased work load.						
12							
13	EQUIPMENT: Provision is made for replacing worn-out office equipment, additional furniture and equipment for the proposed new						
14	positions, and additional files for expansion of membership records.						
15							
16	REIMBURSEMENTS: The increase is due to the anticipated increase in public agency members.						
17

26	Analysis							
27								
28	Provision is made for changing the method of processing U. S. Defense Savings Bonds in 1954-55. It is proposed that the State Con-							
29	troller's Disbursements Division will issue the bonds under a contractual agreement with the State Employees' Retirement							
30	System.							
31	After the first year of conversion it is anticipated that the same volume of bonds can be processed at a lower cost.

## PERSONNEL BOARD

Administers the State Civil Service Act and prescribes and enforces rules thereunder. This involves examination and certification of qualified applicants for appointment to the State Civil Service; classification of positions; adoption of suitable pay rates; maintenance of records on state employees; assistance to state agencies in training employees; establishing standards of health and safety in state agencies; and performing services for state agencies excepted from civil service and for political subdivisions of the State on a reimbursable basis.

## GENERAL ANALYSIS

Number of positions ----- 323.3 331.5 336.5 5

Provision is made for continuation of the existing level of service with additional costs resulting from the anticipated improvement in employment stability. The Sacramento offices will move, about January 1, 1955, from the presently leased locations to the new state office building now under construction.

## WORK LOAD

## BOARD

This division includes the members of the State Personnel Board and the hearing officer with their clerical staff. The board adopts rules, creates classes, establishes pay ranges, hears appeals from disciplinary actions, and formulates general policies.

## Analysis

The reduction is due to the elimination of one hearing reporter position.

33	The medical officer formerly shown under this section has been moved to training, safety, and medical services.						
34	The contract with the Department of Employment providing for the continuous testing of certain populous classes was canceled						
35	November 30, 1953; and the Personnel Board is now performing this activity for the three metropolitan areas—Los Angeles,						
36	San Francisco, and Sacramento. This change in the continuous testing program has resulted in a shift from operating expenses						
37	to salaries and wages during 1953-54 with a greater effect in 1954-55 due to full-year costs being reflected. Six additional						
38	clerical positions are included: two in test pool, two in Los Angeles, and two in San Francisco. Some additional costs are						
39	indicated in various operating expenses, such as office, telephone, and postage, with the entire amount of such increases being						
40	offset by a corresponding reduction in the line item for "Continuous testing services rendered by the Department of Employment."						
41	Provision is made for two additional double mandril recording machines to be used in qualifications appraisal board hearings in lieu						
42	of hearing reporters with a reduction of \$5,000 in the amount provided for temporary help.						
43	Other major items of equipment include replacement of worn-out office furniture and additional equipment for two new qualifications						
44	appraisal board hearing rooms in Los Angeles and San Francisco.						
45

1	<b>COOPERATIVE PERSONNEL SERVICES</b>						
2							
3							
4	The operations of this division are governed by requests of local agencies for personnel services which are performed on a contractual basis by which cost is to be reimbursed and therefore no increase in the net appropriation is required for this function.						
5							
6	<b>Analysis</b>						
7							
8	The increase is due primarily to two proposed new positions with related operating expenses and equipment with an anticipated increase in reimbursements.						
9

## SECRETARY OF STATE—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	GENERAL ANALYSIS				
2					
3					
4	Number of positions—General Fund.....	37.5	37.5	38.5	1
5	Number of positions—Collection Agency Fund.....	5	5	5	—
6					
7		ACTUAL	ACTUAL	ACTUAL	ESTIMATED
8	WORK LOAD	1950-51	1951-52	1952-53	1953-54
9	Articles of incorporation filed.....	8,874	9,330	11,400	12,500
10	Notary public commissions issued.....	12,393	12,509	13,820	14,000
11					ESTIMATED
12	Provision is made for continuation of the existing level of service. The principal increase is due to the printing of ballot measure				1954-55
13	pamphlets for the 1954 general election at an estimated cost of \$180,000. Other increases result from additional temporary help				13,125
14	and printing in support due to the election and a salary increase for the Secretary of State effective January 3, 1955.				14,200
15					
16

22	ADMINISTRATION				
23	Analysis				
24					
25					
26	SALARIES AND WAGES: The increase is due primarily to additional temporary help for election clerks and a salary increase for				
27	the Secretary of State effective January 3, 1955.				
28					
29	OPERATING EXPENSE: The increase is due to the provision for printing of election material and additional inactive corporation				
30	indexing.				
31					
32	EQUIPMENT: Provision is made for replacing three worn-out typewriters, additional files for corporation records, and law books.				
33

## DEPARTMENT OF AGRICULTURE

Administers and enforces the provisions of the Agricultural Code and related statutes. These laws call for regulatory and service activities dealing with the protection of plantings and livestock from infectious diseases, pest animals, weeds and injurious insects, and with aids to insure the marketing of quality agricultural products. In this broad field of activity the department cooperates extensively with the United States Department of Agriculture on the one hand and with county agricultural services on the other. The General Fund finances activities which are of general public benefit and the Department of Agriculture Fund finances other activities for which the beneficiaries are charged.

30								
31	Totals, Administration -----				\$14,162	\$15,497	\$16,030	
32								
33								
34	GENERAL ENTOMOLOGY							
35								
36	This function includes all administrative activities of the bureau including planning and general supervision of major insect eradication-control programs which are budgeted as special projects; it also includes apiary inspection, insect pest survey, insect identification, conduct of minor insect eradication-control programs, development of commodity treatments, and insect pest control advice to county agricultural commissioners.							
37								
38								
39								
40								
41	Analysis							
42								
43	An increase in the budget year over the current year results from the required employment of additional seasonal help in the pink bollworm survey.							
44								
45								
46	SALARIES AND WAGES				SALARY RANGE

26							
27							
28	DESTRUCTION AND CONTROL OF BEET LEAFHOPPERS						
29	AND HOST PLANTS						
30							
31	This function involves spraying host plants of the beet leafhopper, principally Russian thistle, on an average of 225,000 acres in the						
32	San Joaquin, Sacramento, and Salinas Valleys.						
33							
34	Analysis						
35							
36	The work in the budget year is a continuation of the program of the current and past years. An increase in the budget year over						
37	the current year is due to purchase of materials and their application at unusually favorable rates during the current year.						
38	This is not projected into the budget year.						
39	One additional position, labor foreman, is recommended, the cost being offset by a reduction of a comparable amount in seasonal						
40	help.

		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1	GRAPE LEAF SKELETONIZER ERADICATION						
2	Analysis						
3	This function continues to provide for the eradication of the grape leaf skeletonizer, a moth, the larvae of which first skeletonizes						
4	and later completely destroys the foliage of grapes. The infestation is restricted, at present, to San Diego County. During the						
5	current year the program was increased when a newly infested area in the northwest portion of the county was found.						
6	An increase of \$15,354 is proposed in seasonal help to permit employment of personnel for dusting and wild grape removal now ac-						
7	complished through contracting for these services.

18	BUREAU OF PLANT QUARANTINE						
19	Analysis						
20	This bureau is charged with the enforcement of the provisions of the Agricultural Code, regulations by the Director of Agriculture						
21	and the U. S. Department of Agriculture pertaining to plant quarantine. In addition to directing the plant quarantine enforce-						
22	ment activities of the 52 county agricultural commissioner offices and supplying them with necessary forms, seals, etc., to carry						
23	out such activities, this bureau maintains 18 border stations on the interstate highways entering California, three maritime port						
24	stations at San Francisco, San Pedro and San Diego, respectively, and a headquarters office at Sacramento. Maritime shipping						
25	and airplane arrivals have held steady, whereas border travel shows a 14.6 percent increase by actual count during the first seven						
26	months of 1953 over the same period a year ago. The program is again projected at the same level during the current and						
27	budget years.

38	BUREAU OF PLANT PATHOLOGY						
39	Analysis						
40	The work of the Bureau of Plant Pathology is concerned with the infectious and contagious diseases of plants, such as those caused by bacteria, fungi, viruses, and plant parasitic nematodes, as distinguished from insect pests. It includes the prevention of the introduction and spread of serious and destructive new diseases, their detection when they become introduced, and their suppression and eradication when incipient outbreaks occur. The bureau cooperates with the county agricultural commissioners and the United States Department of Agriculture in these functions and extends technical assistance to the counties in the detection, suppression, control and eradication of serious plant diseases, and to other bureaus in the Department of Agriculture in their plant disease problems. The program for this function in the budget year is planned on substantially the same basis as for the current year. One new position of junior plant pathologist is proposed in lieu of seasonal and temporary help. A reduction in temporary and seasonal help is in anticipation of the counties assuming a greater portion of the work in peach mosaic disease suppression than in the past.

13	BUREAU OF RODENT AND WEED CONTROL AND SEED INSPECTION						
14	Analysis						
15	This function is concerned with the eradication and control of noxious weeds and poisonous plants which have been found to be harmful to agriculture and livestock; the investigation of damage to crops by injurious herbicides; the control of field rodents to reduce destruction of crops and to control the rodents which have been known to harbor disease transmissible to humans.						
16	The bureau also carries on seed inspection work for the enforcement of the California Seed Law and in cooperation with the Federal Government for the enforcement of the Federal Seed Act. The seed program is expanding continuously and the addition of one new seed analyst in the laboratory is requested, with an offsetting reduction in seasonal help.

BUREAU OF DAIRY SERVICE						
This bureau enforces the Milk and Milk Products Act of 1947, the purpose of which is to maintain standards and prevent adulteration of dairy products and conduct sanitary inspection of dairy products plants and dairy farms. It also has the responsibility of licensing various employees of the dairy industry in the performance of their technical work.						
Analysis						
One new intermediate typist-clerk is recommended on the basis that expanding imitation ice cream manufacturing and sales will increase the volume of license sales.

1	<b>GENERAL MARKETING SERVICE</b>						
2	This service consists of the following: (1) assistance in the solution of marketing problems of agricultural groups which are not						
3	organized under formal marketing laws; (2) assistance to new industries in formulating and obtaining market programs under						
4	the general marketing laws; and (3) administration of the marketing programs formulated under general marketing laws. The						
5	General Fund is reimbursed for all expenditures for the latter two types of the services from deposits received and assessments						
6	collected. Four new positions are recommended.						
7	<b>Analysis</b>						
8	One senior investigator and two investigators are needed because of increased violations and a demand by industry for more satisfactory						
9	enforcement work; and one assistant marketing economist is needed to assist in handling an increasing number of marketing pro						
10	grams.

2	<b>BUREAU OF MARKET NEWS</b>						
3							
4	<b>Analysis</b>						
5							
6	The Bureau of Market News operates in California under cooperative agreement with the United States Department of Agriculture						
7	under the title of Federal-State Market News Service. The costs are borne so far as practicable on an approximate fifty-fifty basis.						
8	Daily reports are published on the marketing of agricultural commodities in intrastate, interstate, and foreign markets. These						
9	reports contain current data on prices, market conditions, demand, supply, truck and carlot movements inbound and outbound,						
10	daily truck unloads in terminal markets, cold storage holdings and other related information. Commodity groups included in this						
11	service are fresh fruits and vegetables; livestock and dressed meat; dairy and poultry products; hay, grain and feedstuffs; dried						
12	fruits; olive oil; bulk wine, wine movement in carlots interstate, winery prices to growers, and current tonnage of grape crush;						
13	honey; dried edible beans; hops; rice; and other miscellaneous products. Provision is made in the budget year for one assistant						
14	marketing specialist and one intermediate typist-clerk to continue at the South San Francisco stockyards a market news service						
15	which was established during the current year by Chapter 1520, Statutes of 1953.

		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1							
2	BUREAU OF FIELD CROPS						
3							
4	Analysis						
5							
6	This bureau is charged with inspection and registration of public grain warehouses, primarily for control of insects of stored grain;						
7	enforcement of commercial feeding stuffs labeling through inspection, sampling, and analysis of feeds and feed materials; (optional)						
8	licensing, filing of bond, and inspection of warehouses storing agricultural products; and, upon application, the inspection and grade						
9	certification under U. S. standards of such field crops as grain, flaxseed, rough and milled rice, beans, peas, hay, castor beans, sun-						
10	flower seed, safflower seed, and hops. Activities are proposed to be continued at the same level. Two additional junior field crop						
11	inspector positions are requested with an offsetting reduction in seasonal help due to a year-round need.						
12

## DIVISION OF MARKETING

## BUREAU OF MARKETS

## Analysis

This bureau administers and enforces market orders, marketing programs and agreements; formulates new programs; and conducts market surveys under the Agricultural Producers Marketing Act, the California Agricultural Products Marketing Act, and the Processed Foodstuffs Marketing Act. (The decrease is in the current year.)

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1	<b>BUREAU OF MILK CONTROL</b>						
2							
3							
4	This bureau establishes fluid milk prices and administers and enforces the laws concerning fluid milk prices including wholesale						
5	and retail prices in 37 separate marketing areas. The bureau also licenses and bonds market milk distributors and establishes						
6	minimum refrigeration rental schedules.						
7							
8	<b>Analysis</b>						
9							
10	Market milk production and distribution have been expanding rapidly in the State, requiring additional personnel to eliminate an						
11	increasing lag in the required audits, and review and revise the stabilization and marketing plans for fluid milk on an adequate						
12	basis.						
13	Additional positions recommended for the increase in work load which has occurred since the staff was last augmented are: for pro-						
14	ducer payment audits, two auditors II; for distributor cost studies, four auditors II; and for clerical work, one calculating ma-						
15	chine operator and one intermediate typist-clerk. A new position of assistant marketing economist is requested to enable the						
16	bureau to carry on work needed in connection with production cost surveys.						
17	A research project by the University of California to survey the capacities of milk processing plants in California is also proposed.						
18

<sup>b</sup> Approximately \$2,250,000 of the money in this fund will be used for construction of a Department of Agriculture Building at Sacramento, as authorized by Chapter 11, Statutes of 1950, First Extraordinary Session. This sum will be returned to the fund through rental payments.

## Department of Agriculture

## CALIFORNIA DAIRY INDUSTRY ADVISORY BOARD

The California Dairy Industry Advisory Board provides the means for the dairy industry to develop, maintain, and expand markets for California dairy products. The board, made up of industry representatives, acts in an advisory capacity to the Director of the California Department of Agriculture, who is designated as the administrative and enforcement officer for duties outlined in Division 4, Chapter 14, of the Agricultural Code. The cost of this program is defrayed entirely from fees paid by producers and processors of dairy products.

## GENERAL ANALYSIS

Number of positions ..... 11 10.8 12.8 2

The 1954-55 program is based on a slight decrease in the chicken testing program resulting from termination of the "standard, net income" test. In addition, a new program for turkey testing will be started as authorized by the 1953 Legislature.

## DEPARTMENT OF CORRECTIONS

The department has been established to integrate and correlate the correctional activities of the State. It is responsible for the administrative control and operation of all state institutions for adult felons. The department also inspects prisons and jails and makes recommendations on plans and specifications of facilities.

## DEPARTMENT OF CORRECTIONS—Continued

## GENERAL ANALYSIS

The Department of Corrections 1954-55 budget is based upon an average institutional population of 15,390, an increase of 1,040 or 7.2 percent over the 1953-54 revised population and a 1954-55 average active parole population of 5,955, an increase of 630 or 11.8 percent. The institutional population is, however, an increase of 1,537 or 11.1 percent over the 1953-54 Governor's Budget, and the parole population 882 or 17.4 percent. To partially meet the problem of increasing population and overcrowding and the possible return of the Terminal Island facility to the U. S. Navy Department, additional capacity is planned as follows:

- Folsom 300 (reactivation of old cell block)
- Soledad 250 (double-deck farm barracks)
- Tehachapi 500 (reactivate as farm branch of Chino)
- San Luis Obispo 600 (operate as temporary new facility)

The total increase of \$2,779,052 or 14.9% over 1953-54 is largely the result of increased personnel to operate new facilities and population increase. San Luis Obispo and Tehachapi, new facilities, account for \$1,249,072 of this amount, and excluding them the increase would be \$1,422,197 or 7.6 percent. Four hundred twenty-three total new positions amount to \$1,552,540 and are detailed as follows:

- 120 San Luis Obispo (temporary facility)
- 97.5 Tehachapi (farm branch of Chino)
- 28 Soledad (double-deck farm barracks)
- 10 Folsom (reactivate old cell block)
- 9 Medical Facility—Terminal Island (convert 400 capacity annex to medium security)
- 37.5 Medical Facility—Vacaville (part-year positions to prepare for July, 1955, opening)
- 17 Educational positions (partial transfer of vocational positions from school districts).
- 27 Classification and parole positions—based on new time study for increasing work load.
- 6 Reception-Guidance Center positions—based on work load and increase in total intake.
- 71 Miscellaneous positions—this group includes 23 custodial positions in acute areas and 13 positions for parole work load increase in the Adult Authority and Board of Trustees, Institution for Women.

A part of the additional cost is due to a decrease in estimated salary savings, based on the fuller employment situation (less vacancies and turnover of personnel) experienced in the current fiscal year. The current year salary savings have been increased to avoid additional financing. The estimated salary savings computation for 1954-55 is based upon an anticipated fuller employment.

New position requests are discussed under individual agencies with the exception of the following COMPLEMENT POSITIONS which are common to several institutions and are discussed below:

#### A. 17 ADDITIONAL EDUCATION POSITIONS \$90,266

These positions are proposed as a partial transfer to support of 46 positions from the school district pay rolls. The positions to be transferred are largely vocational positions and would be a complete transfer for institutions in the most acute situations. The two-year transfer plan would cost the State slightly more inasmuch as under Chapter 1510, Statutes of 1953, the State must pay the school districts on the basis of actual average daily attendance in the past year even though the program is being carried on under the state pay roll in the current year. After the transfer has been completed and has been in operation for over one year, the State will save money by carrying the positions on the state pay roll, inasmuch as only the actual salary of the instructor will be paid, rather than \$180 per average daily attendance, which includes \$14 (10%) for administration and \$32 to the Department of Education.

The transfer of vocational positions is of prime importance because:

1. Full day vocational classes coordinate better with prison work day and maintenance program (A. D. A. classes limited to four-hour day).
2. Vocational training on full day basis would effect earlier and better parole placement; instruction by certified school teacher secondary.
3. Integrated educational program under warden would benefit both institution and inmates.

The following positions are proposed:

<i>Medical Facility</i>	
1 Vocational instructor	\$5,496
<i>Chino</i>	
10 Vocational instructors (institution)	52,320
1 Instructor in General Shop (Reception-Guidance Center)	5,232
(1) Supervisor of Academic Instruction (Tehachapi farm branch—included with 97.5 positions for this new unit)	(5,496)
<i>Soledad</i>	
3 Vocational instructors	14,940
<i>Deuel</i>	
1 Instructor in mechanical drawing	4,980
<i>Corona</i>	
1 Supervisor of prison education	7,298

All are transfers from the school district pay rolls except the supervisor at Chino-Tehachapi branch, which is a new branch institution. Both this supervisor and the one at Corona will supervise and relieve instructors, and will operate the library function.

## DEPARTMENT OF CORRECTIONS—Continued

## GENERAL ANALYSIS—Continued

## B. 27 ADDITIONAL CLASSIFICATION AND PAROLE POSITIONS (plus four included under new San Luis Obispo facility) \$92,541

These additional positions are proposed as a result of a work load study. The study measured average professional and clerical time required per case in five institutions during the period October 13 to November 13, 1953. Time has not been sufficient to make a complete procedural survey but this will be completed before the 1955-56 budget is presented. Actual establishment of proposed new positions will not be approved by the Department of Finance until the procedural study is completed. A summarization of 1954-55 professional and clerical staff requirements is as follows:

	Budget 1953-54	Requested 1954-55	Increase or decrease	
<i>Medical Facility</i>				
Professional	3	3	-	
Clerical	8	9	+1	(Intermediate typist-clerk)
<i>Temporary Facility— San Luis Obispo</i>				
Professional	-	1	+1	(Parole officer II)
Clerical	-	3	+3	(1 Senior stenographer-clerk) (2 Intermediate typist-clerks)
<i>Chino</i>				
Professional	7	8	+1	(Parole officer I)
Clerical	18	22	+4	(4 Intermediate typist-clerks)
<i>Folsom</i>				
Professional	5	7	+2	(2 Parole officers I)
Clerical	16	18	+2	(Intermediate typist-clerks)
<i>San Quentin</i>				
Professional	11	11	-	
Clerical	39	38	-1	(Intermediate typist-clerk)
<i>Soledad</i>				
Professional	7	8	+1	(Parole officer I)
Clerical	15	20	+5	(1 Senior stenographer-clerk) (4 Intermediate typist-clerks)
<i>Deuel</i>				
Professional	5	7	+2	(Parole officers I)
Clerical	11	19	+8	(1 Senior stenographer-clerk) (7 Intermediate typist-clerks)
<i>Corona</i>				
Professional	2	3	+1	(Senior sociologist)
Clerical	1	2	+1	(Intermediate typist-clerk)
<b>TOTALS, ALL INSTITUTIONS</b>				
Professional	40	48	+8	
Clerical	108	131	+23	
	148	179	+31	

## C. 6 ADDITIONAL RECEPTION-GUIDANCE CENTER POSITIONS \$21,180

The positions proposed for the three reception-guidance centers are based on an estimated increase in total annual intake and certain clerical staff shortages for other than direct case load work. A comparison of the annual intake is as follows:

	1953-54 Budget	1953-54 Revised	1954-55
Chino	2,060	2,200	2,400
San Quentin	2,500 <sup>a</sup>	2,500 <sup>b</sup>	2,700 <sup>a</sup>
Deuel	1,300	1,100	1,100
Total	5,860	5,800	6,200

<sup>a</sup> Includes 1,000 parole violators.

<sup>b</sup> Includes 900 parole violators.

Work Load Table for the Reception-Guidance Centers  
1954-55 Fiscal Year

<sup>a</sup> Based on 228 annual working days.

<sup>b</sup> Includes 1,000 parole violators returned.

## DEPARTMENT OF CORRECTIONS—Continued

## GENERAL ANALYSIS—Continued

The following new positions are requested for 1954-55:

## Chino:

- 1 Senior sociologist (work load).
- 2 Intermediate typist-clerks (work load).

## San Quentin:

- 1 Senior sociologist (work load).
- 1 Intermediate typist-clerk.

Retention of this one clerical position above case work load is requested because of several factors:

1. This reception center has one full-time psychiatrist and two part-time psychiatrists whose reports must be transcribed.
2. San Quentin deals with 47 individual northern counties in order to secure necessary legal information. Much follow-up correspondence is necessary to secure adequate legal data for case histories.
3. Cylinder-type dictating equipment and necessary security measures relative to female employees impair the efficiency of the clerical staff.

## Deuel:

- 1 Senior sociologist (work load).

This excess position is to be abolished.

- 1 Intermediate typist-clerk (work load).

The present staff includes: One senior typist clerk (clerical pool head), one file clerk, one stenographer-clerk (administrative clerical work), and two typists (case work). One additional typist is requested for case work load.

- 1 Prison records officer I.

This position is requested due to the anticipated work load on new commitments which the present institution records officer will not be able to handle. San Quentin presently has three and Chino two records officers.

## Department of Corrections

## DEPARTMENTAL ADMINISTRATION

Central administrative office for all Department of Corrections facilities. Over-all supervision and coordination is provided by the agency.

Office at Sacramento

## GENERAL ANALYSIS

Number of positions----- 59 63.8 67.3 3.5

## ADMINISTRATION

The administrative staff supervises and coordinates the following functions: (1) Accounting, budgeting and business management; (2) personnel and in-service training of employees; (3) maintenance and upkeep of plant and construction; (4) feeding and nutrition; (5) custody and treatment; (6) prison industries; (7) compilation and dissemination of crime study data.

SALARIES AND WAGES: The increase of \$23,609 is principally due to full year cost of authorized positions, salary range increases, merit salary adjustments, and the following proposed new positions:

1 Intermediate clerk (personnel office)----- \$2,844

This position is proposed to meet the increased personnel work load.

3 Intermediate clerks (records office)----- 8,532

Two additional clerks are proposed to handle this increased work load. It is estimated that work load specifically affecting the central inmate files will increase 27% during this same period.

One additional clerk is proposed to:

(a) Process files of parole violators returned to Reception-Guidance Center—four hours per day required.

(b) Transfer from Adult Authority to Director of Corrections the approval of institutional camp transfers—maintaining and posting to file—four hours per day required.

(c) Transfer disciplinary reports from chronological to inmate folders.

(d) Maintain file on discharged women prisoners.

<sup>a</sup> Composed of savings in salaries and wages, \$696; and equipment, \$382.

<sup>b</sup> The amounts allocated are reflected as expenditures in the several institutions.

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54	
1	GENERAL ANALYSIS—Continued					
2						
3						
4	OPERATING EXPENSES, EQUIPMENT: The increase of \$2,710 in operating expenses is primarily due to printing the biennial					
5	report of the department at a cost of \$2,000, the transfers to and rental of automobiles from the central pool at five cents per					
6	mile, and to increased prison population and staff. Increase in equipment cost is nominal.					
7						
8	OTHER CURRENT EXPENSES: Transportation of inmates: The decrease is due to savings resulting from full use of the northern					
9	and southern reception-guidance centers, partially offset by the increasing number of commitments, and the increase because of					
10	Board of Control amendment to Rule 646, which has the effect of adjusting 1930 rates to 1953 level.					
11	Returning fugitives from justice from outside the State: The increase is due to an estimated increase in inmate and parole					
12	population.					
13	Trials of inmates: The increase is due to increased inmate population, with a potential increase in crimes within the institutions.					
14

## Department of Corrections

## MEDICAL FACILITY

This institution cares for and treats inmates who are mentally ill, including psychopaths and sex offenders, and those suffering from chronic diseases. The permanent institution at Vacaville, Solano County, will be opened in July, 1955.

Temporarily Located at Terminal Island in Los Angeles Harbor

39					
40	Number of positions -----	199.8	207.5	259	51.5
41					
42	<b>POPULATION AND UNIT COSTS</b>				
43	Average inmate population -----	1,004	1,100	1,100	-
44	Cost per inmate -----	\$1,315	\$1,350	\$1,467 <sup>c</sup>	\$117 (8.7%)
45					
46	The increase is primarily due to pre-establishment of certain positions to prepare for the July, 1955, transfer to Vacaville and for				
47	additional positions required to convert the annex area at Terminal Island to medium security upon transfer of the older inmates				
48	to the San Luis Obispo facility.				
49					
50	<b>SALARIES AND WAGES:</b> The increase of \$79,281 is primarily due to new positions, full year cost of salary range increases,				
51	and smaller estimated salary savings. 1953-54 salary savings have been increased in lieu of additional financing. The estimated				
52	salary savings computation for 1954-55 is based upon an anticipated fuller employment. Complement positions are discussed				
53	under "general analysis" in the departmental summary. The 46.5 miscellaneous positions are explained below:				
54	1 Correctional lieutenant -----				\$5,496
55	To be in charge of the 400 medium security inmates to be moved to the annex area.				
56	8 Correctional officer -----				30,480
57	For the conversion of the annex area to medium security and will be assigned as follows:				
58	Two to man Towers 4 and 5 from 12 m. to 8 a.m. at the southwest and southeast corners of annex				
59	area. These towers are manned only 16 hours at present, and younger, medium security inmates will				
60	be more active and greater escape hazards.				
61	Three to supplement one present work crew supervisor in annex area for work parties, recreation,				
62	inmate escort to main mess hall, church, shows, and visits, for 400 active inmates.				
63	Three to provide relief for the above five. Saturdays, Sundays, and holidays will provide custodial				
64	problems inasmuch as recreation and church must replace work and school activities.				
65	Vacaville Positions:				
66	1 Intermediate typist-clerk (personnel clerk), effective March 1, 1955 -----				924
67	To set up personnel records and files, contact eligibles regarding employment and prepare documents for				
68	new employees.				

<sup>a</sup> Composed of savings in salaries and wages, \$527; operating expenses, \$47,187; equipment, \$1,702; and loss in reimbursements, \$10,958.

<sup>b</sup> Composed of savings in operating expenses, \$3,450.

<sup>c</sup> Excludes \$26,317 costs for operation of pre-establishment of Vacaville.

4	<b>SALARIES AND WAGES—Continued</b>				
5	Vacaville Positions—Continued:				
6	1 Storekeeper II, effective March 1, 1955				\$1,364
7	This position will arrange for the receipt, checking, and storing of large quantities of supplies and equip-				
8	ment received in advance of the opening date.				
9	1 Supervising cook I, effective May 15, 1955				465
10	This position will make last minute plans for activation of the kitchen and dining facilities, including				
11	checking of new equipment and supplies.				
12	1 Correctional sergeant, effective April 1, 1955				1,074
13	This position will be in charge of the advance custodial staff.				
14	5 Correctional officer, effective April 1, 1955				4,650
15	The immediate duties of these officers will be uncrating, checking, and setting up the large amount of				
16	equipment to be received.				
17	2 Correctional officer, effective May 1, 1955				1,240
18	These officers will be needed in advance to make a detailed search of the institution to locate danger-				
19	ous tools, chemicals, and other contraband before the opening, and to aid in setting up equipment.				
20	20 Correctional officer, effective June 1, 1955				6,200
21	This group will include transfers and new employees to participate in in-service training and provide a				
22	nucleus group familiar with the institution to help orient other employees reporting after July 1, 1955.				
23	1 Medical technical assistant, effective June 1, 1955				310
24	This position will check in and store medical equipment and supplies and prepare medical wards and				
25	facilities for operation.				
26	1 Chief engineer I, effective December 1, 1954				2,632
27	This position is needed seven months prior to the opening for inspection and maintenance of the physi-				
28	cal plant, particularly the utility services. He will familiarize himself with plant layout, boiler opera-				
29	tion, steam heating, ventilating, refrigeration systems, electrical, telephone, plumbing, water and sewage				
30	facilities, and locking devices. He also will train other maintenance employees after the July, 1955,				
31	transfers.				
32	1 Electrician foreman, effective May 1, 1954				752
33	This position will provide advance training of an employee in electrical inspections and maintenance.				
34	He will study plant layout, electric blueprints, service lines, medical and shop equipment, and assist				
35	in the checking and installation of electrical machinery.				
36	1 Stationary fireman, effective April 1, 1955				885
37	This position will provide an employee in training for the new boiler plant operations. He will man and				
38	test the boiler plant, during which time it will provide heat for drying paint in advance of the July, 1955,				
39	opening.				
40	1 Water and sewage plant supervisor, effective May 1, 1955				716
41	This position would provide an advance training period for an employee to familiarize himself with the				
42	plant operation and to run and test it prior to activation.				
43	1 Stationary engineer, effective April 1, 1955				1,023
44	This position is needed in advance to study boilers, steam lines and piping systems. It will plan for				
45	proper inspection and servicing prior to activation.				
46	0.5 Locksmith, effective April 1, 1955				512
47	This increase of the present half-time position in advance is to study and test the many locking devices,				
48	index and identify keys, and prepare key controls, in advance of the opening date inasmuch as the se-				
49	curity of the institution depends on properly operating locking devices.				
50					
51	<b>OPERATING EXPENSES, EQUIPMENT, INMATE PAY, AND REIMBURSEMENTS:</b> The increase in operating expense of				
52	\$13,780 is due to the moving expenses of employees involved in the pre-establishment activities of the new institution at Vac-				
53	aville, and to other expenses necessitated thereby. Also, \$2,500 has been added for prosthetic devices for inmates. The increase				
54	of \$4,000 in inmate pay is due to the full-year operation of the new program to pay inmates for productive work in institu-				
55	tional activities.

## Department of Corrections

## TEMPORARY FACILITY—SAN LUIS OBISPO

A temporary institution to house older and chronically infirm inmates.

Located near San Luis Obispo

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3					
4	<b>SUPPORT</b>				
5	Budget act appropriation-----	—	—	\$714,095	
6	Contributions to State Employees' Retirement Fund-----	—	—	26,582	
7	TOTAL EXPENDITURES FOR SUPPORT-----	—	—	\$740,677	
8					
9	<b>OTHER CURRENT EXPENSES</b>				
10	Initial Inventory and Supplies and Employees' Moving Expenses:				
11	Budget act appropriation-----	—	—	\$36,495	
12	TOTAL EXPENDITURES-----	—	—	\$777,172	
13					
14	<b>GENERAL ANALYSIS</b>				
15					
16	Number of positions-----	—	—	117	117
17	<b>POPULATION AND UNIT COSTS</b>				
18	Institution Operations:				
19	Average inmate population-----	—	—	450	—
20	(End of year population)-----	—	—	(600)	—
21	Cost per inmate-----	—	—	\$1,646	\$1,646
22					
23	The proposed budget reflects the planned establishment of a 600-capacity temporary institution at a de-activated military base to house an average population of 450 in 1954-55. Most of the 600 will be elderly, chronically infirm inmates to be transferred from the Medical Facility at Terminal Island. One hundred will be able-bodied inmates to furnish general housekeeping and maintenance service. The facility is planned to open as a 60-man camp, effective July 1, 1954.				
24					
25	<b>SALARIES AND WAGES:</b> The proposed staff provides for a reasonable complement for a facility of this type, partially based upon comparison with other institutions, and taking into consideration the type of facility and the nature of the inmates to be housed therein. Complement positions are discussed under the general analysis in the departmental summary. Other personnel proposed to operate the facility are as follows:				
26					
27	<i>Administration</i>				
28					
29	A full institution superintendent is proposed as this facility will operate as an independent institution and time will have to be spent in planning future construction and operations of the permanent California Correctional Facility at Chino. A business manager, accounting officer, storekeeper, six account clerks, and a stenographer, are also planned as a minimum staff for an independent 600-capacity facility.				
30					
31	<i>Support and Subsistence</i>				
32					
33	A food manager and three cooks are a minimum staff to plan menus, direct culinary work, supervise inmate cooks 14 hours per day, 365 days per year, supervise meat cutting and preparation of special diets. One laundry supervisor is needed to manage and supervise the laundry operation.				
34					
35	<i>Care and Welfare</i>				
36					
37	1 Associate warden—This position will plan and direct both the custodial and care and treatment functions.				
38	1 Senior stenographer-clerk—This position will render general stenographic services to key positions under care and welfare.				
39	1 Correctional captain—This position will supervise the custodial work.				
40	6 Correctional lieutenants—One position is to be in charge of each of three daily shifts and one is to act as in-service training officer. Two are to provide day-off relief for the captain and four lieutenants.				
41	15 Correctional sergeants—to be assigned as follows:				
42					
43					
44					
45					
46					
47					
48					
49					
50					
51					
52					
53					
54					
55					
56					
57					
58					
59					
60					
61	Watch sergeants-----	1	1	1	
62	Control room-----	1	1	1	
63	Mail and visits-----	—	1	—	
64	Mess hall (5 a.m.-1 p.m.) (11 a.m.-7 p.m.)-----	—	1	1	
65	Relief-----	—	6	—	
66	55 Correctional officers—To be assigned as follows, including one officer on each shift for 3 and 4 dormitories of 40 capacity each:				
67	12 Dormitories-----	4	4	4	
68	4 Dormitories-----	1	1	1	
69	Gate and inside patrol-----	1	—	1	
70	Inside patrol-----	—	1	—	
71	Entrance gate-----	—	1	—	
72	Fence patrol-----	1	1	1	
73	Yard officer-----	—	2	2	
74	North corridor-----	—	1	1	
75	South corridor-----	—	1	1	
76	West corridor-----	—	1	—	
77	Armory tower-----	1	1	1	
78	Relief-----	—	21	—

## TEMPORARY FACILITY—SAN LUIS OBISPO—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54	
1	GENERAL ANALYSIS—Continued					
2	SALARIES AND WAGES—Continued					
3	Care and Welfare—Continued					
4	The 20 officers for housing units have staggered effective dates as additional inmates will be received at the institution.					
5	2 Intermediate clerks—required for censoring of inmate mail.					
6	1 Chief medical officer, one physician and surgeon II, one dentist and five medical technical assistants is considered a mini-					
7	mum staff for medical and nursing services for a 600-capacity institution of older and physically infirm inmates.					
8	1 Senior sociologist (to June 30, 1955). This position will be transferred from the medical facility with the older inmates.					
9	This position was authorized July 1, 1953, for a one-year trial period to determine whether a program of geriatrics					
10	would make it possible to rehabilitate many of these older inmates and possibly increase paroles. Because of delays in					
11	establishment and the move to San Luis Obispo continuance is requested to June 30, 1955, to complete the one-year trial					
12	and evaluation.					
13	2 Chaplains and 1 senior librarian—These positions are needed in a rehabilitation program for older inmates with idle time					
14	who would benefit by religious counseling and planned reading.					
15	Maintenance and Operation					
16	The chief of maintenance will plan and direct the activation of the facility and the maintenance program. The maintenance man					
17	will perform and supervise inmate crews in the less complicated maintenance problems. The stationary engineer will be in					
18	charge of the high pressure boiler plant, steam lines, and refrigeration units. The two stationary firemen are the accepted					
19	free personnel complement to operate high pressure boilers. The correctional sergeant (fire chief and sanitarian) and six in-					
20	termittent fire fighters are needed because of the inflammable nature of the buildings. One correctional officer is needed					
21	for institutional trucking, mail runs, emergency purchases in town, and transportation of parole releases to common carriers.					
22	OPERATING EXPENSES, EQUIPMENT, INMATE PAY, AND REIMBURSEMENTS: Operating expenditures are based upon					
23	experience of other correctional institutions and include certain contractual medical services. Equipment includes only a nominal					
24	amount for emergency replacements. Inmate pay includes an amount for payments to inmates on productive work projects. Re-					
25	imbursements for employees' meals and rentals are based on services to be rendered to employees at a temporary type of facility.					
26	OTHER CURRENT EXPENSES: Provision is made for original complement of operating supplies and moving expenses of em-					
27	ployees.

44					(23.1%)
45	Cost per inmate.....	\$1,253	\$1,263	\$1,263	—
46					
47	The increase is primarily due to the proposed activation of the farm branch at Tehachapi with 500 additional capacity. The high-				
48	way road camp operation has been transferred to the institution budget with partial reimbursement from the Division of				
49	Highways in accordance with 1953 legislation. The transfer of 11 vocational educational positions to the state pay roll from the				
50	school district is another item of increase and is proposed as a partial takeover of this activity in the most acute areas which				
51	will involve duplicate expenditures in the first year, but should save the State money in future years and provide better coordi-				
52	nation with other prison activities and job placements.				
53					
54	SALARIES AND WAGES: The increase of \$566,849 is due principally to 127.5 new positions. 1953-54 salary savings have been				
55	increased in lieu of additional financing. The estimated salary savings computation for 1954-55 is based upon an anticipated fuller				
56	employment. Complement positions are discussed under "general analysis" in the departmental summary. The 108.5 miscellane-				
57	ous positions are explained below:				
58	1 Bookkeeping machine operator I.....				\$2,988
59	This position is required for the increased work load in the inmate trust accounts. No positions have				
60	been added since 1948, and population has increased from 1,010 to over 2,200, with over 400 inmates				
61	on correctional industries pay roll, 160 on forest and road camps pay roll, and 208 on the new inmate				
62	support pay roll. The Reception Guidance Center, opened in 1951, increased the turnover of inmate ac-				
63	counts from 1,500 to 3,200 per year. All of this has caused a backlog for which one additional employee				
64	is proposed.				
65	1 Correctional lieutenant.....				4,740
66	This position is a required relief position for other lieutenants on the established post assignment sched-				
67	ule, and is requested to bring the budget into conformity with such schedule.				
68	4 Correctional officers.....				15,240
69	Two positions are proposed to provide one officer in each of the four 102-capacity Reception Guidance				
70	Center cell blocks from 12 m.-8 a.m. instead of one officer for two blocks, as at present. One block,				
71	Sycamore Hall, contains 12 segregation and five isolation cells. All newly received inmates must be con-				
72	sidered maximum security until classified. One officer cannot safely cover two multitiered blocks which				
73	are separated by the main corridor. One position is proposed for custodial supervision and control of				
74	contraband in the six schoolrooms and three vocational shops in the Reception Guidance Center. One				
75	position is required for relief of the above three.				
76					
77	<sup>c</sup> These inmates are fed, housed and otherwise cared for at the Institution for Men.				
78	<sup>d</sup> Excluding cost of operating Reception-Guidance Center.				
79	<sup>e</sup> Operation transferred to Department of Corrections, effective October 1, 1954.

## INSTITUTION FOR MEN, CHINO—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS—Continued</b>				
2	<b>SALARIES AND WAGES—Continued</b>				
3	1 Institution mechanic				\$4,194
4	No additional maintenance staff has yet been added for the Reception-Guidance Center. The need for preventive maintenance and repair is now becoming evident. The mechanic position would provide a multi-skilled position to perform this function.				
5	1 Electrician				4,194
6	This will increase the electricians at Chino to two, which will provide one to supervise inmate crews and another to handle a large amount of work that cannot be done with inmate help. There has been much increased work since the 400 capacity Reception-Guidance Center was opened in 1951.				
7	1 Painter				4,194
8	This will increase the painters to two and is proposed because of the increased facilities and work load in recent years.				
9	1 Water and sewage plant supervisor				4,296
10	This position is proposed to operate the plant which has recently expanded in proportion to the institution's growth.				
11	1 Supervising cook I				3,810
12	This position is proposed to supervise the feeding operation in the large Road Camp 37 with 110 inmates, which is too large to be handled solely by inmate workers and custodial officers. The Division of Highways, before transfer, employed both a cook and camp clerk at this camp.				
13	<b>TEHACHAPI FARM BRANCH</b>				
14	This unit will open as an inmate construction camp of 60 inmates April 1, 1954, to repair, alter, and reconstruct where necessary the former women's institution to reactivate as a farm branch of the Institution for Men. It is estimated population will increase to 500 by June, 1955, for an average population 245 during 1954-55. The unit will be under the technical direction of Chino, but because of its size and location, will be a self-operating unit. For this reason, most operating personnel will be needed, but of a lesser grade. The inmates will be both minimum and medium security and will be housed, double-decked, in four inmate cottages and their temporary dormitories. There will be a central kitchen and dining facility in the former laundry and commissary. The lower floor of the Administration Building will be used for offices, the second floor to be used as a hospital in 1955-56; in the meantime eight hospital beds will be set up in Willard Cottage. The remaining temporary buildings will be used for a laundry, storage, maintenance shops, chapel, classrooms, recreation, and industrial activities.				
15	The personnel requested to operate the facility is as follows:				
16	<b>SALARIES AND WAGES</b>				
17	Administration:				
18	An associate warden (branch superintendent), a business manager, accounting officer, storekeeper, three account clerks, and a stenographer are a minimum staff for a 500-inmate institution.				
19	Support and Subsistence:				
20	A supervising cook II and three cooks are a minimum staff to plan menus, direct culinary work, supervise inmate cooks 14 hours per day 365 days per year, supervise meat cutting and cooking. One laundry supervisor is needed to direct and supervise the laundry operation.				
21	Care and Welfare:				
22	1 Correctional captain—This position will plan and direct the custodial work.				
23	6 Correctional lieutenants—One position is to be in charge of each of three daily shifts. Three are to relieve the associate warden, captain, and three shift lieutenants.				
24	9 Correctional sergeants—To be assigned as follows:				
25		12 m.-8 a.m.	8 a.m.-4 p.m.	4 p.m.-12 m.	
26	Watch sergeants	1	-	1	
27	Farm (custody)	-	1	-

## INSTITUTION FOR MEN, CHINO—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	GENERAL ANALYSIS—Continued				
2	TEHACHAPI FARM BRANCH—Continued				
3	SALARIES AND WAGES—Continued				
4	The officers, effective July 1, 1954, will man the three dormitories and supervise work crews until the four main buildings are				
5	renovated and ready for use.				
6	1 Physician and surgeon I, 0.5 dentist, and two medical technical assistants—these positions are a minimum staff to provide				
7	medical, dental, and clinic and hospital ward service for a 500-inmate institution.				
8	1 Supervisor of academic instruction to plan and direct an academic school program with local school district instructors.				
9	He will also have charge of the library.				
10	Maintenance and Operation:				
11	The chief of maintenance will be a technical person in charge of maintenance and repair of damaged buildings. The mechanic				
12	will do general repair, carpentry, and painting. The electrician and plumber are trained personnel for electrical, telephone,				
13	plumbing, and water lines. All will supervise semiskilled inmate crews.				
14	Positions Abolished:				
15	1 Correctional officer (military leave).				
16	OPERATING EXPENSES, EQUIPMENT, INMATE PAY, AND REIMBURSEMENTS: The increase in operating expenses				
17	and inmate pay is primarily due to the new state forestry camp and the Tehachapi farm branch. The decrease in equip-				
18	ment reflects the diminishing need for additional items. Equipment for the new Tehachapi farm branch will be purchased				
19	from capital outlay. The increase in reimbursements is due to additional services to employees necessitated by added staff,				
20	full-year operation of the highway road camps now partially reimbursed by the Division of Highways, and an additional				
21	state forestry camp.

## STATE PRISON AT FOLSOM—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3	Analysis				
4					
5					
6	The institution capacity is to be increased 300 in the latter part of 1953-54 and 1954-55, by reactivating an old cell block, thus sharing a part of the departmental population overload, and increasing the institutional population to 2,600. In addition, two federal and two state forest camps were transferred from San Quentin and Soledad, January 1, 1953. An additional federal forest camp was activated July 1, 1953. Much of the increased cost is attributable to increased population and new facilities.				
7					
8	<b>SALARIES AND WAGES:</b> The increase of \$71,351 is due to 25 proposed new positions which follow. 1953-54 salary savings have been increased in lieu of additional financing. The estimated salary savings computation for 1954-55 is based upon anticipated fuller employment. Complement positions affecting several institutions are discussed under the general analysis in the departmental summary.				
9					
10	1 Senior account clerk				\$3,456
11	This position is proposed for large increase in work in trust accounting due to increased population and facilities, such as additional forest camps, a new furniture refinishing factory and almost 200 inmates to be paid in support activities. This will be a 33 percent increase in staff compared to a 62 percent increase in postings from 1952 to 1953, and the above assures further work load increases.				
12					
13	<b>REACTIVATED OLD CELL BLOCK—300 CAPACITY</b>				
14					
15	1 Correctional sergeant				4,296
16	9 Correctional officers				34,290
17	This cell block will increase the institution capacity and population by 300. The officers proposed will be assigned on the following post assignment basis:				
18			12 m.-8 a.m.	8 a.m.-4 p.m.	4 p.m.-12 m.
19	Correctional sergeant		—	1	—
20	Correctional Officers:				
21	Floor		1	1	1
22	Gun walk		1	—	1
23	Relief		—	4	—
24					
25	This coverage is similar to that previously provided but with one additional officer on the day shift because of the addendant traffic of inmates in this unit attending school.				
26					
27	<b>SEGREGATION UNIT—138 CAPACITY</b>				
28					
29	7 Correctional officers				\$26,670
30	These additional officers will provide the following post assignment coverage.				
31					
32	Correctional Officers:		12 m.-8 a.m.	8 a.m.-4 p.m.	4 p.m.-12 m.
33	Floor		2	2	2
34	Floor		1a	2a	1a
35	Relief		—	4	—
36	Relief		—	3a	—
37	This new unit was first staffed in the 1953-54 budget. It comprises 138 capacity on three floors, and houses the department's most difficult chronic problem cases and troublemakers. One officer on each floor is required for constant surveillance and to avoid serious incidents. An extra officer is needed on the day shift for the three meals, exercise periods, and other inmate movement.				
38					
39	2 Correctional officers (Post No. 6)—Extend to June 30, 1955				7,620
40	These positions are presently authorized to June 30, 1954, due to diminished water in the canal which was a custodial barrier. They would provide post assignment coverage as follows:				
41			12 m.-8 a.m.	8 a.m.-4 p.m.	4 p.m.-12 m.
42	Post No. 6		1a	1	1a
43	Twenty-four hour coverage is needed on Post No. 6 until construction can be completed on an additional escape barrier, presently being planned, that will completely eliminate the 24-hour Post No. 8, which can then be transferred to Post No. 6, with a net reduction of two positions.				
44					
45	1 Correctional officer (camp clerk)				3,810
46	This position is proposed as a clerical assistant to the chief camp supervisor in the management of two state and three federal forest camps. This same type of position is presently authorized for Chino. A correctional officer is requested in order to assume custodial responsibility in emergencies, in addition to processing confidential reports and correspondence.				
47					
48	<b>OPERATING EXPENSES, EQUIPMENT, INMATE PAY, AND REIMBURSEMENTS:</b> The decrease in operating expenses reflects a saving of \$30,000 in light, heat, and power due to installation of natural gas, and a decrease in funds requested of \$24,050 for nonrecurring special repairs and maintenance. The 1954-55 equipment requests include the following significant items: replacement of dough mixer (\$8,240); 500 blankets (\$2,700); 800 additional blankets for increased population (\$4,300); replace 35 water heaters (\$2,275); replacement of five autos and trucks (\$7,890). The increase in inmate pay is due to the full-year operation of the new inmate pay program. Reimbursement decreases reflect the abolishment of one federal forestry camp. Provision is made for initial complement of supplies for 300 additional inmates in a reactivated cell block.

14					(16.4%)

## Analysis

With the planned expansion in other institutions and the activation of other facilities, the San Quentin institution population for 1954-55 is expected to decrease slightly. There are four federal and two state forest camps, and two road camps. One of the state forest camps is scheduled to be moved in July, 1954, to Humboldt County. The Division of Highways has transferred most of the direct expense of the road camps to the institution's budget in the current year and will make reimbursement payments. As in 1953-54, the 1954-55 average population has been reduced 200 for the inmates placed on special intensive parole.

**SALARIES AND WAGES:** The increase of \$144,459 is largely the result of full-year cost of salary range increases, fewer vacant positions, and eight proposed new positions. 1953-54 salary savings have been increased in lieu of additional financing. The estimated salary savings computation for 1954-55 is based upon an anticipated fuller employment. Complement positions affecting several institutions are discussed under the General Analysis in the departmental summary. The six miscellaneous positions are explained as follows:

1 Senior clerk (timekeeper)	\$4,092
This position was scheduled for abolishment in 1953-54 in comparison with other institutional accounting staffs. It has subsequently been determined that this position spends 85% of its time on daily attendance reports, sick leave, overtime, and vacation records for over 640 employees. The position and the three other clerks on personnel records are deemed necessary and are proposed for continuance.	
4 Correctional officers (women guards)—effective November 15, 1953, to June 30, 1955	15,728
These temporary positions, together with an authorized nurse, are needed to provide 24-hour, seven days per week supervision over the condemned woman quartered in a private room in the San Quentin hospital. It is estimated that the time required before final disposition of the case will be until June 30, 1955, allowing for automatic and other appeals.	
1 Occupational therapist II	4,296
This position is to develop and conduct work and hobby programs for certain prisoners otherwise in continuous idleness. They would include 140 dangerous psychopaths in segregation or isolation, 50 handicapped convalescent patients in the cell annex, and many insane prisoners who are locked in their cells 24 hours per day.	

**OPERATING EXPENSES, EQUIPMENT, INMATE PAY, AND REIMBURSEMENTS:** The decrease in operating expenses is due to the decreased institution population partly offset by increased state forestry camp population. The increase in inmate pay is due to the state camp increase, full-year operation of the highway camps, and full-year cost of the institutional work project program. The equipment total of \$53,752 represents a decrease of \$39,323 from the 1953-54 level. The increase in reimbursements is due to the increased state camp population and full-year operation of the highway camps.

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS</b>				
2					
3					
4	Number of positions -----	306.8	325.3	369.3	44
5					
6	<b>POPULATION AND UNIT COSTS</b>				
7	Institution Operations:				
8	Average inmate population -----	1,825	1,950	2,200	250
9					(12.8%)
10	Cost per inmate -----	\$1,150	\$1,187	\$1,193	\$6
11					(0.5%)
12	State Forestry Camp Operations:				
13	Average inmate population -----	120	129	150	21
14					(16.3%)
15	Cost per inmate -----	\$1,362	\$1,362	\$1,551	\$189
16					(13.9%)
17	Federal Forestry Camp Operations:				
18	Average inmate population -----	56	25	25	-
19	Cost per inmate -----	\$2,015	\$2,836	\$2,819	—\$17
20					(—0.6%)
21	Analysis				
22					
23	The population at Soledad is to be expanded by double-decking the farm barracks (increased population 250) and by the transfer of				
24	a state forestry camp from under the Department of the Youth Authority. This will partially retard further overcrowding at				
25	San Quentin. Most staff and expenditure increases are related thereto.				
26					
27	SALARIES AND WAGES: The increase of \$254,893 is partially due to 41 proposed new positions. Complement positions affecting				
28	several institutions are discussed under the General Analysis in the departmental summary. Thirty-two miscellaneous positions				
29	are discussed below:				
30	1 Intermediate account clerk (trust office) -----				\$2,844
31	This position is proposed to provide two positions for the trust office, which is confidential work where				
32	inmates cannot be used. The population increase and expanded inmate pay program will further increase				
33	the work.				
34	1 Supervising cook I -----				3,810
35	This position is proposed to provide regular day off relief for the two supervising cooks who cover 14-				
36	hour meal preparation shifts at the farm barracks. Complete meals are prepared at the barracks kitchen				
37	for 450 inmates. The meal preparation problem will be even greater when the barracks population is				
38	increased to 700 in 1954-55.				
39	— Correctional sergeants (farm barracks—replacing 10 correctional officers) -----				2,280
40	26 Correctional officers (farm barracks) -----				101,340
41	The proposal for six sergeant posts plus relief and 10 correctional officer posts plus relief is to pro-				
42	vide the necessary custody for the farm barracks area to be operated at 700 population with three				
43	medium security barracks. The proposed custody staffing pattern is based on the same previous posts				
44	as when the barracks area was previously operated at approximately 700 population.				
45					
46					
47	Position	Name of post	Shifts		
48	Correctional Sergeants:		12 m.-8 a.m.	8 a.m.-4 p.m.	4 p.m.-12 m.
49		Control b -----	—	1	1
50		Main gate b -----	1	1	—
51		Culinary b -----	—	1	1
52			1	3	2
53		Relief b -----			
54					6
55					4
56		Total Sergeants (replacements) -----			10
57	Correctional Officers:				
58	Proposed Dormitory Coverage (700 population)				
59		Dormitory 1 -----	1	1	1
60		Dormitory 2 -----	1	1	1
61		Dormitory 3 -----	1	1	1
62		Dormitory 4, 5, 6 -----	—	1	1
63		Dormitory 4, 5, 6, 7, 8, 9, 10 -----	1	—	—
64		Dormitory 7, 8, 9, 10 -----	—	1	1
65			4	5	5
66					14
67	The first three barracks will house medium custody men while the other barracks will be used as honor barracks				
68	requiring less supervision.				
69		Present dormitory post coverage -----			10
70					
71		Dormitory post increase -----			4
72					
73	<sup>b</sup> Replacement of posts presently filled by correctional officers.

## STATE PRISON AT SOLEDAD—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	<b>SALARIES AND WAGES—Continued</b>				
5					
6	<i>Position</i>	<i>Shifts</i>			<i>Total</i>
7	<i>Other New Posts for Barracks Area</i>	<i>12 m.-8 a.m.</i>	<i>8 a.m.-4 p.m.</i>	<i>4 p.m.-12 m.</i>	
8	Tower 1-----	1	1	1	
9	Tower 2-----	1	—	1	
10	Tower 3-----	1	1	1	
11	Tower 4-----	1	—	1	
12	Visiting room-----	—	1	—	
13	Transportation-----	—	1	—	
14		4	4	4	12
15	Total post increases-----				16
16	Relief-----				10
17					26
18	Total correctional officers (additional)-----				
19					
20					
21	1 Medical technical assistant-----				\$3,810
22	This position, together with the existing position, is proposed to provide 365-day outpatient coverage				
23	in the barracks area for 700 population. This would be the same coverage authorized when the popu-				
24	lation was formerly 700. This would relieve pressure on the main institution hospital for emergencies				
25	and minor ailments.				
26	1 Stationary engineer-----				4,404
27	This position is proposed to provide a technical employee to maintain the operations of the centrally				
28	located, highly complex "utility tunnel" at Soledad. Inmates cannot be used therein as it is custodially				
29	hazardous. A maintenance time study revealed that such a position would permit more time on				
30	preventative maintenance and minor repairs, thus eliminating time required for later major repairs				
31	and overhauls.				
32	1 Electrician-----				4,194
33	This position is necessary to provide two electricians, one to handle a large amount of work that				
34	cannot be done with inmate help, the other to supervise inmate crews.				
35	1 Painter-----				4,194
36	This position is to provide two painters to supervise more inmate crews for the large areas to be				
37	covered, including the temporary farm barracks.				

OPERATING EXPENSES, EQUIPMENT, INMATE PAY AND REIMBURSEMENTS: The increase in operating expenses is primarily due to the increase in population of 250 inmates and a new state forestry camp. Equipment expenditures have declined reflecting a diminished need for additional items. The increase of \$6,068 is primarily due to the full-year operation of the new program to pay inmates engaged in institutional work projects. The increase in reimbursements is due to the additional state forestry camp, increased activities of correctional industries, and additional services to increased staff members. The initial inventory, \$9,700, is for the 250 additional inmates in the barracks area.

## Department of Corrections

## DEUEL VOCATIONAL INSTITUTION

A medium security institution housing young adult male offenders committed both to the Youth Authority and the Department of Corrections. The institution moved from its temporary quarters at Lancaster into the new institution at Tracy in July, 1953. The new permanent facilities have a capacity of 1,200 and will also serve as a reception-guidance center for young offenders.

Located at Tracy, San Joaquin County

a Composed of savings in salaries and wages, \$908; operating expenses, \$21,592; equipment, \$4,770; and excess reimbursements, \$1,893.

b Composed of savings in operating expenses, \$9,855.

c These inmates are fed, housed, and otherwise cared for by the prison.

d Excluding cost of operating reception-guidance center.

## Department of Corrections

## DEUEL VOCATIONAL INSTITUTION—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54			
1	GENERAL ANALYSIS—Continued							
2	The increase is principally due to the 1954-55 increase to 1,190 average population compared to an average of 870 for 1953-54 to-							
3	gether with 27 new positions found necessary because of population increase and more recent experience. The 1954-55 inmate							
4	per capita cost will decrease with the increase in population.							
5	SALARIES AND WAGES: The increase of \$239,071 is due partially to full-year cost of new 1953-54 positions, less salary savings							
6	due to fewer vacancies, and the 27 proposed new positions. 1953-54 salary savings have been increased in lieu of additional							
7	financing. The estimated salary savings computation for 1954-55 is based upon an anticipated fuller employment. Complement							
8	positions, affecting several institutions, are discussed in the general analysis in the departmental summary. Fourteen mis-							
9	cellaneous positions are explained below:							
10	2 Correctional sergeants-----				\$9,024			
11	One position is necessary to provide adequate security in the hospital area for hospital personnel							
12	and inmate workers, as in other institutions.							
13	One position is needed for relief of the above on a seven-day-per-week basis and for other sergeants.							
14	1 Correctional officer (outside visiting area)-----				3,810			
15	Two positions, two days per week (Saturday and Sunday) are needed for this outside area to prevent							
16	the entrance of contraband during the heavy weekend visiting. One sergeant only is provided for the							
17	inside visiting room for weekday visiting at present.							
18	1 Senior clinical psychologist-----				5,772			
19	2 Occupational therapist II-----				8,592			
20	These positions are to provide a training and treatment program in the special segregation unit, hous-							
21	ing 216 inmates, 50 of which are permanent segregation cases and 166 with an average stay of two							
22	months, or 1,000 processed in this unit per year. Special treatment in this unit will help psychopaths,							
23	sexual perverts and other potential trouble makers and problem cases adjust to a situation within the							
24	institution and to a more complex community situation outside.							
25	1 Psychiatrist II-----				8,318			
26	The psychiatrist in the reception guidance center is engaged full time on the diagnosis of new com-							
27	mitments. One psychiatrist is needed in a 1,200 inmate institution of the most difficult type of							
28	young unstable offenders to coordinate and supervise the casework program, diagnose troublesome							
29	cases, conduct group and individual therapy and treatment to effect a better social adjustment for the							
30	inmates in the institution and upon release.							
31	1 Senior dentist-----				8,114			
32	The one present dentist cannot perform the dental work required in an institution increasing to 1,200							
33	younger inmates, with a turnover of 800 per year. It is estimated 6,000 fillings, 2,000 prophylaxis, 200							
34	plates or bridges, and 400 extractions per year will be required. These figures indicate the need for a							
35	second dentist.							
36	3 Medical technical assistants-----				11,430			
37	These positions will be required for 16-hour, 7-day out-patient clinic and treatment service for an in-							
38	stitution of young, active inmates increasing to 1,200 population. It is estimated there will be 120							
39	inmates per day on sick call and 130 for psychiatric consultations and other purposes.							
40	1 Recreation and physical education instructor-----				4,980			
41	With the increasing population, a continuous program from 8 a.m. to 9 p.m., seven days per week is							
42	necessary. A constructive outlet for physical energy of these younger inmates is essential for success-							
43	ful adjustment. Intramural athletic events, variety shows, movies, quiet games, and inmate guidance							
44	are all to be conducted under supervision. The one present instructor cannot cover the hours and di-							
45	versification required.							
46	1 Painter foreman-----				4,512			
47	There is no painter position presently at Deuel. Although this is a new institution, it seems prudent							
48	to provide one position to supervise inmate crews in this very important means of preventing rapid							
49	deterioration.							
50	1 Stationary engineer-----				4,194			
51	This new institution has a centrally located, highly complex, and custodially hazardous utility tunnel,							
52	and other utilities that should be manned by a technical employee to do preventive maintenance.							
53	OPERATING EXPENSES, EQUIPMENT, INMATE PAY, AND REIMBURSEMENTS: The increase of \$142,545 is mainly							
54	due to the increased population of 280 inmates. Equipment costs have been reduced as original items for the new institution							
55	have just been purchased from capital outlay funds. The increase of \$3,662 for inmate pay reflects the full-year cost of the							
56	new program established in the 1953-54 Fiscal Year. Reimbursements have been increased \$5,370. This is due mainly to in-							
57	creased services to Correctional Industries, which will activate farming activities and expand industrial programs. Also, in-							
58	creased services will be reimbursed by the additional employees recommended.

30	POPULATION AND UNIT COSTS				
31	Average inmate population	413	460	490	30
32	Cost per inmate	\$1,262	\$1,426	\$1,524	\$98
33					(6.8%)

## Analysis

The proposed budget anticipates an average population of 490 for 1954-55 compared with 460 for 1953-54, and a June 30, 1955, estimate of 510. Despite the new facilities at Corona, overcrowding is already a problem. (Present facilities have only a normal capacity of 353 with the fourth inmate cottage to increase capacity to 453 scheduled for completion in April, 1954.) Additional staffing proposed is to meet acute problems experienced after one year of operation and to permit contractual laundry service for the School for the Deaf at Riverside at a savings to the State compared with private contract.

SALARIES AND WAGES: The increase is accounted for primarily by full-year cost of salary range increases, a lesser estimated salary savings due to fuller employment, and five new positions. Complement positions affecting several institutions are explained under the general analysis in the departmental summary. The two miscellaneous positions are explained below:

1 Laundry supervisor (laundry and clothing distribution) \$4,194

This position, together with the instructor in laundry and dry cleaning, is necessary to furnish additional part-time help and relief in the laundry as well as to act as part-time clothing distribution officer for the institution. The laundry contract with the Riverside School for the Deaf will increase the laundry load by 225 persons.

1 Correctional officer 3,810

One position is necessary to man the rear gate from 8 a.m. to 4 p.m. The rear gate is used as the trucking gate and for commercial and industrial deliveries during daytime hours. It causes lost time for maintenance men to perform this operation which requires an average of 50 checks in and out per day.

(-) Institution fire fighter (1 intermittent) 396

This position is proposed to provide one position to live on the grounds, be subject to call in event of fire, and periodically to inspect and maintain fire protection equipment, including fire engine and hose.

<sup>a</sup> Composed of savings in salaries and wages, \$4,053; operating expenses, \$4,157; equipment, \$2,057; and loss in reimbursements, \$2,621.

<sup>b</sup> Composed of savings in salaries and wages, \$60.

### INSTITUTION FOR WOMEN AT CORONA—Continued

LINE	EXPENDITURES				ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	GENERAL ANALYSIS—Continued							
2								
3								
4	OPERATING EXPENSES, EQUIPMENT, INMATE PAY AND REIMBURSEMENTS: The decrease of \$2,905 in operating							
5	expenses is primarily due to a decrease in medical contractual service caused by the rebudgeting of two professional medical							
6	positions under salaries and wages in lieu of contractual service. This more than offsets the normal increase for an additional							
7	population of 30 inmates. Equipment requests are nominal as the institution recently purchased original complement items							
8	from capital outlay funds. The increase of \$1,769 in inmate pay is due to full-year operation of the new plan to pay inmates							
9	for productive work in institutional activities. Increase in reimbursements is due to full-year laundry services to the School							
10	for the Deaf.

## Department of Corrections

## ADULT AUTHORITY

This is the paroling agency for adult male prisoners of the State. As such, it issues and revokes paroles, fixes and refixes terms of imprisonment. The Division of Adult Paroles supervises all adult male parolees within the State. In the 1953-54 Fiscal Year, a new Special Intensive Parole Unit and a Parole Outpatient Clinic are planned to permit early release of certain prisoners and to offer psychotherapy to certain parolees, respectively.

Main Office at Sacramento

46	Cost per parolee .....	\$139	\$149	\$156	\$7
47					(4.7%)
48	<b>Analysis</b>				
49					
50	The 1954-55 increase is largely due to the increase from 4,950 to 5,505, or 11.2%, in total average parolees under supervision, and				
51	smaller staff increases in two new trial units started in 1953-54, namely the Special Intensive Parole Unit and the Parole Out-				
52	patient Clinic. These latter two units are proposed to be continued until June 30, 1955, to provide sufficient time for a one-year				
53	trial, a complete analysis of results, and the rendering of a report on value, both social and financial, of these two trial units. It				
54	is intended that both will produce earlier and more successful paroles and will reduce parole violations.				
55	The total average regular parolees under supervision in 1953-54 is estimated to increase from 4,577 in the Governor's Budget to a				
56	revised estimate of 4,950. This has necessitated an increased number of parole officers and other expenditures in the current year.				
57					
58	<b>SALARIES AND WAGES:</b> The increase of \$94,685 is due to additional positions for increased case load, two additional positions				
59	for the Special Intensive Parole Unit, one additional position for the Parole Outpatient Clinic, full year cost of 1953-54 part				
60	year positions, and salary range increases. Proposed new positions are as follows:				
61					
62	3 Parole officer II (effective July 1, 1954; September 1, 1954; and May 1, 1954) .....				\$9,986
63	6 Parole officer I (one effective on July 1, 1954; two August 1, 1954; one March 1, 1955; one April 1,				
64	1955; and one May 1, 1955) .....				16,952
65	4 Intermediate stenographer-clerk (two effective July 1, 1954; one August 1, 1954; one March 1, 1955) .....				9,681
66	These additional positions are proposed on the basis of the approved over-all ratio of 60 parolees per				
67	officer, and upon accepted ratios of parole officers to clerical personnel.				
68	Special Intensive Parole Unit:				
69	1 Parole officer II .....				4,740
70	This position is proposed as a restoration of a position abolished in 1953-54 to permit the establishment of				
71	a senior sociologist to act as liaison between the institutions and the Adult Authority to coordinate re-				
72	leases with parole. The parole officer II was originally included in the ratio of 3 grade II to 14 grade I				
73	officers, to provide a better level of supervision in this experimental unit.				
74					
75	<sup>a</sup> Composed of savings in salaries and wages, \$1,490; equipment, \$2,003; and loss in reimbursements, \$1,041.				
76	<sup>b</sup> Exclusive of 200 in special intensive parole unit.				
77					
78

## ADULT AUTHORITY—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	GENERAL ANALYSIS—Continued				
2					
3					
4	SALARIES AND WAGES—Continued				
5	Special Intensive Parole Unit—Continued				
6	1 Intermediate stenographer-clerk				\$2,988
7	This position is proposed partly to provide clerical assistance for the additional parole officer and partly				
8	to provide adequate case recording for this special project which is receiving nation-wide attention and				
9	should not be allowed to fail because of inadequate case records. If successful this project should pro-				
10	vide long-run savings to the State. This would provide six stenographers to 18 professional positions.				
11	Parole Outpatient Clinic:				
12	1 Intermediate stenographer-clerk				2,988
13	This position is proposed to provide a more adequate clerical staff in this experimental clinic, for better				
14	case recording. This will provide two stenographers for four professional positions for this worthy ex-				
15	periment.				
16					
17	OPERATING EXPENSES, EQUIPMENT, AND REIMBURSEMENTS: The increase in operating expenses of \$38,183 is pri-				
18	marily due to the increased parole population and the additional staff necessary, including rental increases, moving, alteration,				
19	and restoration expenses in leased facilities. Equipment items are mainly for the additional staff. Reimbursements reflect a pro-				
20	portionate repayment of a reduced estimate of advances to special intensive parolees.

1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation	\$65,735	\$72,862	\$101,848	
6	Allocations from Emergency Fund	3,409	10,708	-	
7	Allocations from Salary Increase Fund	1,620	3,096	-	
8	Total Available	\$70,764	\$86,666	\$101,848	
9	Unexpended balance, estimated savings	-889 a	-	-	
10	<b>TOTALS, SUPPORT</b>	\$69,875	\$86,666	\$101,848	
11	Contributions to State Employees' Retirement Fund	2,669	3,336	4,835	
12	<b>TOTAL EXPENDITURES FOR SUPPORT</b>	\$72,544	\$90,002	\$106,683	\$16,681 (18.5%)
13	<b>GENERAL ANALYSIS</b>				
14	Number of positions	8.1	12	13	1
15	<b>PAROLE RATIOS</b>				
16	Average number of parolees supervised	290	375	450	75 (20%)
17	Average number of parole officers	4.1	6	7.5	1.5 (25%)
18	Average case load per parole officer	70.7	62.5	60	-2.5 (-4%)
19	The increase in expenditures is due to the continuing increase in parole case load, with an expansion in parole officer staff based on existing work load ratio of parolees to parole officers, and other expenses related thereto.				
20	<b>SALARIES AND WAGES: The increase of \$12,365 is primarily due to the following:</b>				
21	Positions Now Authorized:				
22	2 Women's parole officer I (effective December 1, 1953 and April 1, 1954). The full-year cost of these positions established in the 1953-54 Fiscal Year is reflected. One position will be assigned to the Los Angeles office, and the other to the San Francisco office based on increased parolee case load.				
23	1 Intermediate stenographer-clerk (effective April 1, 1954). The full-year cost of this position established in the 1953-54 Fiscal Year is reflected. This position will be located in the San Francisco office and will be the second clerical employee. It will provide stenographic service for the additional parole officer and increased board work.				
24	Proposed New Positions:				
25	1 Women's parole officer II (effective February 1, 1955). This position will provide supervision for the seven parole officers I and will carry one-half case load.				
26	Board members (one additional meeting day). The additional day per month is necessary to handle the increased number of terms and paroles to be set due to increasing institution and parole population. As of June 30, 1955, it is estimated that the institution population will reach 510 or an increase of 61 over the actual June 30, 1952 figure. Parolee case load is estimated to increase approximately 150 in the same period.				
27	<b>OPERATING EXPENSES: The increase of \$5,650 is due to increased case load and additional staff related thereto. Rental expenditures were further increased by the necessity of lease renewal at higher rates.</b>				
28	<b>EQUIPMENT: The total of \$1,973 includes one automobile and office equipment for the new parole officer.</b>				
29	a Composed of savings in salaries and wages, \$954; operating expenses, \$82; equipment, \$19; and a loss in reimbursements of \$166.

## DEPARTMENT OF THE YOUTH AUTHORITY

This department has the responsibility for classification, segregation, and parole of all young offenders committed to it. It exercises over-all supervision of the two reception centers and various correctional facilities for young offenders including custody and rehabilitation. It also administers the parole program. Consultant services are provided to judges, probation officers, juvenile halls, and law enforcement bureaus. Regular inspections of county-operated camps are made and standards set for payment of subsidies. Advisory services are rendered to community agencies interested in youth welfare and delinquency prevention.

## GENERAL ANALYSIS

The budget for the 1954-55 Fiscal Year includes the following increased facilities and activities:

- Northern California Reception Center and Clinic, a 150-bed facility, opening May 1, 1954.
- Southern California Reception Center and Clinic, opening July 1, 1954, with a capacity of 350.
- Paso Robles School for Boys moved into new buildings in January, 1954, and will increase in population from 135 at that time to 330 in the 1954-55 Fiscal Year.
- Los Guilucos School for Girls is estimated to increase from a population of 130 at the beginning of the 1954-55 year to 240 by June 30, 1955.
- The changes in institutional population, the two new reception centers, and the "speed-up" program result in an increase in parole case load which requires a significant increase in parole staff and other related expenses.

<sup>a</sup> Part of the expenditures reimbursed by and included in Division of Forestry budget.

## Department of the Youth Authority

## DEPARTMENTAL ADMINISTRATION

Departmental Administration includes a number of divisions supervising or exercising centralized control over all phases of the Youth Authority program. Included are Youth Authority Board in which is budgeted the expenses of four members of the five-member board, the chairman (who is the director) being included in the Division of Administration. The Division of Administration provides central control and unified management of the several divisions and facilities, maintains central case files, and handles deportations. The Bureau of Delinquency Prevention functions in direct contact with community agencies interested in youth welfare and delinquency prevention and includes the expenses of the interstate probation compact. The Bureau of Paroles provides parole supervision of wards released on parole from the reception centers or after a training period in the various schools and camps. The Division of Diagnosis and Treatment supervises the operation of the reception centers, schools, and camps and is responsible for the continuing re-evaluation and development of their programs and provides transportation of wards between the Youth Authority facilities.

Main office located at Sacramento

24					
25					
26	GENERAL ANALYSIS				
27					
28	The increases in support are primarily due to increased parole population, the new reception centers, and full-year cost of positions				
29	established and salary increases effective during the 1953-54 Fiscal Year. The increase is partially offset by the transfer of posi-				
30	tions from the Division of Diagnosis and Treatment to the Northern California Reception Center and Clinic.				
31					
32	Number of positions	186.9	223	256	33
33					
34	PAROLE RATIOS AND UNIT COSTS				
35	Number of parolees supervised end of year	5,019	5,942	7,279	1,337
36					(22.5%)
37	Number of parole officers end of year	67.7	93	114	21
38					(22.6%)
39	Ratio of parolees to parole officers	74	64	64	—
40	Average number of parolees supervised	4,693	5,517	6,669	1,152
41					(20.9%)
42	Cost per parolee	\$129	\$138	\$147	\$9
43					(6.5%)
44					
45	SALARIES AND WAGES: The increase of \$183,854 is primarily due to full-year cost of positions now authorized and salary range				
46	increases effective during the 1953-54 Fiscal Year, a reduction in vacant positions, and the following:				
47	Proposed New Positions:				
48	1 Intermediate typist-clerk				\$2,844
49	To provide half-time clerical assistance to the food administrator and half-time help for the stock clerk to				
50	meet the increasing work load.				
51	1 Intermediate typist-clerk				2,844
52	0.5 Intermediate typist-clerk (half time)				1,422
53	These positions are to meet the increasing work load in the clerk's office.				
54	3 Supervising placement officer (one effective July 1, 1954, one January 1, 1955, and one May 1, 1955)				9,160
55	6 Placement officer II (one effective July 1, 1954, one September 1, 1954, one November 1, 1954, one De-				
56	cember 1, 1954, one March 1, 1955, and one April 1, 1955)				17,380
57	12 Placement officer I (two effective August 1, 1954, one September 1, 1954, one October 1, 1954, one No-				
58	vember 1, 1954, one December 1, 1954, one January 1, 1955, one February 1, 1955, one March 1, 1955,				
59	one April 1, 1955, one May 1, 1955, and one June 1, 1955)				28,952
60	8 Intermediate stenographer-clerk (one effective July 1, 1954, one August 1, 1954, one September 1, 1954,				
61	one November 1, 1954, one January 1, 1955, one February 1, 1955, one April 1, 1955, and one May 1,				
62	1955)				13,851
63	These positions are required on an over-all ratio basis of 64 parolees per placement officer to meet the				
64	increasing parole case load due to the "speed-up" program, increasing institution population, and pa-				
65	roles from the new reception centers.				
66	7 Transportation officer				29,358
67	These positions, together with the four positions now authorized, staff the two busses and the two sta-				
68	tion wagons, one of each from each reception center, which will handle the transfers from the recep-				
69	tion centers to the institutions and camps, and transfers between facilities, and will return some of				
70	the parole violators.				
71	1 Intermediate stenographer-clerk				2,988
72	This position provides clerical assistance to the transportation section and the supervisor of clinical				
73	psychology.				
74	0.5 Intermediate typist-clerk (half time)				1,422
75	To provide clerical assistance to professional positions recently added to the Division of Diagnosis and				
76	Treatment.

## Department of the Youth Authority

## DEPARTMENTAL ADMINISTRATION—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	<b>SALARIES AND WAGES—Continued</b>				
5	Positions Now Authorized:				
6	Position Transferred:				
7	1 Supervisor of clinical psychology-----				\$8,112
8	This position is transferred from the Northern California Reception Center and Clinic to handle the				
9	approval of the inter-facility transfers for the director as required by Chapter 1304, Statutes of 1953,				
10	to provide a professional case-work type review of intake to screen cases before the Youth Authority				
11	Board accepts or rejects them, and to centralize the referral of cases to Mental Hygiene for observa-				
12	tion, diagnosis, and treatment.				
13	Position Abolished:				
14	(1) Temporary help (psychiatric services)-----				—\$8,300
15					
16	<b>OPERATING EXPENSES:</b> The increase of \$82,238 is primarily due to increased parole case load.				
17					
18	<b>EQUIPMENT:</b> The total of \$100,570 represents an increase of \$39,971 over the 1953-54 Fiscal Year. The major items include addi-				
19	tional equipment for placement officers including office furniture, \$14,443 and automobiles, \$34,020; an additional bus, \$18,000				
20	and two station wagons, \$4,800, for the transportation unit; and replacement automobiles, \$20,320.				
21					
22	<b>OTHER CURRENT EXPENSES:</b> Deportation of nonresidents: the increase of \$10,900 is due to increased number of deportations.				
23	Maintenance of parolees placed in foster homes: the increase of \$12,400 is due to increase parole case load and is based on approxi-				
24	mately 98 cases per month in the 1953-54 Fiscal Year and 119 in the 1954-55 Fiscal Year.				
25	Transportation of inmates: the decrease of \$3,600 is due to savings resulting from the two new reception centers and Deuel Voca-				
26	tional Institution offset by the increasing number of court commitments and the increase because of Board of Control amendment				
27	to Rule 646 which has the effect of adjusting 1930 rates to 1953 level.

## Department of the Youth Authority

## NORTHERN CALIFORNIA RECEPTION CENTER AND CLINIC

reception center for boys and girls received from Northern California. The major purpose of this facility will be to centralize intake and to make diagnostic studies and training recommendations on each case. Intensive medical, dental, psychological, and psychiatric treatment will be given. Serious medical and psychiatric cases developing in the schools will also be treated. Approximately 1,250 boys and girls will be processed each year.

The new 150-bed institution, including two 50-boy and one 50-girl dormitories, is scheduled for completion March 1, 1954. The first wards will be received May 1, 1954. Ultimate planned capacity is 250.

Located Near Sacramento

33					
34	<b>SALARIES AND WAGES: Effective dates of all positions are staggered for planning, preparation of estimates, and installation</b>				
35	<b>of equipment to prepare for receipt of wards, personnel, and training. The increase of \$395,941 includes full year cost of positions</b>				
36	<b>established during the 1953-54 Fiscal Year, partially offset by increased salary savings, and the following:</b>				
37	<b>Proposed New Positions:</b>				
38	1 Intermediate typist-clerk (effective February 1, 1954)-----				\$3,048
39	This position will handle mail distribution, duplicating, office supplies, and clerical work relating to				
40	personnel transactions.				
41	1 Cook (effective April 15, 1954)-----				3,484
42	8 Food service assistant (four effective April 15, 1954 and four May 1, 1954)-----				20,800
43	The cook, together with existing positions, is necessary to provide two single-coverage shifts of cooks				
44	per day and one shift supervising cook coverage seven days per week. The food service assistants				
45	will supervise inmates in serving and maintaining sanitary standards in the three mess halls and the				
46	hospital serving kitchen, will supervise inmates in dishwashing and scullery, and work as kitchen				
47	helpers.				
48	1 Laundry supervisor (effective April 1, 1954)-----				4,245
49	1 Laundryman (effective April 15, 1954)-----				3,012
50	1 Seamer-seamstress (effective June 1, 1954)-----				3,470
51	These positions, together with the laundryman now authorized, will staff the laundry and be respon-				
52	sible for clothing repair. The laundry personnel, supervising ward help, will be assigned the function				
53	of (1) receiving, washing, and extracting; (2) operating the dryer, sorting, ironing, and pressing; (3)				
54	ironing, pressing, sorting, sizing, and laundry distribution.				
55	2 Janitor (effective April 15, 1954)-----				5,736
56	1 Housekeeper (effective April 15, 1954)-----				2,868
57	These positions, together with the head janitor who will also work a shift, will provide janitor service				
58	for the hospital, administration, and education buildings where inmates cannot be used.				
59	1 Senior psychiatric social worker (effective July 1, 1954)-----				4,860
60	This position, together with the other two now authorized and the supervising psychiatric social worker				
61	who will also carry a small number of cases, provide the necessary number of social workers to complete				
62	the clinic team.				
63	1 Placement officer II (effective June 1, 1954)-----				4,760
64	This position will work with parole violators returned and will handle preparole work with wards				
65	paroled from the reception center.				
66	1 Electroencephalographic technician (effective April 15, 1954)-----				3,484
67	This position will operate the electroencephalograph, and take X-rays, electrocardiograms, and basal				
68	metabolism rates.				
69	1 Graduate nurse (effective May 15, 1954)-----				3,555
70	This position will take care of outpatient work, aid in physical examinations, and supervise the physio-				
71	therapy unit.				
72					
73					
74					
75	<sup>a</sup> Composed of savings in salaries and wages, \$1,023; operating expenses, \$77.				
76

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS—Continued</b>				
2	<b>SALARIES AND WAGES—Continued</b>				
3	Proposed New Positions—Continued				
4	3 Assistant head boys' group supervisor (effective April 1, 1954)-----				\$13,707
5	3 Boys' group supervisor (effective June 1, 1954)-----				11,475
6	2 Girls' group supervisor (one effective April 15, 1954, and one June 15, 1954)-----				7,650
7	These positions, together with existing custodial staff, are required on a post assignment basis to cover a minimum number of posts. Dormitory staffing is double coverage on the two day and evening shifts and single coverage at night.				
8	0.5 Barber (effective May 1, 1954)-----				1,543
9	To provide haircuts when wards are received and while they are at the institution as time permits.				
10	0.4 Chaplain—Protestant (increase to half time, effective May 1, 1954)-----				1,791
11	0.4 Chaplain—Catholic (increase to half time, effective May 1, 1954)-----				1,791
12	To provide half-time chaplain service for each of the two major faiths. In addition to conducting religious services, these positions will also provide religious counseling as part of the clinic team function.				
13	1 Chief of institution maintenance I (effective January 1, 1954)-----				5,364
14	This position, as a working supervisor, will be responsible for the maintenance of the new institution.				
15	1 Painter (effective July 1, 1954)-----				4,194
16	This position will take care of institution repainting, repairs, and window replacement which is required early in the life of the institution.				
17	Positions Now Authorized:				
18	1 Supervising psychiatric social worker (effective January 1, 1954)-----				5,364
19	This position will act as an assistant to the director of clinical services in reviewing the clinic reports and case summaries and will also carry a small number of cases in the social worker function of the clinic team. Although there is some change in function, this position in effect replaces the supervisor of clinical psychology.				
20	Positions Abolished (effective June 30, 1954):				
21	1 Supervisor of clinical psychology-----				—8,112
22	1 Intern in clinical psychology-----				—2,620

OPERATING EXPENSES, EQUIPMENT, AND REIMBURSEMENTS: The net total of these categories is \$143,940 with operating expenses and equipment totaling \$157,140 offset by services to employees, \$13,200. Operating expenses includes normal institutional operating costs plus the extra expenses of the medical and testing programs and clothing taken with the wards when transferred to the correctional schools.

## Department of the Youth Authority

## SOUTHERN CALIFORNIA RECEPTION CENTER AND CLINIC

reception center for boys and girls received from Southern California. The major purpose of this facility will be to centralize intake and to make diagnostic studies and training recommendations on each case. Intensive medical, dental, psychological, and psychiatric treatment will be given. Serious medical and psychiatric cases developing in the schools will also be treated. Approximately 2,350 boys and girls will be processed each year.

The new 350-bed institution will begin receiving wards July 1, 1954.

Located near Norwalk

23	GENERAL ANALYSIS				
24					
25	Number of positions -----	-	98	179	81
26					
27	WARDS PROCESSED AND UNIT COSTS				
28	Total wards processed -----	-	-	2,319	
29	Cost per ward processed -----	-	-	\$438	
30					
31	Per capita cost is based on the number of wards processed as this facility is primarily engaged in reception and diagnostic process-				
32	ing rather than domiciliary care and treatment.				
33					
34	SALARIES AND WAGES: The total of \$713,091 includes full-year cost of six positions now authorized and 177 proposed new				
35	positions established in both the 1953-54 and 1954-55 Fiscal Years. Effective dates are staggered to provide key personnel for				
36	planning, recruiting, installation and ordering of equipment and supplies, and to provide time for training new personnel.				
37	Positions effective after the July 1, 1954, opening date coincide with estimated population increase.				
38					
39	Proposed New Positions:				
40	2 Intermediate typist-clerk (effective June 1, 1954) -----			\$5,712	
41	These will provide seven-day-per-week information and switchboard coverage.				
42	1 Intermediate typist-clerk (effective April 1, 1954) -----			2,880	
43	This will handle incoming and outgoing mail, duplicating, and miscellaneous typing.				
44	1 Senior typist-clerk (effective April 1, 1954) -----			3,498	
45	This will provide a personnel clerk.				
46	1 Accounting officer I (effective February 1, 1954) -----			4,494	
47	1 Senior clerk (effective April 1, 1954) -----			3,498	
48	1 Bookkeeping machine operator I (effective May 1, 1954) -----			3,012	
49	1 Intermediate account clerk (effective July 1, 1954) -----			2,844	
50	These will staff the accounting office.				
51	1 Storekeeper I (effective April 1, 1954) -----			3,675	
52	This position is to be in charge of receiving and issuing stores and maintaining an inventory and				
53	control of stock on hand.				
54	1 Intermediate stenographer-clerk (effective June 1, 1954) -----			3,000	
55	This will provide clerical assistance to the business office.				
56	1 Supervising cook I (effective June 1, 1954) -----			3,825	
57	4 Cook (effective June 15, 1954) -----			13,824	
58	1 Baker (effective June 15, 1954) -----			3,456	
59	8 Food service assistant (four effective June 15, 1954 and four July 1, 1954) -----			20,640	
60	These will staff the kitchen, mess halls, hospital diet kitchen, and bakery on a post assignment basis.				
61	The food service assistants primary assignments are two for serving and clean-up in the boys' dining				
62	room, two for the girls' dining room, and one for the staff dining room. In addition, they function as				
63	cooks' helpers, supervise the scullery and dishwashing, and distribution and clean-up in the hospital diet				
64	kitchen.				
65	1 Head janitor (effective June 1, 1954) -----			3,645	
66	2 Janitor (effective June 15, 1954) -----			5,688	
67	1 Housekeeper (effective June 15, 1954) -----			2,844	
68	These will provide seven-day-per-week janitor service in the hospital and five-day-per-week service in				
69	the administration and education buildings, with the head janitor as a working supervisor.				
70	1 Boys' group supervisor (effective July 1, 1954) -----			3,810	
71	This will handle laundry collection and distribution and clothing distribution.				
72	1 Seamer-seamstress (effective August 1, 1954) -----			3,161	
73	This will handle clothing repair.				
74	1 Head boys' group supervisor (effective May 1, 1954) -----			5,276	
75	5 Assistant head boys' group supervisor (effective June 1, 1954) -----			22,655	
76	1 Assistant head girls' group supervisor (effective June 1, 1954) -----			4,531	
77	6 Senior boys' group supervisor (effective June 15, 1954) -----			24,552

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	<b>SALARIES AND WAGES—Continued</b>				
5	Proposed New Positions—Continued:				
6	1 Senior girls' group supervisor (effective June 15, 1954)				\$4,092
7	59 Boys' group supervisor (24 effective June 15, 1954; 19 July 15, 1954; and 16 September 15, 1954)				208,440
8	9 Girls' group supervisor (six effective June 15, 1954, and three August 15, 1954)				32,805
9	The above positions are required on a post assignment basis to cover a minimum number of custodial posts. In addition to six boys dormitories, there is one dormitory for girls for which double coverage is provided on the two day and evening shifts.				
10	1 Barber (effective July 1, 1954)				3,138
11	This will provide haircuts for all new commitments and the balance of the reception center population as necessary.				
12	1 Intermediate stenographer-clerk (effective May 1, 1954)				3,012
13	This will provide clerical assistance to the custodial staff.				
14	(1) Temporary help (in-service training)				3,870
15	This amount provides training for new employees resulting from custodial staff turnover and 18 hours per year training for the balance of the staff.				
16	1 Psychiatrist II (effective May 1, 1954)				9,014
17	This position, together with the director of clinical services, will work with the clinic teams and will also handle wards requiring psychiatric treatment.				
18	2 Physician and surgeon II (one effective June 1, 1954, and one July 1, 1954)				17,040
19	3 Senior dentist (one effective June 1, 1954, one July 1, 1954, and one July 15, 1954)				24,032
20	1 Dental assistant (effective July 1, 1954)				2,844
21	1 Clinical laboratory technician (effective June 15, 1954)				3,810
22	1 Electroencephalographic technician (effective June 15, 1954)				3,456
23	1 Supervising nurse I (effective June 1, 1954)				4,012
24	1 Surgical nurse (effective June 15, 1954)				3,810
25	6 Graduate nurse (one effective June 1, 1954, three July 1, 1954, and two July 15, 1954)				21,470
26	These will provide the medical and dental staff to process the wards received and to care for serious medical cases developing in the other schools.				
27	3 Senior clinical psychologist (two effective June 1, 1954, and one August 1, 1954)				17,219
28	2 Interns in clinical psychology (effective July 1, 1954)				5,160
29	1 Supervising psychiatric social worker (effective April 1, 1954)				5,298
30	6 Senior psychiatric social worker (two effective June 1, 1954, two June 15, 1954, and two August 1, 1954)				28,370
31	These will constitute the clinic teams who will process the wards, consolidate the findings of other staff, and develop the clinic report.				
32	1 Senior typist-clerk (effective June 1, 1954)				3,470
33	6 Intermediate typist-clerk (three effective July 1, 1954, and three August 1, 1954)				17,133
34	1 Intermediate file clerk (effective July 1, 1954)				2,844
35	These will provide the clerical staff for the case work section.				
36	1 Placement officer II (effective August 1, 1954)				4,345
37	This will provide parole training and will work with parole violators returned.				
38	1 Supervisor of clinical (special) education (effective June 1, 1954)				6,700
39	4 Youth Authority teacher (two effective July 1, 1954, and two August 1, 1954)				17,714
40	1 Music teacher (effective July 1, 1954)				4,626
41	2 Instructor in general shop (one effective June 1, 1954, and one July 15, 1954)				9,045
42	1 Home economics teacher (effective July 15, 1954)				4,438
43	2 Arts and crafts teacher (one effective June 15, 1954, and one August 1, 1954)				8,857
44	These will provide personnel for a school program including laboratory verification of psychological tests, observation of attitudes, handicaps, and aptitudes, group counseling, and orientation rather than academic training.				
45	3 Recreation therapist (one effective June 15, 1954, and two August 1, 1954)				11,306
46	These will provide seven-day-per-week and evening recreation program supervision. During the day, the positions will work with groups of wards in the recreation program.				
47	1 Intermediate stenographer-clerk (effective July 1, 1954)				2,988
48	This will provide clerical assistance to the education section.				
49	1 Chaplain—Protestant (effective July 1, 1954)				5,232
50	1 Chaplain—Catholic (effective July 1, 1954)				5,232
51	These will provide religious services and counseling in the two major faiths.				
52	1 Carpenter (effective June 1, 1954)				4,211
53	1 Plumber (effective June 1, 1954)				4,211
54	2 Building maintenance man (one effective June 1, 1954, and one July 1, 1954)				6,926
55	1 Painter (effective June 1, 1954)				4,211
56	1 Groundsman and flower gardener (effective March 1, 1954)				3,267
57	(0.1) Temporary help (groundsman)				200
58	1 Electrician (effective June 1, 1954)				4,211
59	(0.8) Institution fire fighter (effective July 1, 1954)				1,248
60	These will provide minimum maintenance and fire protection staff.				
61	1 Automotive equipment operator (effective April 1, 1954)				3,498
62	This will act as institution truck driver including transportation of laundry to and from the Fred C. Nelles School for Boys.				
63	Estimated salary savings				—17,000
64	Impossibility of filling positions on budgeted effective dates and a small amount of turnover should result in salary savings as estimated.				
65					
66					
67					
68	<b>OPERATING EXPENSES:</b> The total of \$279,758 includes all normal institutional operating costs, plus the cost entailed in the medical and testing program, and the cost of clothing worn by wards when transferred to other facilities.

11	Contributions to State Employees' Retirement Fund-----	18,040	19,500	19,000	—500
12	TOTAL EXPENDITURES FOR SUPPORT-----	\$18,040	\$339,607	\$330,595	—\$9,012
13					(—2.7%)
14	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
15	<b>SUPPORT</b>				
16	Budget Act appropriation-----	-	\$291,495	\$311,595	
17	Allocation from Salary Increase Fund-----	-	23,254	-	
18	Allocation from Emergency Fund-----	-	1,000	-	
19	Transferred from another institution-----	-	4,723	-	
20	Budget Act appropriation (advance from Division of Forestry) <sup>a</sup> -----	\$80,000	-	-	
21	Return of advance from Division of Forestry-----	—80,000	-	-	
22	Total Available-----	-	\$320,472	\$311,595	
23	Unexpended balance, estimated savings-----	-	—365 <sup>b</sup>	-	
24	TOTALS, SUPPORT-----	-	\$320,107	\$311,595	
25	Contributions to State Employees' Retirement Fund-----	\$18,040	19,500	19,000	
26	TOTAL EXPENDITURES FOR SUPPORT-----	\$18,040	\$339,607	\$330,595	
27	<b>GENERAL ANALYSIS</b>				
28	Number of positions-----	68.7	67.8	63.9	—3.9
29	<b>POPULATION AND UNIT COSTS</b>				
30	Average Inmate Population:				
31	Pine Grove Camp-----	95	90	90	-
32	Coarsegold Camp-----	124	122	105	—17
33	Ben Lomond Camp-----	70	70	70	(—13.9%) —
34	TOTALS, ALL CAMPS-----	289	282	265	—17
35	Average Cost Per Inmate (Excluding Inmate Pay)-----	\$1,872	\$2,013	\$2,055	(—6.0%) \$42 (2.1%)
36	The decrease in expenditures is due to discontinuance of a spike camp operated from Coarsegold April 30, 1953, and transfer of camp supervision to departmental administration.				
37	<b>SALARIES AND WAGES:</b> The decrease of \$7,011 is primarily due to discontinuance of a spike camp and transfer of camp supervision to the departmental administration budget, and the following proposed new positions:				
38	3 Boys' group supervisors-----				\$11,430
39	(1.2) Temporary help-----				4,575
40	These positions and temporary help will provide one shift of double coverage in the spike camps (including relief) in order to have one in-camp post to handle housekeeping duties such as laundry, clothing, and supplies distribution, maintenance of records on boys and employees, and transportation of wards for parole, transfer, board appearances, and emergency trips. The increased work load is indicated by the fact that departures from camps have increased 73 percent over the 1951-52 Fiscal Year.				
41	<b>OPERATING EXPENSES:</b> The decrease of \$14,450 is due to the decrease in population and discontinuance of camp supervision, and savings in clothing and dental care resulting from the new reception centers.				
42	<b>EQUIPMENT:</b> The total of \$9,957 represents a decrease of \$576 from the current year level. Major items include replacement of a carryall, \$1,975; and a laundry dryer, \$1,030, at Pine Grove; and replacement of a carryall, \$1,975, at Coarsegold.				
43	<b>INMATE PAY-WORK PROJECTS:</b> The total of \$37,895 represents a decrease of \$2,435, and is due to the population reduction.				
44	<b>REIMBURSEMENTS:</b> The decrease of \$16,559 in services to Division of Forestry is primarily due to the population decrease.				
45	Division of Forestry pays the costs of fire fighting, feeding, inmate clothing, housekeeping and maintenance, and inmate pay, while the balance of the costs due to custody, treatment, and program are borne by the Youth Authority.				
46	<sup>a</sup> An advance from the Division of Forestry appropriation for the payment of camp operations pending receipt of reimbursements.				
47	The advance is not included in over-all budget totals. The Division of Forestry budget includes all expenditures for these camps in the 1952-53 Fiscal Year.				
48	<sup>b</sup> Composed of savings in operating expenses, \$365.

## Department of the Youth Authority

## FRICOT RANCH SCHOOL FOR BOYS

A minimum security correctional school for boys in the 8 to 15 age group.

Located 11 miles east of San Andreas, Calaveras County

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	SUMMARY AND				
2	RECONCILIATION WITH APPROPRIATIONS				
3	General Fund				
4	SUPPORT				
5	Budget Act appropriation	\$284,892	\$327,052	\$383,341	
6	Transferred from another institution	-	6,388	-	
7	Allocations from Salary Increase Fund	16,474	14,080	-	
8	Allocations from Emergency Fund	14,788	10,731	-	
9					
10					
11	Total Available	\$316,154	\$358,251	\$383,341	
12	Unexpended balance, estimated savings	-1,720 <sup>a</sup>	-	-	
13					
14	TOTALS, SUPPORT	\$314,434	\$358,251	\$383,341	\$25,090
15	Contributions to State Employees' Retirement Fund	13,692	15,900	17,100	1,200
16					
17	TOTAL EXPENDITURES FOR SUPPORT	\$328,126	\$374,151	\$400,441	\$26,290
18					(7%)
19					
20	GENERAL ANALYSIS				
21					
22	Number of Positions	54.7	58.8	61.2	2.4
23					
24	POPULATION AND UNIT COSTS				
25	Average pupil population	142	140	140	-
26	Average cost per pupil	\$2,311	\$2,673	\$2,860	\$187
27					(7%)
28					
29	The increase in per capita costs is principally due to additional positions. The farm is discontinued in the 1953-54 Fiscal Year although a small number of animals are retained as an educational project.				
30					
31	SALARIES AND WAGES: The increase of \$16,612 results primarily from the full year cost of salary increases effective in the 1953-54 Fiscal Year, and the following:				
32	Proposed New Positions:				
33	0.4 Junior clerk (part time)				\$984
34	This will provide week-end telephone-receptionist coverage which cannot be provided by the present small clerical staff.				
35	1 Graduate nurse				3,630
36	(0.5) Temporary help (emergency nursing)				1,944
37	Together with positions now authorized, this will provide single coverage during the waking hours of the boys and all-night coverage when ordered by the doctor.				
38	1 Youth Authority teacher				4,626
39	This will increase the educational staff sufficiently to provide classroom instruction for 90 boys on a full-time basis and 50 boys half time, thus providing instruction to all boys while still maintaining essential institution functions.				
40					
41	OPERATING EXPENSES: The increase of \$5,150 is primarily due to a decrease in local production consumed, and increased maintenance of structures and grounds.				
42					
43	EQUIPMENT: The total of \$7,601 is an increase of \$3,378 over the current year. The major items include replacement of mattresses, \$1,773; laundry equipment, \$970; an automobile, \$1,300; and an additional extractor for the laundry, \$600.

## FRED C. NELLES SCHOOL FOR BOYS

A correctional school for boys under 16 years of age, located at Whittier, Los Angeles County.

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1					
2					
3	SUMMARY AND				
4	RECONCILIATION WITH APPROPRIATIONS				
5	SUPPORT				
6	Budget Act appropriation .....	\$724,076	\$787,325	\$841,379	
7	Allocations from Salary Increase Fund .....	41,790	40,748	-	
8	Allocations from Emergency Fund .....	14,238	-	-	
9	Transfer to Emergency Fund .....	-	-6,200	-	
10	Transferred from another institution .....	-	5,700	-	
11					
12	Total Available .....	\$780,104	\$827,573	\$841,379	
13	Unexpended balance, estimated savings .....	-16,071 <sup>a</sup>	-3 <sup>b</sup>	-	
14					
15	TOTALS, SUPPORT .....	\$764,033	\$827,570	\$841,379	\$13,809
16	Contributions to State Employees' Retirement Fund .....	49,131	53,100	54,900	1,800
17					
18	TOTAL EXPENDITURES FOR SUPPORT .....	\$813,164	\$880,670	\$896,279	\$15,609
19					(1.8%)
20					
21					
22	GENERAL ANALYSIS				
23					
24	Number of positions .....	142.2	141.3	146.3	5
25					
26	POPULATION AND UNIT COSTS				
27	Average pupil population .....	308	310	320	10
28					(3.2%)
29	Cost per pupil .....	\$2,640	\$2,841	\$2,801	-\$40
30					(-1.4%)
31					
32	The decrease in per capita cost is primarily due to the increased population resulting from the completion of the new 50-boy restricted-				
33	detention building. This building replaces an existing 20-boy unit.				
34					
35	SALARIES AND WAGES: The increase of \$21,244 results primarily from the following:				
36	Proposed New Positions:				
37	1 Laundryman .....				\$2,988
38	1 Laundress .....				2,844
39	To provide sufficient staff to handle the laundry of the Southern California Reception Center and Clinic.				
40	(Reimbursible)				
41	1 Boys' group supervisor (effective January 1, 1955) .....				1,860
42	1 Youth Authority teacher (effective January 1, 1955) .....				2,256
43	To staff the 50-boy restricted-detention building together with positions from discontinued unit, and				
44	to provide teachers for the increased population.				
45	Overtime (transportation) .....				200
46	For payment of overtime accumulated in returning escapees and transporting wards to other facilities.				
47	Temporary help (visiting) .....				105
48	To provide payment for overtime of one custodial position used two hours each visiting day for cus-				
49	todial supervision of the visiting area.				
50	1 Painter .....				4,194
51	Together with the painter now authorized, is necessary to keep the institution painting on a current				
52	basis.				
53					
54	OPERATING EXPENSES: The increase of \$10,486 is primarily due to increased population, additional painting, and special mainte-				
55	nance projects.				
56					
57	EQUIPMENT: The total of \$8,522 represents a decrease of \$9,206 from the 1953-54 Fiscal Year. The major items of equipment				
58	are replacement of a dishwasher, \$2,300; textbooks, \$700; maintenance equipment, \$795; and additional fire hose, \$585.				
59					
60	REIMBURSEMENTS: The increase of \$8,715 is primarily due to increased surplus products sales resulting from sale of farm prod-				
61	ucts to the Southern California Reception Center and Clinic and a new item of laundry services to other agencies resulting from				
62	laundry service to this new institution.				
63					
64	<sup>a</sup> Composed of savings in salaries and wages, \$546; operating expenses, \$13,475; equipment, \$2,181; and a loss in reimburse-				
65	ments, \$131.				
66	<sup>b</sup> Composed of savings in operating expenses, \$3.

## GENERAL ANALYSIS

24	Number of positions-----	56	112.5	124.5	12
----	--------------------------	----	-------	-------	----

## POPULATION AND UNIT COSTS

28	Population:				
29	Average pupil population-----	136	161	311	150
30					(93.2%)
31	Year end pupil population-----	135	240	330	90
32					(37.5%)
33	Average cost per pupil-----	\$2,565	\$3,318	\$2,608	-\$710
34					(-21.4%)

The decrease in per capita cost is due to the increased population. There should be a further decrease in the following fiscal year when a higher average population of approximately 330 is maintained.

**SALARIES AND WAGES:** The increase of \$147,091 is primarily due to full year cost of positions established during the 1953-54 Fiscal Year and the following:

## Proposed New Positions:

41	(0.2) Temporary help-----	\$750
----	---------------------------	-------

43	To provide vacation, holiday, and sick leave relief for two switchboard-information positions to maintain 11-hour coverage.	
----	---	--

45	1 Senior typist-clerk-----	3,456
----	----------------------------	-------

46	To provide a personnel clerk.	
----	-------------------------------	--

47	3 Food service assistant-----	7,740
----	-------------------------------	-------

These positions, with inmate help, are to handle serving and cleanup in the wards and employees dining rooms and supervise the scullery and dishwashing. They are justified by increased population and comparison with other facilities.

50	(0.1) Overtime (transportation)-----	400
----	--------------------------------------	-----

51	To pay overtime for longer trips which must be made to meet the departmental busses on U. S. Highway 99, and for medical care.	
----	--	--

52	2 Youth Authority teacher-----	9,252
----	--------------------------------	-------

53	To provide classroom instruction on a ratio of full-time equivalent students to teachers of 15 to 1 for the increasing population.	
----	--	--

54	1 Recreation and physical education teacher-----	4,626
----	--	-------

This position, together with the athletic coach and instructor in physical education position, will provide a seven-day-per-week day and evening physical education and recreation program for the increased population.

57	1 Placement officer II-----	4,740
----	-----------------------------	-------

58	0.5 Intermediate stenographer-clerk (half time)-----	1,458
----	--	-------

To provide additional classification and counseling unit staffing for the increased average population.

**OPERATING EXPENSES:** The increase of \$84,710 is due to increased population and expanded facilities.

**EQUIPMENT:** The total of \$6,574 represents a decrease of \$2,986 from the 1953-54 Fiscal Year. Major items include replacement of school books, \$300; additional school books, \$750; additional classification and counseling unit equipment, \$1,314; a replacement automobile, \$1,270; and replacement farm animals, \$1,000.

<sup>a</sup> Composed of savings in salaries and wages, \$204; operating expenses, \$510; equipment, \$947; and loss in reimbursements, \$1,521.  
<sup>b</sup> Composed of savings in salaries and wages, \$694; operating expenses, \$3,235.

## Department of the Youth Authority

## PRESTON SCHOOL OF INDUSTRY

The Preston School of Industry is a correctional school for boys in the 15 to 21 age group.

Located Near Ione, Amador County

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation -----	\$1,382,443	\$1,471,766	\$1,530,085	
6	Allocations from Salary Increase Fund -----	75,648	75,727	-	
7	Transfer from another institution -----	-	6,939	-	
8	Transfer to Emergency Fund -----	-	-25,841	-	
9	Allocations from Emergency Fund -----	39,681	21,796	-	
10	Total Available -----	\$1,497,772	\$1,550,387	\$1,530,085	
11	Unexpended balance, estimated savings -----	-5,436 <sup>a</sup>	-	-	
12	TOTALS, SUPPORT -----	\$1,492,336	\$1,550,387	\$1,530,085	-\$20,302
13	Contributions to State Employees' Retirement Fund -----	73,412	78,600	79,300	700
14	TOTAL EXPENDITURES FOR SUPPORT -----	\$1,565,748	\$1,628,987	\$1,609,385	-\$19,602
15	OTHER CURRENT EXPENSES				(-1.2%)
16	Replacement of Fire Loss—Laundry :				
17	Allocations from Emergency Fund -----	\$1,700	-	-	-
18	Unexpended balance, estimated savings -----	-2	-	-	-
19	TOTAL EXPENDITURES FOR OTHER				
20	CURRENT EXPENSES -----	\$1,698	-	-	-
21	TOTAL EXPENDITURES -----	\$1,567,446	\$1,628,987	\$1,609,385	-\$19,602
22	<b>GENERAL ANALYSIS</b>				
23	Number of positions -----	259.8	265.6	262.6	-3
24	<b>POPULATION AND UNIT COSTS</b>				
25	Average Pupil Population :				
26	School -----	531	525	569	44
27	Diagnostic clinic <sup>b</sup> -----	130	125	12	-113
28	Total -----	661	650	581	-69
29	Average institutional cost per pupile -----	\$2,369	\$2,506	\$2,770	(\$264)
30					(10.5%)
31	The increase in per capita cost is primarily due to the decreased population resulting from the transfer of the reception process to the new reception centers. Two of the three dormitories used for this purpose have been condemned and will be discontinued while the third will be added to the facilities for the balance of the institution population. This dormitory, together with a small increase in capacity resulting from replacement of seven dormitories in spring, 1955, will bring institution population to 600 a year end. Per capita cost should decrease in the following fiscal year when the average population will be approximately 600.				
32	<b>SALARIES AND WAGES :</b> The increase of \$8,185 is due to full year cost of salary increases effective during the 1953-54 Fiscal Year partially offset by increased estimated salary savings, and the following :				
33	<b>Abolishment of Positions Now Authorized :</b>				
34	1 Housekeeper -----				-\$3,372
35	0.5 Physician and surgeon II (half time—effective October 31, 1954) -----				-2,840
36	2 Graduate nurse -----				-7,839
37	Totals, Positions Abolished -----				-\$14,051
38	<b>Positions Reassigned :</b>				
39	13 Boys' group supervisors -----				49,530
40	Ten positions resulting from discontinuance of two dormitories due to transfer of the reception process to the new reception centers and three positions resulting from curtailing "fence rider" posts from two on the morning shift and three on the afternoon shift to one in the morning and two in the afternoon have been reassigned, effective July 1, 1954, to provide double coverage on the afternoon and evening "activity hours" shift in most of the 50-boy dormitories. One shift of double coverage is already authorized for 50-boy dormitories at other Youth Authority facilities.				
41	<b>OPERATING EXPENSES :</b> The decrease of \$26,754 is due primarily to decreased population.				
42	<b>EQUIPMENT :</b> The total of \$26,132 represents an increase of \$1,817 over the 1953-54 Fiscal Year. The major items include replacement of blankets, \$2,024; a washer, \$6,000; water heaters, \$1,008; farm animals, \$4,700; and additional school books, \$1,000.				
43	<sup>a</sup> Composed of savings in salaries and wages, \$484; operating expenses, \$6,826; equipment, \$5,595; and loss in reimbursements \$7,469.				
44	<sup>b</sup> These boys are fed, housed, and otherwise cared for at the Preston School of Industry.				
45	<sup>c</sup> Excluding cost of operating the diagnostic clinic, expenditures for which are included in the departmental administration budget.

8	Total Available	\$451,171	\$523,962	\$624,539	
9	Unexpended balance, estimated savings	35,091 a	28,236 b		
10	<b>TOTALS, SUPPORT</b>	\$416,080	\$495,726	\$624,539	\$128,813
11	Contributions to State Employees' Retirement Fund	16,570	20,800	25,400	4,600
12	<b>TOTAL EXPENDITURES FOR SUPPORT</b>	\$432,650	\$516,526	\$649,939	\$133,413 (25.8%)
13	<b>GENERAL ANALYSIS</b>				
14	Number of positions	75.5	95.1	114.6	19.5
15	<b>POPULATION AND UNIT COSTS</b>				
16	Population:				
17	Average pupil population	135	114	181	67 (58.8%)
18	End of year pupil population	85	130	240	110 (84.6%)
19	Average cost per pupil	\$3,205	\$4,531	\$3,591	\$940 (-20.7%)
20	<b>Analysis</b>				
21	The decrease in per capita cost is due to increased population partially offset by expanded facilities and new positions. New facilities include three new girls' cottages, a gymnasium, and an academic school building. The old culinary unit is being remodeled to provide a domestic science building. One existing inadequate cottage will be discontinued. In the subsequent fiscal year per capita costs should decrease because the maximum population of 240 will be maintained for the entire year.				
22	<b>SALARIES AND WAGES:</b> The increase of \$85,159 is primarily due to full year cost of positions established during the 1953-54 Fiscal Year and less salary savings due to filling more of the authorized positions, and the following:				
23	<b>Proposed New Positions:</b>				
24	2 Senior girls' group supervisor (one effective September 15, 1954 and one December 15, 1954)			\$5,508	
25	11 Girls' group supervisor (five effective September 15, 1954 and six December 15, 1954)			27,040	
26	These positions, together with positions now assigned to a cottage which will be discontinued, will staff three new cottages with double coverage on the "activity hours" shift and single coverage on the other two shifts.				
27	2 Home economics teacher (one effective February 1, 1955 and one April 1, 1955)			3,008	
28	1 Arts and crafts teacher (effective January 1, 1955)			2,256	
29	1 Music teacher (effective March 1, 1955)			1,504	
30	These positions, together with existing positions, will provide classroom instruction on a ratio of full-time equivalent students to teachers of 15 to 1.				
31	1 Recreation therapist			3,996	
32	This position, together with the recreation and physical education teacher, will provide a seven-day-per-week and evening recreation program for the increased population.				
33	1 Chief of institution maintenance I			5,232	
34	This position, as a working supervisor, will supervise the maintenance staff and be responsible for proper maintenance of the new and expanded facilities.				
35	<b>Positions to Be Abolished:</b>				
36	1 Farm hand				-2,863
37	This position was abolished January 31, 1954, since the farm has been discontinued and the position is no longer necessary.				
38	<b>OPERATING EXPENSES:</b> The increase of \$47,050 is primarily due to increased population and expanded facilities.				
39	<b>EQUIPMENT:</b> The total of \$2,240 represents a decrease of \$4,341 from the 1953-54 Fiscal Year. The only major items are an additional power mower (\$474) and replacement of fire hose (\$302).				
40	a Composed of savings in salaries and wages, \$3,455; operating expenses, \$26,786; equipment, \$3,727; and excess reimbursements, \$1,123.				
41	b Composed of savings in operating expenses, \$26,082; equipment, \$2,154.

## VENTURA SCHOOL FOR GIRLS

A correctional school for girls in the 15 to 21 age group.

Located near Ventura

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>SUMMARY AND</b>				
2	<b>RECONCILIATION WITH APPROPRIATIONS</b>				
3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation -----	\$508,752	\$565,612	\$635,171	
6	Transferred from other institutions -----	-	24,916	-	
7	Transfer to Emergency Fund -----	-	790	-	
8	Allocations from Emergency Fund -----	5,950	2,453	-	
9	Allocations from Salary Increase Fund -----	27,218	31,184	-	
10	Total Available -----	\$541,920	\$623,375	\$635,171	
11	Unexpended balance, estimated savings -----	-5,375 <sup>a</sup>	-	-	
12	TOTALS, SUPPORT -----	\$536,545	\$623,375	\$635,171	\$11,796
13	Contributions to State Employees' Retirement Fund -----	29,689	34,990	36,300	1,310
14	TOTAL EXPENDITURES FOR SUPPORT -----	\$566,234	\$658,365	\$671,471	\$13,106
15					(2%)
16	<b>GENERAL ANALYSIS</b>				
17	Number of positions -----	97.5	106.5	107.5	1
18	<b>POPULATION AND UNIT COSTS</b>				
19	Average pupil population -----	174	175	175	-
20	Cost per pupil -----	\$3,254	\$3,762	\$3,837	\$75
21					(2%)
22	The increase in per capita cost is due to adjustments in salaries and wages.				
23	SALARIES AND WAGES: The increase of \$17,383 is due to full year cost of salary increases partially offset by increased salary savings, and the following:				
24	Proposed New Position:				
25	1 Senior account clerk -----				\$3,456
26	To provide a property clerk to establish and maintain adequate equipment records for the present institution, prepare an equipment list and purchase estimates for equipping the new institution, and to maintain equipment records for the new institution.				
27	OPERATING EXPENSES, EQUIPMENT, AND REIMBURSEMENTS: These categories result in a net decrease from the 1953-54 Fiscal Year of \$5,357, the major decrease being in equipment, \$5,167.

## GENERAL ANALYSIS

Number of positions 363.6 378.3 382.8 4.5

During 1953-54 a study of the county school service fund by the Division of School Administration was commenced and is scheduled for completion before the next general session.

No new programs have been added by the Department of Education in the budget year. Included in the Departmental Support Budget for the first time are Supervision of Child Care Centers and Fingerprinting of Credential Applicants, which were formerly separate appropriations. Work load increases are anticipated in the Administrative Unit, Division of Departmental Administration and the Credentials Office. A total of three and one-half positions have been added to handle this increase.

<sup>b</sup> Composed of savings in salaries and wages, \$12,723; operating expenses, \$40,621; equipment, \$14,811; and loss in reimbursements, \$16,948.

<sup>c</sup> Composed of savings in operating expenses, \$18,209; and equipment, \$680.

<sup>d</sup> Nonscheduled appropriation. No reversion by categories.

35							
36							
37	DIVISION OF SCHOOL ADMINISTRATION						
38							
39	Administrative Unit						
40							
41	Includes the office of the associate superintendent of public instruction in charge of the following public school programs: School						
42	planning, school district organization, school lunch program, free textbooks program, surplus educational property agency, super-						
43	vision child care centers, approval of educational institutions offering veteran training and advisory services in the fields of						
44	school finance and attendance.						
45							
46	Analysis						
47							
48	The program for this division has been budgeted at the same level as 1953-54.						
49	During 1953-54 an associate budget analyst, one semisenior accountant, one accounting technician II, and one intermediate typist-						
50	clerk were added to this division to perform additional duties imposed by Chapters 1510, 1028 and 1840 and to further strengthen						
51	control over approval and administration of the County School Service Fund. Two organizational changes are reflected in the						
52	1954-55 budget; the administrative unit of the administrative services group has been combined with the administrative unit for						
53	the division, and the field records and child welfare and attendance units of the administrative services group have been combined						
54	with the supervision of child care centers to form an administrative services bureau.						
55	This division undertook a study of the County School Service Fund financed on a reimbursement basis with the Department of Fi-						
56	nance. Funds are budgeted in temporary help and operating expense for this purpose in 1953-54 and 1954-55.						
57

27							
28	Administrative Services Bureau						
29	Provides consultative and advisory services to districts on matters of school records, accounts, attendance laws and child care centers.						
30							
31	Analysis						
32	Increase in this unit is caused by inclusion of supervision of the child care program which was a separate appropriation in 1953-54						
33	Budget Act. A field representative-school administration, a consultant in child care, and an intermediate clerk have been transferred from the Supervision of Child Care Center Program formerly carried under other current expenses.

Field Rehabilitation Services for the Blind						
Acquaints newly blinded persons with the opportunities available to them, trains the blind in the making of handicraft articles and arranges the sale of such articles on a consignment basis.						
Analysis						
Provision of funds for purchase of instructional materials is included at a cost of \$1,500 in this budget. Previously most of these supplies were donated, but the growth of the program has made such source inadequate.

## Department of Education

## VOCATIONAL EDUCATION

e California program for vocational education is based upon a cooperative plan between the local school districts, the State Department of Education, and the U. S. Office of Education. The program is administered through the Bureaus of Agricultural Education, Business Education, Homemaking Education, and Industrial Education, under the Division of Instruction in the Department of Education. Funds are made available for the operation of the total program by the local school districts, the State of California, and the Federal Government. These funds are expended for state-level supervision and teacher training, and for reimbursement to local school districts which meet standards of the California Plan for Vocational Education, such reimbursement based upon the extent of excess costs entailed in meeting the prescribed standards.

e Smith-Hughes Act provides for agricultural education, industrial education, and homemaking education, while the George-Barden Act covers agricultural education, industrial education, homemaking education, and business education. Each of these federal acts require that expenditures from federal funds be matched by at least an equal amount of state and local expenditures. The George-Barden Act is somewhat broader in its provisions in that it allows reimbursement for travel and instructional equipment while the Smith-Hughes Act does not.

<sup>b</sup> Neither federal aid revenues, nor the expenditures therefrom, are included in the over-all budget totals.

<sup>c</sup> These state appropriations, together with all federal grants, are deposited in the Vocational Education Fund, from which expenditures are made.

## Department of Education

## VOCATIONAL EDUCATION—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS</b>				
2					
3					
4	Number of positions-----	87.3	89.9	85.9	—4
5					
6	The budget for supervision and teacher training reflects an increase of \$16,378 over 1953-54 due to a decline in reimbursement				
7	from the agricultural on-farm training program. Full reimbursement from the Veterans Administration is anticipated in				
8	the latter program.				
9	The instructional materials for apprentices program and the fire training program are budgeted at the same level for 1954-55				
10	as for 1953-54 except for merit salary increases.				
11					
12	<b>SUPPORT EXPENDITURES</b>	<b>NO. OF POSITIONS</b>		<b>ACTUAL</b>	<b>ESTIMATED</b>
13	<b>DETAIL</b>	<b>52-53</b>	<b>53-54</b>	<b>1952-53</b>	<b>1953-54</b>
14		<b>(Filled)</b>	<b>(Auth.)</b>		<b>1954-55</b>
15			<b>(Auth.)</b>		
16					
17	<b>SUPERVISION AND TEACHER TRAINING</b>				
18					
19	Provides state-level supervision of vocational education programs in the public schools and provides for training of vocational				
20	education teachers. Adequate supervision of vocational courses is required in order that standards of California Plan for Voca-				
21	tional Education be maintained. Fifty percent of the costs of this state-level program are normally met from federal funds.				
22					
23	<b>Analysis</b>				
24					
25	The termination of the agricultural on-farm program has resulted in a decrease in personnel in the agricultural education portion				
26	of this budget, with a consequent reduction in reimbursements.				
27					
28	<b>SALARIES AND WAGES</b>

27	Net Totals, Supervision and Teacher Training				\$660,761	\$699,020	\$713,633
28	AGRICULTURAL ON-FARM TRAINING						
29	Provides state supervision and direction of on-farm training classes in the public schools, completely reimbursed through payments from the Veterans' Administration for instructional purposes.						
30	Analysis						
31	The number of veterans involved in the California program by June 30, 1954, is expected to be so few that present plans are to close the program at that time. However, activity will continue at the level necessary to accomplish the closing negotiations with the Veterans Administration. It is anticipated that these closing costs will be reimbursed in full by the Veterans Administration.

**GENERAL ANALYSIS**

23	Number of positions -----	175.1	198	200.5	2.5
24					
25	The budget continues the same level of program as in the current year as approved in conjunction with passage of Chapter				
26	1647, Statutes of 1953 which recognized the State's primary responsibilities in the area of vocational rehabilitation. The				
27	program is to accept only those cases which come within the priority categories below but because of the backlog of ac-				
28	cepted cases, it was not possible to shift immediately the entire program in the direction indicated.				
29	(1) Those applicants most clearly in need of rehabilitation service. Need here is broadly defined in terms of severity of				
30	disability, extent of vocational handicap, as well as financial problems.				
31	(2) Those cases most clearly representing a social and economic liability. Included in this category will be all types of pub-				
32	lic assistance cases for whose rehabilitation the State has a strong obligation.				
33	(3) The industrially injured, as required by statute.				
34	(4) Clients with dependents.				
35	Within these restrictions, the bureau is anticipating an allocation of staff time to specific areas as follows:				
36					
37	Percent of				
38	Staff Time				
39					
40					
41					
42					
43	50 Recipients of Public Relief. (Disabled recipients under the aid to needy children program, general relief recipients,				
44	those receiving aid to partially self-supporting blind and those receiving blind aid).				
45	10 Industrial Accident Cases.				
46	10 Referrals from Mental Hospitals. (The State Department of Mental Hygiene, through its Bureau of Social Work,				
47	is urging the Bureau of Vocational Rehabilitation to accept as many referrals as possible. The Bureau of Social				
48	Work estimates a minimum of 2,400 referrals should be made in a fiscal year period).				
49	5 Arrested Tuberculous Cases. (A case study is being made to determine the extent of the tuberculosis load by the				
50	San Francisco and San Diego Tuberculosis and Health Associations, who are now fully supporting a vocational				
51	rehabilitation officer I and clerical assistance in each of those areas. Those staff members are working only				
52	with arrested tuberculous or those approaching discharge).				
53	10 Blind Aid Cases.				
54	15 Severely Disabled. (Certain cases which do not fall into the other groups will be given priority. Included in this group				
55	will be the deaf and severe hearing loss cases, severe orthopedic defects, severe cardiacs, epileptics, and cerebral				
56	palsied.)				

Two changes have been incorporated in the 1954-55 budget which will be financed within a program requiring a general fund in-  
crease of \$4,000 over the appropriation of \$1,246,000 for 1953-54: (1) part-time medical consultant time equivalent to one  
full-time position has been added at a cost of \$8,112 to provide medical consultative services to all branch offices throughout  
the State. (2) One-half position of vocational rehabilitation officer I is included in the vocational guidance and placement  
section. In 1948 an orderly process of transfer of coordination to the state staff was started. To date 15 have been so trans-  
ferred. The addition of this one-half position will transfer the sixteenth and last local coordinator position to the state staff,  
thus completing the transition.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55

## Department of Education

## DIVISION OF LIBRARIES

Provides library facilities for state legislators, employees and agencies. Maintains state-wide library services for the blind, including loans of talking book machines. Assists in establishing public libraries in those parts of the State without such service. Lends books not available locally and does reference work requiring materials not in smaller libraries. Collects library statistics, acts as a clearinghouse for library information and supervises, inspects, and advises county libraries.

21	<b>GENERAL ANALYSIS</b>				
22	Number of positions -----	92.9	99	100	1
23	The budget provides for a continuation of the present level of activities. One additional clerical position is included in the Books for the Blind section on a work load basis and \$3,000 is provided to finance a reclassification plan to be effective July 1, 1954. Funds have been provided for accessions to compensate for price rises of approximately 15 percent since 1949-50.

<sup>a</sup> Student enrollment for colleges represents full-time equivalent students, which are computed on the basis of 15 semester units of instruction representing one student equivalent.

<sup>b</sup> Includes contributions to State Employees' Retirement Fund.

## Department of Education

## STATE COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS—Continued

## STATE COLLEGES

The primary function of state colleges is the training of teachers. They may also offer courses appropriate for a general or liberal arts education; offer vocational training in such fields as business, industry, public service, homemaking, and social service; and offer the preprofessional courses needed by students who plan to transfer to universities for advanced professional study. The 1949 Legislature authorized the colleges to grant the master's degree. At present, such degrees are being limited to individuals who meet the State's requirement for one of the various teaching credentials, except for those students who are preparing to teach in a foreign country, those students who hold a license to teach in another state, or students preparing to teach in institutions not requiring teaching credentials.

Three technical schools are administered by the Department of Education: California State Polytechnic College, which offers occupational training in agriculture, engineering and industry, plus limited courses in the liberal arts; Fresno State College Division of Agriculture, patterned after the agricultural instruction program at California State Polytechnic College, but specializing in problems affecting the central valleys; and the California Maritime Academy, which trains officers for the Merchant Marine and the Naval Reserve. Because of their vocational nature, instructional costs and equipment allowances of these schools are normally greater than at the liberal arts type state colleges.

## Analysis

In view of the growing teacher shortage now facing California's public schools, the state colleges must continue to emphasize and encourage teacher training as their most important function. This demand for teachers, plus the reshaping of course offerings to fit new instructional facilities and buildings, dictate the direction of the instructional program at the state colleges during the budget year. Major factors of change influencing the colleges during 1954-55 are:

1. Growth of regular session enrollment to an all-time peak of 31,035 full-time equivalent students represents an increase of 1,937 students over the 29,098 F.T.E. for 1953-54, predicated on actual fall semester experience. As the three new state colleges attain permanent facilities and extend their curricular offerings, particularly into lower division courses, growth will be almost automatic from these newly tapped population centers. Statewide long range forecasts based on birth rate and immigration factors indicate an upswing in both high school graduates and attendance at higher education institutions starting with 1953-54. Over-all population in the rural areas, particularly in the valley region, is picking up after a two-year decline which saw most population increases confined to coastal defense areas. In addition, the drop in World War II veteran enrollment is offset by Korean veterans attending school under Public Law 550, who are influenced into enrolling at public colleges and universities because of the financial incentive of low tuition fees. For these reasons, enrollment increases are anticipated to be moderate at colleges in the rural areas, and heavy at San Diego and the new schools at Long Beach, Los Angeles, and Sacramento. The exceptions are San Francisco where insufficient classroom space is forcing the college to restrict its enrollment in 1954-55, and San Jose which has reached the maximum enrollment of 6,000 under the Report of Higher Education Needs completed in 1948. These factors have limited the over-all increase in enrollment by over 33 percent.
2. It has been found necessary to anticipate moderate increases in several areas of student fees in order to permit the inclusion of an acceptable program in the state college budgets. The following fee adjustments have been so anticipated and will result in approximately \$800,000 in additional reimbursements.

FEES	1953-54	1954-55	INCREASE
Tuition .....	\$13	\$25	\$12 year
Materials and services .....	15	22	7 year
Health .....	2	2	—
Placement .....	—	3	3 year
Evaluation of transcript .....	—	2	2 year

Tuition fees, more than any other student payments, are directly related to total college operation. Since the present fee of \$13 was established in 1933, average costs of full-time students at state colleges have risen from \$219 to \$629 (for 1952-53 computed on the same basis) or 187 percent. Nation-wide averages show that our colleges are recovering substantially less income per student than other state-supported colleges in the United States, and would continue to do so even after adoption of all increases indicated above. The median fee charged by state-supported teacher training colleges nationally is \$74. Fees for tax-supported liberal arts colleges and universities with professional schools are much higher.

The material and services fee has, since its uniform adoption, represented a composite of all student supplies and services charges levied for instructional courses. The cost of such services has lately been carried as a line item expenditure in each college, entitled "Instructional Expense." Due to recent cost increases, this item is now budgeted at \$22 per student at all colleges (plus duplicating costs). In order to bring the fee into line with actual expenditures at present prices, material and service fees are increased to \$22 per year.

The relatively small health fee was established by the State Legislature during the 1953-54 session, and has been continued at all colleges except San Diego, where an expanded program of student health care in 1954-55 will be financed in part with a special \$5 fee. The placement fee and evaluation of transcript fee are both now authorized by the Education Code, and are directly connected with extra service to students which should not be supported by the General Fund. Although not affecting over-all expenditures for the colleges, the continued decline in enrollment of World War II veterans will cause a shift in financing from federal tuition payments to the State General Fund amounting to \$600,045 in 1954-55.

## STATE COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS—Continued

## STATE COLLEGES—Continued

## Analysis—Continued

3. The budget proposes the addition of 79 new faculty positions upon the basis of a teacher-staffing formula which was presented to the Legislature for the first time in the 1953-54 budget.  
Recognizing the shortcomings of the ratio approach, the State Department of Finance, the State Department of Education, and the colleges developed the new staffing formula. The basic idea of the formula is that it allows staff in relation to the total work load of the college, which is the number of units of course work which the college offers. The total work load is then divided by the work load per individual instructor in order to determine the number of teaching positions necessary for a college. The work load per individual instructor is based on a work week of 45 hours which includes 36 hours of instructional work and nine hours in advising students, work on college committees, work on student activities, etc.  
The additional teachers at the individual colleges for 1954-55 are explained under the general analysis for each college.
  4. In response to legislative request, the Department of Education has completed a proposed plan for a health service program to be offered at each state college. At its 1953 Session, the Legislature adopted the first part of the plan which defined those services to be supported by the State. These were classified as physical examinations, health counseling, emergency care, first aid for sick or injured persons, and campus public health services such as food and housing inspections. The completed plan now defines those health services to be supported by student fees under the classifications of outpatient care and prevention (colds, poison oak, etc.), immunization and vaccination, X-ray services, physiotherapy, and laboratory services. The staffing believed necessary to perform all those services herein contemplated includes one doctor and one nurse per 1,000 regular students and clerical help and laboratory technicians in number sufficient to handle the work load. Necessary facilities and equipment are also itemized. Additional services desired by any college, such as services to faculty, medical care for intercollegiate sports, infirmary overnight care, dental care, and incidental staffing and facilities would have to be financed by the students through a separate local organization.  
With regard to the long range policy and plan of operation requested by the Legislature, the 1954-55 budget is predicated on the following facts:
    - a. San Diego State College is the only college that has sufficient facilities to adopt the entire program immediately. San Jose and California State Polytechnic College could approach the full program.
    - b. The proportionate cost that the student supported services bear to the entire program cost has not yet been determined. The Department of Education estimates the students' share to be one-quarter of the total cost.  
Therefore, for 1954-55, the full program will be effected only at San Diego State College. During the budget year, this college will make a cost study to determine that part of the total staff time, operating expenses, and equipment on a 10-year amortization basis that is chargeable to student fees. This pilot study will also disclose any deficiencies in staffing that may arise from the proposed staffing standards. The net additional cost to the State of \$5,659 caused by this pilot study is detailed in the general analysis for San Diego State College. In subsequent years, depending upon availability of funds, the full program will be budgeted at those colleges having adequate building facilities.
  5. Additional facilities provided by the present college construction program will be occupied at nearly all colleges during 1954-55. These facilities result in the provision for 50.5 additional maintenance positions plus \$102,057 in increased costs of operating these structures, primarily for utilities.
  6. State college libraries, like instructional positions, have not been budgeted in past years in accordance with any accepted work measurement. After thorough study, a library staffing formula was adopted in 1953-54 to permit measurement of work load in the staffing areas of administration, technical services, public services, clerical services, and student assistant coverage. In addition to this formula, an organizational pattern is recognized to permit subdivision of work into logical functions, patterned in part from the new organizational structure of the state library. Application of this new staffing pattern results in the addition of 2 professional, 7.5 clerical, and 4.4 student assistant positions, caused almost entirely from additional demands on public service points resulting from increased enrollments.
  7. Clerical and technical staffing is necessarily provided in conjunction with professional positions and new building operations, resulting in 45 new positions during 1954-55. Of these allowances, the majority are provided for instructional assistance and student personnel needs. Several stock clerks have also been added for operation of new buildings.
- In addition to the above factors, individual allowances in positions, specialized operations, and equipment needs are provided at each school to meet special problems and substandard conditions. Over-all expenditures also include programs for summer sessions and extension, which are wholly offset by student fees for such purposes.

Department of Education

STATE COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS—Continued

SPECIAL SCHOOLS FOR PHYSICALLY HANDICAPPED CHILDREN

Five special schools for the education of blind, deaf, and cerebral palsied children will be in operation during 1953-54; the School for the Blind, Schools for the Deaf at Berkeley and Riverside, and the Schools for the Cerebral Palsied at Redwood City and Altadena. Residential care and treatment needed for the proper training of these handicapped children is provided in addition to formal academic instruction. The two schools for the deaf and the school for the blind provide educational facilities from the primary grades through high school. The schools for the deaf also give extensive prevocational training. Education and medical treatment is provided for children afflicted with cerebral palsy at the two cerebral palsy schools. The student is usually enrolled for a period of 3 to 15 months of education and observation, after which he is returned to the local district to receive continued medical supervision and treatment and to enroll at special classes where possible to do so. Diagnostic and treatment clinics are operated in conjunction with these two state cerebral palsy schools.

Analysis

The budget for all of the special schools are predicated on the same enrollment for 1954-55 as 1953-54 with the exception of a slight increase at the School for the Deaf at Berkeley. Estimates of enrollment at Berkeley will be speculative until the full impact of the operation of the school at Riverside is known.

The major increases in these schools is for the additional staff to set up and operate the vocational program at Riverside when the facilities are completed about January 1, 1954. Preventive maintenance is being provided for at Riverside, as at the other schools, by the addition of one painter position.

The Schools for Cerebral Palsied Children and the School for the Blind are budgeted at the current program level. An increase in clerical help is being provided at the School for Cerebral Palsied Children at Redwood City to handle a work load problem and enable them to maintain a relatively high turnover in students. A reduction of \$33,225 is being made in the diagnostic and treatment item, as a reflection of a new policy of decentralizing routine diagnosis and treatment to the school districts in the Los Angeles area.

ORIENTATION CENTER FOR THE ADULT BLIND

The Oakland Orientation Center admits blind persons as residents and trainees in an intensive program designed to assist blind persons in becoming more self-sufficient, and in cases where feasible, partially prepare them for useful and remunerative work in trades, professions, private business, private industry, or public service. The program of the orientation center is closely coordinated with the services of the Bureau of Vocational Rehabilitation, with the home teacher and field service programs, and with programs for training teachers and other personnel directed toward serving the blind.

Analysis

The Oakland Orientation Center was established September 22, 1951, by Chapter 1144 of Statutes of 1951. The agency also provides a residence to the blind persons who were there when Chapter 1144 of Statutes of 1951 went into effect. About 75 residents remain, and as no more were accepted after this statute, this part of the program will ultimately disappear.

In establishing an orientation program for the blind, the State has undertaken a new, constructive and vitally important approach in work for the blind. In order to achieve maximum personal and vocational rehabilitation of the blind, three main avenues of approach are considered:

1. Each blind individual must be supplied with the necessary techniques alternative to eyesight, in order to minimize blindness as a handicap.
2. A blind individual must be stimulated and encouraged in order to be able to approach the solution of his problems with resolution, enthusiasm and confidence—elements which are indispensable in achieving success.
3. The public must be educated to the point of extending an opportunity to a well-prepared, qualified blind person to make good in the field of his choice.

The program is effectuated through a curriculum made up of the following courses:

- (a) Travel training
- (b) Communication skills—Braille and typing
- (c) Habits of daily living
- (d) Counseling and guidance
- (e) Business practices
- (f) Physical education
- (g) Shop

During the period February 1, 1952, to the present, 25 resident students, 13 day students, and approximately half a dozen of the residents under the old program have been admitted and given instruction. It is estimated that there will be an average of 25 students in attendance during 1954-55. The program during 1954-55 is budgeted at the current level with no changes other than the completion of the complement of equipment for the shop program.

## Department of Education

## STATE COLLEGES, SPECIAL SCHOOLS, AND BLIND CENTERS--Continued

## CALIFORNIA INDUSTRIES FOR THE BLIND

The California Industries for the Blind consist of three subsidized production centers located at Los Angeles, Oakland, and San Diego. These centers, previously known as workshops, supply sheltered factory employment to blind and partially sighted persons, including such items as manufacture of brooms, mops, pillowcases, surgical drapes and wrappers, aprons, rugs, brushes, rubber mats, and leather goods, in addition to fabrication and assembly of many products on a subcontract basis.

This program provides some training and work experience for persons who are placed in gainful employment outside the production centers with particular coordination in this respect with the Bureau of Vocational Rehabilitation.

The administrative and related expenses are a direct charge against the General Fund, and the manufacturing activities are financed from working capital supplied by the Workshops for the Blind Manufacturing Fund into which the proceeds of sales of products are deposited.

## Analysis

For many years these shops have been considered as separate entities with little direct central administration of the program. The goal is now toward development of a strong central administration with adequate administrative control over the program. The program is administered through the Division of Special Schools of the Department of Education.

The sales program is directed by a state sales manager located at San Francisco assisted by a district representative at Los Angeles and Oakland. A research engineer position will be filled during the current year to initiate a program of research and development for better production methods, and to develop new products for production at the shops. During the 1952-53 Fiscal Year, approximately 406 blind or otherwise physically handicapped persons were employed in the three centers and the estimated total pay roll was \$462,000. Sales for the three centers amounted to \$2,500,000 and the cost of goods sold was approximately \$2,243,000. A preliminary analysis of the 1952-53 Fiscal Year reveals that approximately 17.7 percent of the shop force received Aid to Needy Blind payments and 35.7 percent received Aid to the Partially Self Supporting Blind.

During the 1953-54 Fiscal Year, the factory trades building was completed at Oakland and production is now under way in the new facility.

The 1954-55 Budget includes some minor changes. An additional clerk has been provided at Oakland on a work load basis, and three positions have been transferred from Workshops for the Blind Manufacturing Fund to the General Fund in Los Angeles pursuant to the current plan of allocation of costs between these funds. The San Diego shop is budgeted at the current level.

The present plan of allocation of costs between the General Fund and the Manufacturing Fund is under study for continuance or possible revision.

## Department of Education

## CHICO STATE COLLEGE

A four-year liberal arts college specializing in teacher training curricula.

This college serves the northeastern section of the State and provides some courses of a terminal nature to meet the junior college needs of the Chico area.

Located at Chico

## GENERAL ANALYSIS

Number of positions -----	173.6	185.2	189.9	4.7
Enrollment (full time equivalent students) -----	1,215	1,275	1,300	25 (2%)
Cost per student -----	\$844	\$917	\$963	\$46 (5%)

The program proposed for 1954-55 will be substantially the same as that provided for in 1953-54 with a minor increase of 25 students to an enrollment of 1,300 in 1954-55. The significant cost increase of \$82,702, or 7.1 percent over 1953-54 is accounted for primarily by salary increases for positions now authorized, more adequate staffing in the business office and faculty, and a large decrease in reimbursements from the Federal Government for education of veterans of World War II. These factors are detailed as follows:

**SALARIES AND WAGES:** An increase of \$60,895, or 5.8 percent over 1953-54, includes \$40,969 for annual salary adjustments and salary increases for teachers effective for only part of 1953-54, and \$20,541 for 4.7 new positions. A supervising clerk is provided in the business office to permit consolidation of all college clerical services within the business office where they properly belong; 1.7 teachers are required to implement the sophomore year of the nursing education program begun in 1953-54. Additional clerical assistance is provided to relieve the faculty and maintenance staff of clerical duties.

**OPERATING EXPENSES AND EQUIPMENT:** Decreases of \$1,249 and \$12,924, or —6.7 percent, in these categories reflect reductions in building repair and new equipment purchases. The total of \$57,324 in equipment includes \$25,688 in instructional equipment for classrooms and laboratories, and \$12,733 in library books and equipment.

**REIMBURSEMENTS:** The decrease of \$31,274, or 19.2 percent, in reimbursements is caused by a drop of \$64,077 in charges to the Veterans Administration due to a considerable decrease in World War II veterans expected to enroll in 1954-55. This decrease is partly offset by an increase of \$32,803 resulting from increased and additional student fees imposed in 1954-55.

44	<b>General and Professional Divisions</b>				
45	These units of Fresno State College correspond to the other liberal arts type state colleges, as compared with the function of the				
46	Division of Agriculture which more nearly resembles the instructional program at California State Polytechnic College.				
47	The enrollment will increase by 200 full-time equivalent students in 1954-55 due to the return of Korean veterans and leveling off in				
48	enrollment of the Fresno Junior College. This will result in an increase of \$46,545 in 1954-55, or 2.3% over 1953-54, detailed as				
49	follows:				
50	SALARIES AND WAGES: An increase of \$90,527, or 4.7%, includes 6.8 teachers and 1.5 clerks to meet the enrollment increase and				
51	five custodial positions to maintain facilities on the new campus.				
52	OPERATING EXPENSES: An increase of \$34,108, or 14.3%, consists primarily of \$25,000 in telephone installations, moving expenses,				
53	bus rental, and plant maintenance and operating costs chargeable to fuller use of the new campus while continuing to operate the				
54	old campus. The balance of the increase is caused by additional enrollment.				
55	<sup>a</sup> Composed of savings in salaries and wages, \$48,431; operating expenses, \$23,986; equipment, \$8,190; and loss in reimbursements,				
56	\$17,360.				
57	<sup>b</sup> Composed of savings in operating expenses, \$5,461; and excess reimbursements, \$17,938.				
58	<sup>c</sup> Composed of savings in salaries and wages, \$5,067; operating expenses, \$4,975; equipment, \$6; and excess reimbursements, \$8,611.				
59	<sup>d</sup> Composed of savings in salaries and wages, \$1,842; operating expenses, \$280; and excess reimbursements, \$4,000.

------	--------------	-------------------	----------------------	---------------------	------------------------

## GENERAL AND PROFESSIONAL DIVISIONS—Continued

## GENERAL ANALYSIS—Continued

EQUIPMENT: The total of \$65,539, a decrease of \$22,052, or 25.2% under 1953-54, includes \$46,816 in additional instructional equipment and library books to meet growing enrollment.

REIMBURSEMENTS: An increase of \$64,123, or 19.3%, includes \$89,790 in additional student fees resulting from the increases in enrollment and from raises in student fee rates, partly offset by a decrease of \$25,763 in charges to the Veterans Administration due to a drop in enrollment of World War II veterans.

## Division of Agriculture

The only change in program for 1954-55 is the transfer of \$18,375 in student assistants employed as firemen and \$4,129, the salary of the college security officer, from the General Fund budget to the State College Fund budget, inasmuch as the college security function is designed primarily to protect the State's investment in the agriculture program. This accounts for over half of the total increase of \$39,633, or 11.1% over 1953-54. The balance of the increase includes two positions to staff for new agricultural facilities on the new campus and additional instructional equipment to meet a small enrollment increase.

## GENERAL ANALYSIS

Number of positions----- 114.8 140.9 148.2 7.3

## ENROLLMENT AND UNIT COSTS

Enrollment (full-time equivalent students)----- 523 600 650 50 (8.3%)  
Cost per student----- \$1,315 \$1,530 \$1,519 —\$11 (—0.7%)

An increase in enrollment of 50 students in 1954-55, or 8.3 percent, has resulted in an increase of \$69,489, or 7.6 per cent, over 1953-54, as follows:

**SALARIES AND WAGES:** An increase of \$69,660, or 9.4 percent over 1953-54, includes 3 teachers, 0.3 health officer, and 1.5 clerks to meet expanded enrollments, and 2.5 maintenance positions to staff for additional campus facilities.

**OPERATING EXPENSES:** An increase of \$18,520, or 18 percent over 1953-54, consists of \$8,000 for larger enrollments and \$10,000 for maintenance of additional campus facilities.

**EQUIPMENT:** The total of \$58,377, a decrease of \$13,077, or 18.3 percent under 1953-54, includes \$38,227 in additional instructional equipment and library books to provide for the increased enrollment.

**REIMBURSEMENTS:** An increase of \$10,524, or 19.2 percent over 1953-54, is composed of \$19,367 in additional student fees, offset partly by a decrease in charges to the Veterans Administration for education of World War II veterans.

## Department of Education

## LONG BEACH STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. This school was established in the fall of 1949 in temporary quarters near the City of Long Beach. On June 7, 1950, the Director of Education accepted a gift of 316 acres of land from the City of Long Beach for a permanent campus site. The college is now being operated at that new location in temporary facilities, but will move into its first permanent buildings in 1954-55. During the first four years of its existence the college was limited to a two-year upper division curriculum. However, the college now offers work in all four years and one graduate year of its liberal arts program.

Located at Long Beach

3	<b>General Fund</b>				
4	<b>SUPPORT</b>				
5	Budget Act appropriation-----	\$879,151	\$1,210,489	\$1,333,146	
6	Transfers to Humboldt State College-----	—24,000	—165	—	
7	Allocations from Salary Increase Fund-----	20,578	43,808	—	
8	Totals Available-----	\$875,729	\$1,254,132	\$1,333,146	
9	Unexpended balance, estimated savings-----	—170,386 <sup>a</sup>	—45,690 <sup>b</sup>	—	
10	TOTALS, SUPPORT-----	\$705,343	\$1,208,442	\$1,333,146	\$124,704
11	Contributions to State Employees' Retirement Fund-----	44,920	86,394	100,011	13,617
12	TOTAL EXPENDITURES FOR SUPPORT-----	\$750,263	\$1,294,836	\$1,433,157	\$138,321 (10.7%)
13	<b>GENERAL ANALYSIS</b>				
14	Number of positions-----	159.8	209.4	252.6	43.2
15	<b>ENROLLMENT AND UNIT COSTS</b>				
16	Enrollment (full-time equivalent students)-----	1,295	1,650	2,000	350 (21.2%)
17	Cost per student-----	\$579	\$785	\$717	—\$68 (—8.7%)
18	Occupancy of the first complement of permanent classroom buildings in 1954-55 will enable enrollments to expand by 350 students or 21% over 1953-54. Budgeting for maintenance of additional facilities and larger enrollments has resulted in an increase of \$138,321, or 10.7% over 1953-54, as follows:				
19	<b>SALARIES AND WAGES:</b> An increase of \$181,351, or 15.8% over 1953-54, includes 1.5 administrative and 6.5 clerical positions for expanded enrollments, three positions to help staff the new library, and 22 maintenance and three clerical positions to staff and maintain three new classroom buildings and adjacent newly landscaped areas.				
20	<b>OPERATING EXPENSES:</b> An increase of \$36,292, or 25.7% over 1953-54, includes \$21,000 for maintenance, moving, and telephone installation costs incident to operating new buildings, and \$9,000 for enrollment increases in the instructional programs.				
21	<b>EQUIPMENT:</b> The total of \$86,025, a decrease of \$18,143, or 17.4% under 1953-54, consists primarily of \$68,667 of additional instructional equipment and library books to meet the expanded instructional program.				
22	<b>REIMBURSEMENTS:</b> An increase of \$74,796, or 40.2% over 1953-54, consists of \$96,119 in additional student fees caused by the expanded enrollment and increases in fee rates to students, partly offset by a \$22,323 decrease in charges to the Veterans Administration due to a drop in enrollment of World War II veterans.

## Department of Education

## LOS ANGELES STATE COLLEGE OF APPLIED ARTS AND SCIENCES

two-year upper division college with two primary functions: First, the training of students for gainful occupations in arts and sciences as related to business and industry; and second, the training of students for teaching in the public schools. Courses appropriate for a liberal arts education are also offered in fields normally given at other state colleges. The college is at present temporarily located on the campus of the Los Angeles City College under rental agreement with the Los Angeles City School District, but a new campus has been recommended in the San Fernando Valley and preliminary plans are now being formulated for construction of permanent facilities at the new site.

Located at Los Angeles

## GENERAL ANALYSIS

17	<i>Number of positions</i> -----	248.8	279.1	321.7	42.6
18					
19	<b>ENROLLMENT AND UNIT COSTS</b>				
20	Enrollment (full-time equivalent students)-----	2,675	3,000	3,500	500
21	Cost per student-----	\$536	\$659	\$643	—\$16
22					<b>(—2.4%)</b>

Despite overcrowded conditions in temporary rented quarters, enrollments at Los Angeles State College of Applied Arts and Sciences continue to rise rapidly, with a predicted increase to 3,500 full-time equivalent students in 1954-55. Complementing student population growth, the college will intensify courses in the applied arts and sciences at its new downtown campus building. These factors result in an increase over the 1953-54 Fiscal Year of \$272,205, or 13.8 percent, as follows:

**SALARIES AND WAGES:** An increase of \$291,803, or 18.1 percent provides 26 new teachers to meet faculty requirements for increased enrollments, and 2.6 division chairmen and instructional supervisors in keeping with faculty staffing needs. Eight clerks are also included to provide clerical assistance to the student personnel, business office, and instructional functions in handling the work load created by larger enrollments.

**OPERATING EXPENSES:** An increase of \$49,929, or 10.2 percent over 1953-54, consists entirely of additional rented space to house the expanded enrollment. Although most of the classroom space is still rented from Los Angeles City College, due to rapidly expanding enrollments in both colleges, the state college is having to rent elsewhere to accommodate the increased students.

**EQUIPMENT:** The total of \$92,505, a decrease of \$11,056, or 10.7 percent under 1953-54, includes \$88,822 in additional instructional equipment and library books to meet the growing enrollment.

**REIMBURSEMENTS:** An increase of \$79,789, or 22.9 percent over 1953-54 results from an increase of \$138,943 in student fees due to the larger enrollment and to increases in student fee rates, partly offset by a decrease of \$59,654 in charges to the Veterans Administration due to a decrease in enrollment of World War II veterans.

## GENERAL ANALYSIS

Number of positions -----	166.3	198.7	233	34.3
<b>ENROLLMENT AND UNIT COSTS</b>				
Enrollment (full-time equivalent students)-----	963	1,400	1,800	400
				(28.6%)
Cost per student -----	\$882	\$858	\$770	-88
				(-10.3%)

As a result of instituting a full sophomore program for the freshmen admitted in 1953-54, and due to completion of additional classroom buildings, enrollment will increase by 400 students or 29 percent in 1954-55. Budgeting for these factors has resulted in an increase of \$183,987 or 15.3 percent over 1953-54, as follows:

**SALARIES AND WAGES:** An increase of \$201,337, or 18.9 percent over 1953-54, is composed principally of 21.3 teachers and seven clerks to meet expanded enrollments in the lower division, and eight maintenance and clerical positions to handle the maintenance and equipment problems of new campus classroom buildings and adjacent grounds.

**OPERATING EXPENSES:** An increase of \$22,885, or 17.4 percent over 1953-54, consists of \$12,535 caused by the increased enrollment, and \$10,350 caused by added campus facilities.

**EQUIPMENT:** A total of \$80,894, or a decrease of \$11,499 (12.4 percent) under 1953-54 is budgeted primarily for additional instructional equipment and library books to meet expanded enrollments.

**REIMBURSEMENTS:** An increase of \$44,312, or 26 percent over 1953-54, consists of \$65,855 in additional student fees caused by the increased enrollment and increases in fee rates to students, partly offset by a \$22,203 decrease in charges to the Veterans Administration due to a drop in enrollment of World War II veterans.

## Department of Education

## SAN DIEGO STATE COLLEGE

four-year liberal arts college with a primary purpose of teacher training. Preparation of students for community occupational pursuits is especially important in an area particularly affected by defense industry and military expansion.

Located at San Diego

## GENERAL ANALYSIS

Number of positions----- 356.8 383.4 424.7 41.3

## ENROLLMENT AND UNIT COSTS

Enrollment (full-time equivalent students)----- 3,567 3,950 4,350 400  
(10.1%)  
Cost per student----- \$545 \$602 \$594 \$8  
(—1.3%)

Large freshmen enrollments in 1953-54 and 1954-55 and growing numbers of Korean veterans, combined with the completion of additional classroom buildings contribute to an increase to 4,350 enrolled students in 1954-55.

A significant change in program consists in the expansion of the student health service. This action has been limited to San Diego in 1954-55 and consists of a pilot study to determine proper allocation of costs between the students and the State. The expanded program, itself, has been described in the summary for all colleges. Total cost of health services at this college is increased from \$31,477 to \$57,671, less \$20,535 in student fee reimbursements resulting from assessing a \$5 per year health fee to all regular students, or a net additional cost to the State of \$5,659. For the one-year study, the allocation of costs has resulted in a distribution of 35.6 percent to the students and 64.4 percent to the State.

The total budget increase is \$205,287, or 8.6 percent over 1953-54, detailed as follows:

**SALARIES AND WAGES:** An increase of \$243,029, or 10.9 percent, includes 5.5 medical and clerical positions for the health service, 22.5 teachers to meet the increase in enrollment, and five maintenance positions to care for additional buildings and grounds facilities to be occupied in 1954-55. The enrollment growth has also necessitated the addition of 8.5 clerks in the student personnel, business management, and instructional functions, and one librarian position for the library.

**OPERATING EXPENSES:** An increase of \$22,561, or 8.1 percent, is caused primarily by enrollment growth for which the largest cost is instructional expense.

**EQUIPMENT:** The total of \$82,430, a decrease of \$25,453, or 23.6 percent under 1953-54, includes \$2,950 in health equipment, and \$69,597 in additional instructional equipment and library books to provide for enrollment increase.

**REIMBURSEMENTS:** An increase of \$54,262, or 13.3 percent, includes \$140,415 in additional student fees due to the increase in enrollment and raises in student fee rates, partly offset by a reduction of \$88,253 in charges to the Veterans Administration due to a drop in enrollment of World War II veterans.

SAN FRANCISCO STATE COLLEGE

four-year liberal arts college emphasizing teacher training. In connection with its curricula for training nursery school teachers and for other preschool studies, the college operates a child care center in addition to its regular elementary laboratory school.

Located at San Francisco

34					(0.9%)
35	Due to completion of another classroom building in 1954-55, the enrollment is expected to increase by 100 to a level of 4,500. Also the additional building will enable the college to abandon the old campus completely. However, savings in the maintenance program resulting from this action will be offset by the additional grounds and building facilities requiring maintenance on the new campus in 1954-55. Other factors causing an increase in the support budget are the transfer of the Child Care Center from the subvention budget to the support budget in the amount of \$18,207, and the transfer of the Campus Demonstration School from the old to the new campus, with an expanded enrollment causing an additional cost of \$28,564. The net result is an increase of \$137,683 in the 1954-55 support budget, or 5 percent over 1953-54, detailed as follows:				
36	SALARIES AND WAGES: An increase of \$268,468, or 10.2 percent over 1953-54, includes 5.5 positions (primarily teachers) for the Child Care Center budgeted under support for the first time, 15.5 positions (primarily teachers) to handle an increase in laboratory school enrollment from 125 to 540 resulting from its move to the new campus, and 11 teachers to meet a higher enrollment in 1953-54 than was anticipated and the further increase in 1954-55. Four positions are also provided for clerical assistance for the faculty and the library. Despite a considerable increase in grounds and building space to be maintained on the new campus, only two additional groundsmen are required as a result of savings in personnel time due to abandonment of the old campus.				
37	OPERATING EXPENSES: An increase of only \$758 is budgeted for 1954-55, as a result of \$20,000 in savings in telephone installations, moving expense, and bus operation due to abandonment of the old campus, offset by increased expenses required by expansion of enrollments in the college and laboratory school and the addition of the Child Care Center to the support budget.				
38	a Expenditures for the Child Care Center included in Support Budget for the college.				
39	b Composed of savings in salaries and wages, \$7,924; operating expenses, \$26,773; equipment, \$1,453; and loss in reimbursements, \$5,282.				
40	c Nonscheduled appropriation.

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	<b>GENERAL ANALYSIS—Continued</b>				
2					
3					
4	EQUIPMENT: The total of \$91,749 provided in 1954-55, a decrease of \$28,458, or 23.3 percent under 1953-54, includes \$60,000				
5	for additional instructional equipment and library books to provide for the larger enrollments.				
6					
7	REIMBURSEMENTS: An increase of \$124,116, or 22.5 percent, consists of \$122,461 in additional student fees due to increases				
8	in enrollments and student fee rates, \$9,103 in payments from parents for care of children enrolled in the Child Care Center,				
9	\$43,680 from the San Francisco School District for education by the laboratory school for all students in excess of 400 en-				
10	rollment under Chapter 985, Statutes of 1949, and \$7,571 from the San Francisco Recreation Department for rental of the				
11	college swimming pool under Chapter 727, Statutes of 1953; offset by a decrease of \$58,699 in charges to the Veterans Admin-				
12	istration due to a drop in enrollment of World War II veterans.

## Department of Education

## SAN JOSE STATE COLLEGE

A four-year liberal arts college with a primary function of teacher training. The college has reached the maximum enrollment of 6,000 full-time equivalent students contemplated in the 1948 Survey of Higher Education Needs in California, and will be budgeted at that figure pending completion in 1955 of another survey of the needs of higher education in California.

Located at San Jose

## GENERAL ANALYSIS

Number of positions-----	514.8	574.7	558.7	—16
<b>ENROLLMENT AND UNIT COSTS</b>				
Enrollment (full-time equivalent students)-----	5,928	6,875	6,000	—\$75
				(—12.7%)
Cost per student-----	\$475	\$514	\$587	\$73
				(14.2%)

Despite separation of the junior college and the state college in 1953-54, enrollment increased from an estimated 6,000 to an actual 6,875 students. Minimum staffing to meet this increase was financed temporarily out of additional student fees resulting from this enrollment increase. The budget maximum of 6,000 students is continued in 1954-55 in view of the fact that the Report of the Survey of the Needs of Higher Education in California, published in 1948, contemplated a maximum enrollment of 6,000 for San Jose State College. It is for this reason, primarily, that despite a decrease in state support of \$8,904, the cost per student enrolled is increasing 14.2 per cent.

The other major factor contributing to a decrease in the budget is the abolishment of 12 teachers and six clerks, provided for 1953-54 only, to facilitate the separation of the junior college. Further detailed adjustments are as follows:

**SALARIES AND WAGES:** An increase of \$16,218, or 0.5 percent over 1953-54, includes eight additional maintenance positions for custodial and grounds care of new buildings and landscaped areas, and a reduction in staff of 26 positions which had been budgeted for 1953-54 only.

**OPERATING EXPENSES:** A decrease of \$6,748, or 1.6 per cent under 1953-54, consists of a decrease in instructional expenses resulting from the drop in enrollment partly offset by increases in building and grounds maintenance costs.

**EQUIPMENT:** The total of \$111,795, a decrease of \$12,816, or 10.3 per cent, consists primarily of \$73,348 in additional instructional equipment and library books to replace materials rendered obsolete because of advancing science and technology, and to provide a reasonable standard of equipment and book complements.

**REIMBURSEMENTS:** An increase of \$7,648, or 1.3 per cent, is caused by an increase in student fee rates partly offset by decreases in student fee reimbursements resulting from the drop in enrollment and from the decrease in charges to the Veterans Administration for World War II veterans.

## Department of Education

## CALIFORNIA STATE POLYTECHNIC COLLEGE

A technical college providing occupational training in agriculture, engineering and industry, and in selected liberal arts field. The college grants a Bachelor of Science degree in agriculture, engineering, and liberal arts; and has been accredited for granting a general secondary credential, a special secondary credential in vocational agriculture, a special secondary credential in physical education, and the special secondary limited credential in agriculture. In addition a program for graduate study leading to a Master of Arts degree is provided. Two-year vocational and three-year technical curricula are offered in all agricultural and engineering majors.

The college maintains two branches in Southern California—the Voorhis Campus located at San Dimas, and the nearby Kellogg Campus located at Pomona. The Voorhis Campus offers programs in agricultural inspection, citrus fruit production, an ornamental horticulture. The Kellogg Campus, consisting of 812 acres acquired by gift in 1949, is for the expansion of instructional facilities at this branch.

Located at San Luis Obispo

41					(—13.6%)
42					
43					
44	Additional housing facilities on or adjacent to the San Luis Obispo Campus will enable the enrollment to increase by 732 to 3,485				
45	in 1954-55. This will result in an increased cost of \$245,548, or 9.6 percent over 1953-54, detailed as follows:				
46	<b>SALARIES AND WAGES:</b> An increase of \$155,449, or 6.7 percent over 1953-54, is due primarily to salary increases effective for				
47	only part of 1953-54, and merit salary adjustments. A nurse is included at the Kellogg-Voorhis unit to provide health services				
48	to the students in return for a health fee presently assessed. Two clerks are also added to this unit to reduce deficiencies in				
49	clerical staffing for the instructional staff.				
50					
51	<b>OPERATING EXPENSES:</b> An increase of \$31,034, or 6.3 percent, consists of \$5,000 for added instructional expenses resulting				
52	from the increase in enrollment, \$10,000 for additional campus maintenance expenses, and \$10,000 for expenses resulting from				
53	an expanded farm program.				
54					
55	<b>EQUIPMENT:</b> The total of \$107,573, a decrease of \$20,713, or 19.3 percent under 1953-54, includes \$70,000 for additional in-				
56	structional equipment and library books to meet the expanded enrollment.				
57					
58	<b>REIMBURSEMENTS:</b> A decrease of \$79,778, or 20.5 percent under 1953-54, is traceable to a drop of \$166,608 in charges to the				
59	Veterans Administration due to a decrease in enrollment of World War II veterans, partly offset by an increase of \$81,126				
60	in student fees resulting from the increase in enrollment and from raises in student fee rates. Other reimbursements are in-				
61	creasing by \$5,704.				
62					
63	<sup>a</sup> Composed of savings in salaries and wages, \$412,487; operating expenses, \$67,865; equipment, \$7,216; and loss in reimburse-				
64	ments, \$65,240.				
65	<sup>b</sup> Composed of savings in salaries and wages, \$20,000; and excess reimbursements, \$110,355.				
66	<sup>c</sup> Includes estimated cost of State Employees' Retirement Fund Contributions.

## Department of Education

## CALIFORNIA MARITIME ACADEMY

The academy educates and trains young men who are qualified for entrance, to become licensed officers in the Merchant Marine. The course is three years and leads to the Bachelor of Science degree in Nautical Science, specifying navigation and seamanship for those in the deck course, marine steam, diesel and electrical engineering for those in the engineering course. Prior to graduation, candidates for the degree take the U. S. Coast Guard examinations for licenses as third mates or third assistant engineers. In addition to the degree and licenses, graduates are appointed ensigns in the U. S. Maritime Service by the Federal Maritime Administration. By virtue of the technical training received, graduates are also issued appointments as ensign in the U. S. Naval Reserve, similar to those received by graduates who have taken Naval ROTC training in the 52 leading universities of the Country. The academic course leading to the above attainments is supported by training at sea approximately three months each year on the training ship Golden Bear, which is on loan to the State from the Federal Maritime Administration.

The State receives for the academy an annual subsidy (currently \$25,000) for general overhead from the Federal Government, which also pays to the State 68 7/10 cents per diem for subsistence of qualified Naval Reserve students, and pays approximately \$50,000 annually for the overhaul and drydocking of the training ship. The States of Maine, Massachusetts, and New York have similar maritime academies, similarly subsidized by the Federal Government.

Located at Morrow Cove (Vallejo)

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	
	52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)				

<b>GENERAL ANALYSIS</b>							
Number of positions		64.2	61.7	62.5		0.8	
<b>ENROLLMENT AND UNIT COSTS</b>							
Average enrollment		180	170	200		30	
Cost per student		\$1,373	\$1,640	\$1,445		-\$195 (-11.9%)	

A net increase of \$11,714 in salaries and wages over that authorized in 1953-54 is caused by an estimated decrease in vacant positions due to anticipated fuller employment conditions.

A net increase of \$3,531 in operating expenses is due primarily to added feeding costs arising from an increase in enrollment. This cost is partly offset by additional reimbursements in student fees.

## Department of Education

## CALIFORNIA SCHOOL FOR THE BLIND

Residential school for general education of the blind, partially blind, and deaf-blind children through the elementary and secondary school levels. The education of the blind requires special equipment, particularly library and writing facilities, models for tactual study and apparatus for corrective physical education. Guidance service is rendered to graduates and ex-pupils by the school's field service. The deaf-blind unit is the only one in the western part of the United States where these doubly handicapped children may be educated.

Located at Berkeley

Deaf-blind	\$3,164	\$3,874	\$3,332	-\$542 (-14%)

## Analysis

The budget is proposed at the same level of service as provided in the current fiscal year.

Enrollment for the budget year is estimated at 156 blind students and 12 deaf-blind, a total of 168. This represents an increase of three deaf-blind students.

The trend toward younger students continues, increasing the need for instruction in piano and musical instruments. Accordingly, increased time for 0.2 each for two music teachers is being budgeted at a cost of \$2,423.

The California School for the Deaf, Riverside, opened on February 1, 1953, to serve 56 primary students. The school reopened in the fall of 1953 with a student population of 225. Completion of additional buildings and dormitories made it possible to offer academic instruction in all grades from primary through secondary school, as well as a limited vocational training program. Additional vocational teaching facilities are to be made available in the 1954-55 Fiscal Year.

The proposed budget reflects the need for staffing the new vocational building with teaching and janitorial personnel at a cost of \$20,694. An additional account clerk is included to provide assistance required to maintain accounting records, and one painter is included to carry out a continued program of interior and exterior painting at a cost of \$7,028. Additional operating expenses of \$19,457 have been budgeted in maintenance and operation in order to adequately maintain the buildings and grounds. A school bus is budgeted to provide essential transportation. Remaining increases represent extension of existing positions to full-year utilization.

## Department of Education

## SCHOOL FOR CEREBRAL PALSID CHILDREN, NORTHERN CALIFORNIA

residential school for the education and treatment of children afflicted with cerebral palsy. Students are enrolled from 3 to 12 months and are then returned to their local district facilities for continued medical supervision and treatment, and special education in the local district schools. A diagnosis and treatment center is maintained through cooperation with the University of California School of Medicine at San Francisco, which provides diagnosis and clinical treatment for children with cerebral palsy who are referred to the center.

Temporarily located at Redwood City

## Department of Education

## SCHOOL FOR CEREBRAL PALSID CHILDREN, SOUTHERN CALIFORNIA

A residential school for the education and treatment of children afflicted with cerebral palsy. Students are enrolled 3 to 12 months and are then returned to their local district facilities for continued medical supervision and treatment and special education in local district schools. A diagnostic treatment center is maintained under contract with the Children's Hospital and the Orthopedic Hospital in Los Angeles, which provides diagnosis and clinical treatment for children with cerebral palsy who are referred to the center.

Located at Altadena

OAKLAND ORIENTATION CENTER

The center admits blind persons as residents and trainees in an intensive program designed to assist blind persons in becoming more self sufficient, and in cases where feasible, partially prepares them for useful and remunerative work in trades, professions, private business, private industry, or public service.

Located at Oakland

GENERAL ANALYSIS

Number of positions-----	50.2	53	53	-
The program for 1954-55 is budgeted at the current level with adjustments for an anticipated increase in enrollment from 15 to 25 students.				
Under provisions of Chapter 1144, Statutes of 1951, no more resident members may be accepted by the Oakland Orientation Center.				
Gradual attrition of the resident population will eventually leave only the orientation phases of the program with a corresponding shift in the expenditure program.				

PROGRAM AND UNIT COSTS

Department of Education

LOS ANGELES CENTER, CALIFORNIA INDUSTRIES FOR THE BLIND

Provides sheltered factory employment to blind and partially blind persons, some of whom are not able to obtain or retain jobs in private industry. Industrial training and vocational guidance is also given to enable blind persons to contribute to their own support. The administrative and related expenses are supported by the General Fund and the manufacturing activities are financed from working capital supplied by the Manufacturing Revolving Fund, as shown in the Appendix.

Located at Los Angeles

## Department of Education

## OAKLAND CENTER, CALIFORNIA INDUSTRIES FOR THE BLIND

Provides sheltered factory employment to blind and partially blind persons, some of whom are not able to obtain or retain jobs in private industry. Industrial training and vocational guidance is also given to enable blind persons to contribute to their own support. The administrative and related expenses are supported by the General Fund and the manufacturing activities are financed from working capital supplied by the California Industries for the Blind Manufacturing Fund, as shown in the Appendix.

## TEACHERS' RETIREMENT SYSTEM

Administers through the State Teachers' Retirement Board the Teachers' Retirement Act. Computes, collects, records, invests, and refunds contributions, and computes and pays retirement benefits. Members of the system consist of certificated employees of the Public School System and employees of state departments holding valid teaching credentials who have elected to join the State Teachers' Retirement System.

21					
22	Number of positions	31.5	33	34	1
23					
24	The State Teachers' Retirement System will continue its growth into the budget year with an increase of active accounts of 13.50				
25	or 9.5 percent over 1953-54.				
26	This budget includes one additional tabulating machine operator for existing machine work load and absorption of bond accounting				
27	onto tabulating cards, thus releasing clerical time for follow-up on redeposits. The major operating increase is required to				
28	finance the second year of a valuation study on retirement systems being conducted by a legislative interim committee.

46	<sup>b</sup> Of which not to exceed \$100,000 is available for expenditure in 1953-54.				
47	<sup>c</sup> The use of this amount reserved from prior year savings results in a saving and reversion to the State's General Fund of \$2,416,541 in the salary increase appropriation in Item 285, Budget Act of 1953. The remaining \$73,905 is to be used to convert the university's inventory records to machine methods.				
48	<sup>d</sup> Represents three graduate students full year, plus 376 undergraduates in College of Letters and Science, spring semester only.				
49	<sup>e</sup> Includes internes and residents receiving instruction, as follows: 1953-54, 153; 1954-55, 155. Such persons numbered 145 in 1952-53, but were not formally registered prior to 1953-54.				
50	<sup>f</sup> Net current expenditures (including contributions to the State Employees' Retirement Fund) after deducting current revenue from sources other than state appropriations. Excludes expenditures, income, and enrollment, if any, for the following activities and functions, together with the proportionate amount of maintenance and operation of plant and state-wide expenditures attributable thereto:				
51	(1) Summer Sessions, Extension, Vocational Education. (2) Organized Research Activities, such as the Agricultural Experiment Station, the Scripps Institution at La Jolla, Lick Observatory, the Institute of Experimental Biology, etc. However, expenditures for research and investigation carried on by academic personnel under departmental auspices are included; these are particularly significant in the Medical Center, San Francisco. (3) Auxiliary Enterprises, such as dormitories and dining halls. (4) Organized activities of educational departments, such as the University Creamery at Davis, and the Optometry Clinic at Berkeley, which are supported out of their own income. However, teaching hospital expenditures in excess of their income are included in computing expenditures per student. (5) The School of Medicine and Teaching Hospital at Los Angeles, still in developmental stage.				

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	INCREASE OR DECREASE (—) AMOUNT PERCENT		
1	GENERAL SUMMARY						
2							
3							
4	The budget as submitted by the Regents proposed a General Fund support appropriation of \$60,282,714 and the use of university funds						
5	in the amount of \$18,587,384 to finance this program. As modified by the Department of Finance, with the approval of the Govern-						
6	nor, it is proposed that reserves in the amount of \$6,600,000 accumulated by the regents from prior year savings be used in financ-						
7	ing the 1954-55 year expenditures and, in addition, student fees be increased from \$84 a year to \$140 a year, providing an addi-						
8	tional \$1,900,000, and the financing of the nematode control research program be transferred from the General Fund to the Fair						
9	and Exposition Fund as in 1953-54, thus reducing the amount of the General Fund support appropriation to \$51,702,714. In						
10	addition the General Fund bears the fixed charge for contributions to the State Employees' Retirement Fund on account of uni-						
11	versity nonacademic employees, estimated at \$2,710,000 in the budget year.						
12							
13	Enrollments for 1954-55, estimated at 34,505 compared to 32,685 in 1953-54, an increase of 1,820 or 5.6 percent, reflect a definite						
14	upward change in registration trends. The marked increase in enrollment at Riverside is occasioned by the first full-year opera-						
15	tion of the new College of Letters and Science which will open in the spring semester this year with an estimated registration						
16	of 376, limited to the first three years.						
17							
18							
19							
20							
21							
22	SUMMARY OF INCREASES IN OPERATING PROGRAM						
23							
24	Of the total support budget of \$78,970,098 which is an increase of \$6,802,362 over 1953-54 \$4,628,184, or two-thirds of the increase						
25	is made up of increases in "new and extended" activities to which the university is already committed and \$43,000 is for two						
26	new important agricultural research projects. "Regular and continuing" activities are budgeted at an increase of \$2,131,178, or						
27	3.5 percent over 1953-54. Of this amount \$992,000 is for normal merit salary increases and earned promotions in academic rank,						
28	leaving the basic increase as \$1,139,178, or 1.9 percent of the current year's budget for these activities.						
29	Expenditures for significant new activities or extension of existing activities in 1954-55 and provisions required for recently inaugu-						
30	rated departments or other units whose initial development is not complete are summarized below by campus. Also included are						
31	provisions for special research projects undertaken by the university as the result of special legislation.

## PRINCIPAL ELEMENTS OF INCREASE

The total increase of \$6,802,362 in the budget is offset to the extent of \$1,934,137 by an operating income increase from hospitals, residence halls, dining halls, lunchrooms, bookstores, and other income-producing enterprises, leaving a net increase of \$4,868,225 or 6.7 percent of the current year budget. The net increases in the budget may be classified into the following general categories, arranged in order of relative size and importance.

1. Development of the Medical Center, Los Angeles-----	\$1,986,407
Less: Added Operating Income-----	—534,350
Net Increase-----	\$1,452,057

The development of the Los Angeles Medical Center, to bring into use facilities which have cost many millions of dollars, and to provide urgently needed service and training in medicine for Southern California and the State as a whole, is the most important single factor in the university budget increase.

The major portion of this increase, \$1,277,031, is to provide for the opening of the new 320-bed Los Angeles Teaching Hospital. The schedule provides for recruitment of staff, putting facilities in order for acceptance of patients, and training in procedures, to begin July 1, 1954; for care of about 75 patients in December, 1954; progressive increase in the number of patients to normal capacity by April, 1955. By the early summer of 1955 there must be on hand a staff of 702 persons including 50 for out-patient and social service. This will provide only the accepted average of 2.74 employees per bed patient.

The next largest item in the increase for the Los Angeles Medical Center is \$690,282 for the Medical School, of which \$611,864 represents the minimum cost for 1954-55 of bringing the Medical School and Bio-Medical Library into operation for four undergraduate classes and on a limited graduate level, with supervision for internes and residents in the teaching hospital; \$78,418 is the budget of the Marion Davies Children's Clinic supported entirely by donated funds and income. The medical school started instruction in 1951-52 with a class of 28 students, and each of the following two years admitted an additional class of 32 students. A class of 50 students is the objective as soon as facilities and staff can be made ready for it.

The largest single item in the \$611,864 net provision for the Medical School is a provision of \$163,800 for payments to the hospital covering the estimated cost of teaching patients. Second largest is \$90,731 for the Department of Surgery, which at Los Angeles will include such fields as anesthesia, neurology, ophthalmology, orthopedics, otorhinolaryngology, and urology, with a total staff of 60.5 full-time academic and nonacademic members.

Expansion of the School of Nursing to provide clinical nursing instruction on a forty weeks' basis in accord with licensure and registered nurse requirements, and to begin enrollment increase toward a doubling of the basic training program, a 20 percent increase in bachelor degree candidates, and provision for postgraduates, accounts for \$19,094 in the Medical Center increase.

The opening of the Medical Center also involves costs not budgeted to it directly, in the amount of approximately \$143,200, attributable to additional services incident to new facilities going into operation and an expanded staff. Major items, in round figures, in this indirect cost, are \$120,000 additional for maintenance and operation of plant and related activities, \$18,000 for personnel office service and \$5,200 to meet new demands on the controller's office.

2. Development of the Medical Center, San Francisco-----	\$1,419,380
Less: Added Operating Income-----	—784,781
Net Increase-----	\$634,599

The greater part of this increase is required to put the Moffitt Hospital into operation. Recruiting of staff and shakedown operations will begin July 1, 1954, and patient care will be shifted to the new structure beginning about December 1, 1954. For the first five months the old hospital will be in full operation and the new on a trial-run basis, which is one significant reason for the size of the budget increase. The second and primary reason is the increased size of the new hospital, which will contain 483 beds; the old one offered 286.

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	PRINCIPAL ELEMENTS OF INCREASE—Continued				
2					
3	Development of the Medical Center, San Francisco—Continued				
4					
5	The total budget proposed for the university hospitals, amounting to \$4,431,000, in round figures, may be broken down into				
6	\$3,230,000, needed to continue present operations at the current patient load; \$920,000 to take care of an estimated 26,000				
7	additional patient days (a 32 percent increase) in the expanded facilities, and \$280,000 to put the new hospital into operation				
8	with a shakedown and early post-opening period of low occupancy.				
9	Throughout the hospital industry, it is generally accepted that the cost of opening a hospital is usually estimated at 10 percent of				
10	the subsequent annual operating budget. The amount proposed at San Francisco is considerably below this figure because it is				
11	believed that the availability of trained personnel and a nucleus of patients from the present university hospital will enable				
12	the normal costs to be lessened.				
13	Operating costs in the Moffitt Hospital have been established on an estimate of 52 percent occupancy immediately after opening in				
14	December, 1954, increasing to full operating occupancy by April, 1955. It is further estimated that costs per patient day at				
15	that time will be \$39.17 as compared with \$37.10 currently, inclusive of hospital and outpatient expenditures. It is expected				
16	that by 1955-56, when smooth operation has been achieved and a full year of occupancy can be planned, the cost will drop to				
17	\$35.53, assuming continuation of present program and price levels. This would represent a saving through efficiency of planning				
18	and arrangement in the amount of \$1.57 per patient day.				
19	San Francisco Medical School. The budget increase for instruction and research at the medical school is \$72,521. The increase includes				
20	a provision of \$30,000 for an increased number of teaching beds in the last half of the year, and minor adjustments to take care				
21	of the increased demands of operating in a larger hospital. These increases are offset, in part, by a reduction of \$11,996 in the				
22	provisions for organized research.				
23	School of Nursing. In order to provide additional service and training needed for the Moffitt Hospital (represented by an anticipated				
24	increase of 14.5 percent in enrollment), the School of Nursing needs an increase of \$24,269. This includes provision for three				
25	new instructors to provide supervision and training in general nursing and public health nursing, and an additional secretary-				
26	stenographer.				
27	School of Dentistry. The increase in dentistry is \$20,901, of which some \$10,000 is to replace worn-out dental clinic equipment in				
28	accord with a long-term replacement program. The major part of the remainder consists of fractional increases in nonacademic				
29	staff to take care of enlarged clinic facilities in the new building.				
30	School of Pharmacy. To provide for operation of the newly established four-year curriculum, reflecting changing national standards				
31	and requirements for certification, an increase of \$17,773 is provided for the School of Pharmacy.				
32	General Medical Center Costs. Increases are included of \$29,249 for administration and general services, including an expanded				
33	mail and messenger service, expansion of the Student Health Service, and a provision for higher costs of medical books and				
34	a slight increase in assistance for the Library. The budget for maintenance and operation of the plant shows a net decrease of				
35	\$30,654, reflecting an upward adjustment in the share of the costs charged to hospital operation.				
36					
37	3. State-wide				\$1,220,723
38	Less: Added Operating Income				—100,000
39					
40	Net Increase				\$1,120,723
41					
42	This increase results largely from the inclusion of a lump sum provision of \$992,000 for earned promotions and merit salary increases,				
43	normally occurring under existing University salary scales and personnel policies during a budget year. This provision has previ-				
44	ously appeared as a part of the budget increases of the several campuses and operating divisions of the University. The amount				
45	included here, together with an estimated \$88,000 chargeable to specific funds and recharges, will provide a total of \$1,080,000				
46	in 1954-55. This compares with an aggregate of increases for the same purpose of \$1,143,370 in the current year's budget, and				
47	is based on a reduction of approximately 10 per cent in the percentage of budgeted positions to which increases and promotions				
48	would be granted next year. The reduction is outlined below.				
49					
50		Number	Percent	Average	Estimated
51		Receiving	of Budgeted	Increase	Cost
52	Nonacademic Merit Increases:	Increases	Positions *		
53	1953-54	3,108	70.5%	\$182.44	\$567,126
54	1954-55	2,870	62.0%	183.00	525,000
55	Academic Merit Increases:				
56	1953-54	863	26.1%	\$428.22	\$369,571
57	1954-55	822	23.5%	430.00	353,000
58	Academic Promotions:				
59	1953-54	328	9.9%	\$630.29	\$206,673
60	1954-55	314	9.0%	640.00	202,000
61	* Excluding new positions.				
62					
63	Other increases in the state-wide budget include \$290,000 for full-year continuation of 1953-54 salary range increases; \$130,000 for				
64	retirement system contributions; \$113,000 for University Extension, offset by estimated increase in income of \$100,000; and				
65	miscellaneous increases, \$126,723. The net increase of \$13,000 for University Extension provides ready-to-serve administrative				
66	costs for the enlarged program.				
67	The lump sum deduction for "estimated salary savings," to take account of lapses in salary provisions by reason of temporary				
68	vacancies in budgeted positions and replacements at lower ranks and rates of pay, etc., has been included at \$1,300,000, approxi-				
69	mately 2 percent of budgeted salaries and wages.				
70	Requirements for regents' contributions to the pension and retiring annuities systems are estimated to be \$130,545 greater than the				
71	current year's budget provision, based on the October pay roll and budgeted increases in academic staff, primarily at Los An-				
72	geles, Riverside, and Davis.				
73	Miscellaneous increases in state-wide, amounting to \$126,723, include the following:				
74	Controller's office, \$36,065, principally to provide for the new hospitals at Los Angeles and San Francisco, and the new Colleges of				
75	Letters and Science at Riverside and Davis.				
76	Scholarships and fellowships, \$52,868, reflecting an increase in the distribution rate from the endowment pool and unexpended bal-				
77	ances held over from 1951-52 because the amount was undetermined when the 1953-54 budget was prepared. No additional ap-				
78	propriation is involved.				
79	State compensation insurance, \$45,000, to cover increases in payments based on current experience in 1952-53, the last completed year.				
80	Personnel office, \$33,121, chiefly to cover services in connection with increases in personnel for the hospitals at Los Angeles and San				
81	Francisco, and to overcome an existing imbalance at Berkeley between staff and volume of work. The problem is particularly				
82	acute at Los Angeles where a hospital staff of more than 700 must be recruited.				
83	Institute of Marine Resources, \$21,384, to continue the development of this new and expanded activity started in 1953-54 to				
84	promote future exploitation of fish and other resources of the sea as an important addition to the economy of the State and				
85	the Nation. The present staff of a director and secretary will be augmented by a staff of one professor, an assistant research				
86	engineer, and a laboratory technician.				

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	PRINCIPAL ELEMENTS OF INCREASE—Continued				
2					
3					
4	4. Los Angeles Campus (Excluding Medical Center) Equalization Program -----				\$786,996
5	Less: Added Operating Income -----				58,140
6					
7	Net Increase -----				\$728,856
8					
9	The greater amount of the over-all increase for the Los Angeles Campus is dedicated to the development of the Medical Center. The remainder of the increase, \$786,996, is credited to budgets other than those of the Medical Center, though of this amount approximately \$120,000 represents increases in cost of maintenance and operation of plant traceable to the Medical Center development.				
10					
11					
12	Student Health Service, Los Angeles. Of the increase in Los Angeles costs, exclusive of Medical Center, approximating \$667,000, more than one-third, or \$237,073, is for improvement of student health services and the establishing of a standard more comparable with that at Berkeley, Davis, and San Francisco. With the opening of the Medical Center Hospital in 1954-55, an increase of the budget for the Student Health Service from \$174,934 in 1953-54 to \$412,007 in 1954-55 is provided.				
13					
14	Departments of Instruction and Research, Los Angeles. Some \$145,394 of the increase of \$299,532 in this category for the College of Letters and Science, largest in point of current enrollment and destined to bear the brunt of a future greatly enlarged enrollment.				
15					
16					
17					
18					
19					
20	The College of Letters and Science contains 27 academic departments, among which the greatest increases are proposed for bacteriology and zoology, departments which have had to mark time pending the completion of Life Sciences Unit II which will provide space for a properly rounded program, and chemistry. For these three departments \$97,308 is provided. The general integrated course in the life sciences will require an additional \$12,630. Four letters and science department budgets are granted no increase and nine are reduced.				
21					
22					
23					
24					
25	The College of Applied Arts, with 10 departments, is proposed for a \$44,396 increase, of which \$20,000 is a nonrecurrent item for equipment chiefly in home economics and music. Also included are a senior dietitian and a clerk for home economics, and an associate for music. One department in this college shows no increase, one a slight decrease, and three others increases of less than one thousand dollars each.

## UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	PRINCIPAL ELEMENTS OF INCREASE—Continued				
2					
3					
4	6. Riverside Campus—Expansion of Riverside College From Six-months Operation in 1953-54 to Full-year Operation				
5	in 1954-55, and Addition of Senior Year Courses				\$477,954
6	Less: Added Operating Income				-41,244
7					
8	Net Increase				\$436,710
9					
10	The total increase for the Riverside Campus is \$477,954, of which \$30,826 represents an increase in the costs directly chargeable to				
11	the citrus experiment station of the College of Agriculture.				
12	The remainder, and major part, of the increase at Riverside, is made up of \$279,064 for instruction and research in the new College				
13	of Letters and Science, and \$168,064 for operations representing general campus services.				
14	College of Letters and Science (instruction and research). The increase of \$279,064 for instruction and research in the new College				
15	of Letters and Science reflects the transition from six months' operation for an estimated 300-400 freshman, sophomore, and				
16	junior students, on a limited basis, in 1953-54, to a full-year operation for an estimated 900-1,200 students covering all four un-				
17	dergraduate years, and the basic subject areas which students may reasonably expect to find in a college of this type. The				
18	budget increases are based solely on the best predictive judgment that can be reached at this time without actual experience.				
19	Riverside College has been planned so as to restrict the number of fields and quantity of courses and to build quality commensurate				
20	with the standards of the university. Majors will be offered in only 15 of the fields of instruction covered. The faculty is				
21	being recruited, preponderantly, at the rank of instructor or assistant professor.				
22	The increases are \$111,383 in the humanities, \$51,430 in the physical sciences, \$43,728 in the social sciences, \$43,120 in the life				
23	sciences, \$26,418 in physical education and military science, and small increase of \$2,985 in the office of the dean.				
24	General Campus Services at Riverside—\$168,064. Under this general heading are those costs which serve both agricultural and				
25	letters and science activities. Of the \$168,064 increase, \$44,244 represents estimated income from the bookstore and lunchroom,				
26	and \$500 noneducational expense is from endowment for scholarships, which are not support items. The net increase in support				
27	is, therefore, \$123,320.				
28	Items making up the \$123,320 net increase in general campus services are:				
29	Maintenance and operation of the expanded plant and area of maintained grounds, \$48,056.				
30	Putting the college library on a full-operating basis, \$29,391, and reducing the 1953-54 provision for purchase of books by \$8,744.				
31	The letters and science library will open the year 1954-55 with about 35,000 volumes and is to be built rapidly to reach an				
32	adequate level for student use.				
33	General Expense, almost entirely for student health service operation, \$20,764.				
34	General Administration, \$15,888.				
35	Miscellaneous provisions of \$5,000 for organized research to meet minimum needs of an increased faculty; \$1,000 for drama, lectures,				
36	and music; and \$2,321 in the provost's provision for contingencies.				
37					
38	7. Agricultural Sciences, Increase for Research, Instruction and Public Service on All Campuses and State-wide				
39	Net Increase (\$204,163)				
40					
41	NOTE: This increase, amounting to \$204,163 plus \$14,620 offset by estimated increase from income enterprises,				
42	is not shown as a combined figure in the budget summary, but is distributed in the campus and state-wide in-				
43	creases listed above and below. It is brought together here for information on an important activity operating in				
44	many different places.				
45	The Division of Agricultural Sciences, including the Colleges of Agriculture at Davis, Berkeley, and Los Angeles; the Citrus Ex-				
46	periment Station at Riverside; and the Agricultural Extension Service; shows an increase of \$218,783, or 1.8% over the				
47	1953-54 budget of \$12,385,664. (This amount does not appear as a separate item in the budget summary, but is included in				
48	the totals for the campuses involved and state-wide.)				
49	Of the total increase, 60 percent, or \$132,388, derives from new and extended activities, including \$23,786 for research on air				
50	pollution inaugurated at the request of the Legislature; the continued development of three new departments established to				
51	meet basic state needs: the forest products laboratory, Berkeley, \$34,888; home economics, Davis, \$18,862; and floricult-				
52	ure and ornamental horticulture, Los Angeles, \$11,852; mastitis research, \$33,000; and deciduous fruit packing house re-				
53	search, \$10,000.				
54	The remainder of the increase amounts to \$71,775 for regular and continuing activities, plus \$14,620 estimated increase in op-				
55	erating income. Increase for regular and continuing activities is a fraction of 1 percent of the current budget for that				
56	purpose. Of this increase, \$33,338 is to meet expanding demands on the agricultural extension service created by popu-				
57	lation growth and change on California farms. The remainder of the net increase for regular and continuing activities, \$38,437,				
58	provides for activities at Berkeley, Davis, Los Angeles, Riverside, and field stations, and includes \$24,195 due to return of				
59	personnel from military, sabbatical, and other leaves, and minor adjustments to meet most urgent expenses throughout the				
60	division of the university.				
61	Several apparently large increases and decreases appearing in the detailed budgets for agricultural sciences departments result from				
62	transfers from one budget to another. Agricultural publications, \$169,000, is set up for the first time separately, whereas it				
63	was formerly included under the budget for vice president—agricultural sciences. There is a small increase of \$4,000 in this				
64	budget offset by an increased volume of publication sales. The decrease of \$33,787 in poultry husbandry is likewise due to a				
65	transfer of certain activities from the Berkeley budget to the Davis budget.				
66					
67	8. Berkeley Campus				\$159,395
68	Less: Added Operating Income				-28,267
69					
70	Net Increase				\$131,128
71					
72	The Berkeley budget shows a net increase of \$131,128, or a fraction of 1 percent. Of the total increase some \$66,136 for noneduca-				
73	tional expense results from additions to available scholarship and fellowship funds derived from an increase in the endowment				
74	pool distribution rate and a holdover of unexpended balances from 1951-52. Also, the \$9,520 increase in auxiliary enterprises				
75	is offset by increased income from residence halls, hence neither of these involves an increase in support.				
76	An increase of \$51,359 is included for maintenance and operation of new buildings and maintenance of expanded ground area, offset				
77	in part by a decrease of \$3,205 in the budget provision for police.				
78					
79					
80					
81					
82					
83

85					
86					

UNIVERSITY OF CALIFORNIA—Continued

LINE	EXPENDITURES	ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	CHANGE FROM 1953-54
1	PRINCIPAL ELEMENTS OF INCREASE—Continued				
4	Berkeley Campus—Continued				
6	Departments of instruction and research are increased \$91,306, of which the College of Letters and Sciences is to receive \$70,443 to cover personnel returning from leaves, additional teaching assistants, and minor adjustments in staff and expenses scattered over many departments.				
9	The university library is increased by \$13,918 for the purchase and binding of books.				
10	The above increases have been lowered by cutting expenditures in a number of functions below the 1953-54 level. These decreases aggregate \$79,450, of which \$32,737 is in organized research, resulting largely from reduced needs for the engineering research project in sea water conversion in 1954-55.				
14	9. Davis Campus General and College of Letters and Science				\$253,848
15	Less: Added Operating Income				—44,410
16	Net Increase				\$209,438
18	The combined budget for agricultural sciences and the College of Letters and Science at Davis shows an increase of \$253,848. Of this sum, \$131,295 is directly attributable to agricultural sciences and makes up a part of the state-wide increase of \$218,783 for agricultural sciences.				
22	The increase in expenditures for Davis, excluding agricultural sciences, is \$122,643, of which \$22,856 is for the College of Letters and Science and \$99,791 is for a number of campus functions serving both that college and agricultural sciences but not entirely attributable to either.				
25	Joint Service Functions at Davis—\$99,791. One-third of this increase, \$33,410, derives from an estimated increase in residence hall income and expense and is not a part of the support appropriation. Additional small amounts of \$3,317 and \$2,304 result from increases in scholarship funds and income from summer sessions, also not affecting appropriations for support. The net increase for support of joint services is \$60,760.				
29	This net increase for support of joint services includes the following items:				
30	For maintenance and operation of plant, covering an increase of some 10 percent in area of maintained buildings and grounds, plus increases in utility rates already declared, \$40,031.				
32	For continued development of the library to meet the needs of the College of Letters and Science, including additional staff services now that the library has been designated as a government document depository, \$7,437.				
34	For increased costs of the student health service to cover the number of students estimated for 1954-55, \$2,636.				
35	To meet other costs incident to a larger staff, and a growing letters and science student body, \$10,656.				
36	College of Letters and Science—\$22,852. The increase for instruction and research in the College of Letters and Science, Davis, amounting to 2.6 percent, carries on a minimum development of the enterprise started in 1952-53. No expansion into new fields is proposed. In addition to letters and science students, the college offers services to College of Agriculture students who make up 78 percent of the course enrollments.				
40	The major purpose to be achieved by the increase is to overcome deficiencies in the departments of the humanities and the physical sciences, which account for \$17,813 of the requested amount. Physical education and military science account for \$3,852, and the social sciences, \$818. In the life sciences, already well developed on the Davis Campus, there is a small decrease of \$2,012. The remainder of the amount (\$2,381) is to meet deficiencies in the dean's office.				
45	10. Research Compuses:				
46	La Jolla				\$13,887
47	Decrease in Operating Income				2,330
48	Net Increase				\$16,217
50	Mount Hamilton				728
52	A number of adjustments are included in the budgets for La Jolla and Mount Hamilton, with minor increases in one area, largely offset by reductions in other areas. The only significant item is an increase of \$12,830 for the library at La Jolla to bring support of this library, one of the most important of its kind in the world, up to a service level more closely approximating demands made upon it.				
56	The completion of the 120-inch telescope building and the placing in service of the Tauchmann reflector and the 5-inch Crocker telescope, necessitate a minor increase in supplies and expenses at Mount Hamilton, partially offset by transfer of a fellowship from Mount Hamilton to Berkeley.				

REVENUE

4	Current income for university funds show an increase of \$4,424,544, the major sources of which are as follows:				
6	Student fees				\$2,246,321
7	This increase is attributable to an increase by the regents in the incidental fee from \$37 to \$42 a semester effective in 1954-55, together with a further increase to \$140 per year recommended in this budget as well as anticipated increased enrollments in regular sessions and University extension. These increases are partially offset by a further decline of \$200,523 in veterans fees collected under Public Laws 16 and 346 and a decrease in summer session fee income of \$25,192.				
2	Hospital and Infirmary Revenue				\$1,329,526
3	This increase reflects the opening of the two new teaching hospitals at the Los Angeles and San Francisco Medical Centers and the resulting income from services to patients.				
6	Residence and Dining Halls				\$395,055
7	The increase in revenue from this source is due principally to the removal of Santa Barbara College to the Goleta Campus where a new dormitory and enlarged dining facilities will be in operation.				
0	Departmental Sales and Miscellaneous				\$226,831
1	This increase is the net of variations in many items of miscellaneous sales and service income on the several campuses.				
3	Endowment Income				\$143,830
4	An accounting change in the basis of determining endowment income available for scholarships accounts for approximately \$100,000 of this increase.

66	TOTALS, REVENUES FOR UNIVERSITY FUNDS -----				\$16,770,367	\$16,062,840	\$20,487,384

<sup>a</sup> Includes only such donations as support continuing activities, funds for which are on hand or firmly pledged at the time of the budget. Other donations for restricted current use received in 1952-53 amounted to \$1,888,514.

<sup>b</sup> The increased amount for 1954-55 assumes that the incidental fee will be increased by the regents from \$84 to \$140 per year in accordance with the recommendation mentioned under "General Summary" on page 384.

# HASTINGS COLLEGE OF LAW

The Hastings College of Law was founded in 1878 by S. C. Hastings with the grant of \$100,000 to the State through the Regents of the University of California. By stipulation in the original agreement the State must pay the sum of 7 percent interest on the grant or repay the \$100,000 in full to a Hastings heir. According to the act creating the college, it is affiliated with the University of the State.

The college offers facilities for the acquisition of learning in all branches of the law, and to this end it has established a complete curriculum of studies, and matriculates students who are granted the degree of "Bachelor of Laws" by the University of California.

Located in San Francisco

## GENERAL ANALYSIS

Number of positions ----- 22.8 25.4 28.1 2.7

## ENROLLMENT AND UNIT COSTS

Enrollment ----- 339 307 326 19  
(6.2%)  
Expenditures per student <sup>c</sup> ----- \$255 \$483 \$509 \$26  
(5.4%)

The enrollment of the Hastings College of Law shows an increase for the first time in several years. This trend is expected to continue until the college has an enrollment of 400 to 450, at which level it is expected to stabilize. The college is again operating at a deficit, estimated at \$143,933 for 1954-55, making up the difference from a surplus accumulated during the early post-war years. Other sources of financing will be necessary within the next few years.

Hastings is inaugurating a fourth year which is required of students admitted to the study of law with but two years of college pre-legal study. This program accounts for the major portion of the increase in costs.

Revenues for 1954-55 show an increase over 1953-54 due to an assumed increase in fees from \$74 a year to \$140 a year as recommended by the Department of Finance for the University of California. Fees for the 1953-54 Fiscal Year were reduced from \$150 a year to \$74 a year to bring charges in line with those made at Berkeley.

<sup>a</sup> Constitutes the annual appropriation of \$7,000 for interest on the original gift which the State is required to make to the college under the provisions of Section 20152, Education Code.

<sup>b</sup> Funds of the college are not maintained in the Treasury. Neither the revenues nor expenditure of these funds are included in the over-all budget totals.

<sup>c</sup> Computed on gross expenditures less current revenues except interest on investments.

## BOARD OF CONTROL

The board makes rules and regulations governing the presentation and audit of claims relating to the amount and methods of traveling on official business of the State, and relating to the making of merit awards. Other functions include considering, auditing, and recommending to the Legislature claims against the State for which no appropriation has been made.

## STATE CONTROLLER

The State Controller is the accounting and disbursing officer for the State, responsible for the legality of all payments and receipt of moneys due the State. He supervises the administration of state inheritance and gift taxes, collects the motor vehicle fuel license tax, petroleum and gasoline assessments, and motor vehicle transportation license tax, assists county and city officials in maintaining required accounting and budget records and prepares reports of their financial transactions, makes refunds to nonhighway users of motor vehicle fuel, administers property deeded to the State for nonpayment of taxes, administers unclaimed property and audits expenditures made by local governments under the Local Postwar Public Works, Plans and Sites Law, Local Postwar Construction Law, State School Building Loan Act, and the Collier-Burns Act.

## GENERAL ANALYSIS

Number of positions 490.2 501.2 498.6 —2.6

This budget provides for the following major changes in program and work load:

	NUMBER OF POSITIONS	ANNUAL COSTS
1. Abolished Positions:		
a. Reduced work load and elimination of services	—5	—\$18,000
b. Reduced mathematical verification of claims	—10	—33,500
c. Posting of trust account ledgers transferred from Accounting to Disbursements Division	—2	—1,800
2. Publishing of financial transactions of all local districts, Chapter 1521, Statutes of 1949	3	23,500
3. Increased revenue and coverage, Motor Vehicle Fuel Tax Refund Program	4	17,000
4. Preparation of United States Savings Bonds fully reimbursed	1	-
5. Anticipated reduction in vacant positions and employee turnover	6.4	86,000
6. Increased work load, Disbursements Division	-	17,000
7. Official advertising	-	12,000
8. One-time Tax Collection Division and Motor Vehicle Fuel Tax Refund Division work load in 1953-54	-	—23,000
9. Decrease in equipment category	-	—11,500

## ADMINISTRATION

## Analysis

This division consists of the general administration, departmental accounting, and general service functions of the State Controller's Office. A reduction in staff from 31 to 29 positions results from elimination of a janitor and an intermediate account clerk.

## SALARIES AND WAGES

General Administration:				SALARY RANGE		
State Controller	1	1	1	\$1,333 <sup>c</sup>	\$12,000	\$14,000
Deputy state controller, administration	1	1	1	1,000—1,100	13,050	13,200
Deputy state controller	1	1	1	950	11,265	11,400

<sup>b</sup>Expenditures from bonds funds are not included in over-all budget totals.

<sup>c</sup>Salary increased by Chapter 1613, Statutes of 1951, effective date delayed until January 3, 1955, by Section 22, Article V of the Constitution.

61	ACCOUNTING DIVISION						
62							
63	The principal functions of this division are to maintain the control accounts covering the receipts, disbursements, and balances of						
64	all state funds, the audit and funding of all deposits into the State Treasury, the preparation of the various financial state-						
65	ments covering the State's condition and operations, the making of various apportionments of revenues to local government, and						
66	the control and administration of unclaimed bank deposits, estates of deceased persons, and other classes of unclaimed or aban-						
67	doned property.						
68							
69	Analysis						
70							
71	The total increase for the division over 1953-54 is \$11,078, for the following changes in program:						
72	1. Conversion of the trust and agency accounts from bookkeeping machine to tabulating card posting will eliminate three						
73	positions in this division and require one tabulating machine operator and the rental of equipment in the Disbursements						
74	Division. A net annual savings of approximately \$2,000 is estimated.						
75	2. A change in emphasis from legal to auditing duties for the unclaimed property officer permits the abolishment of one						
76	auditor II.						
77	3. An anticipated reduction in vacant positions and employee turnover at a cost of \$15,730.						
78	4. Official advertising formerly budgeted in a special lump sum appropriation, \$12,000.

## STATE CONTROLLER—Continued

## General Activities

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1	<b>DIVISION OF AUDITS</b>						
2							
3							
4	The function of this division is to pass upon the correctness and validity of all state expenditures. It audits all claims against the						
5	State, approves the payment of all expenditures found to be legal and valid, and disallows any withdrawals which are contrary						
6	to law or public purpose. It conducts field audits of expenditures by counties, cities, and other local governmental agencies, from						
7	various financial aids received from the State, to determine the State's share of the costs of the programs and the propriety of						
8	the expenditures.						
9							
10	<b>Analysis</b>						
11							
12	The net decrease for 1954-55 under 1953-54 is \$23,255. Major changes in program are as follows:						
13	1. The budget proposes the abolishment of 10 calculating machine positions at an annual savings of \$33,521 by eliminating						
14	mathematical verification of small claims which is a duplication of the verification performed by the submitting de-						
15	partments and costs a great deal more than the amount of the errors discovered. <sup>a</sup>						
16	2. A reduction in vacant positions and employee turnover at a cost of \$18,000.						
17

<sup>a</sup> The State Controller objects to this proposal. Following is an excerpt from his statement:

"One of the primary duties of the State Controller is to audit all expenditures of state money and to draw his warrant only for the amount that his audit indicates is proper to pay. He has no right to delegate this duty or to neglect it. In carrying out his duty he has been limited in his methods to those permitted by the budget allowances provided him. The only method by which he has been enabled in the past to exercise necessary accounting control over the accuracy of payments made from the State Treasury has been by desk audit of claims submitted. The Controller is quite aware that this is not the most economical nor the most efficient method of providing such control, and he has repeatedly drawn attention to this fact and has advocated a better method. He has pointed out that internal auditing of the fiscal affairs of state agencies is a proper function for his office, and that if through budgetary authorization he is allowed to perform such audit, economy in the over-all operating of auditing in connection with payments from the Treasury can be obtained.

"This is not a proposal which suggests or permits the Controller to use a better and more economical method of good fiscal control, but through budgetary limitation prevents him from having as complete accounting control as is available to him under the present accounting organization in which internal auditing is performed by an agency of government other than his office.

"This proposal to curtail what appears to be a valuable accounting control, at a budget session at which it will be impossible for the Controller to have bills introduced which would allow him to propose a better and more economical method of control, places the Controller in a difficult position. The recommendation made covers only a minor feature of the over-all problem of accounting and auditing of the State and should be considered only as a part of a program of improvement in accounting and auditing processes in which it can have proper consideration in relation to the whole problem."

31	DISBURSEMENTS DIVISION						
32	This division operates the State's uniform State Pay Roll System and performs the Controller's duties with respect to disbursement of						
33	state funds by issuance of warrants drawn on the State Treasury for regular claims including warrants for payment of tax						
34	refunds, payment of State Employees' Retirement System retired employee rolls, payment of retired teachers on State Teachers'						
35	Retirement System rolls, veterans' educational assistance payments, and subvention payments to local government.						
36							
37	Analysis						
38							
39	The \$40,686 budgeted increase for 1954-55 over 1953-54 is for the following changes in program:						
40							
41	1. One proposed new tabulating machine operator and one man-year of temporary help for tabulating machine preparation						
42	of and accounting for United States Savings Bonds, under a contractual agreement with the State Employees' Retirement						
43	System. A savings for 1954-55 of approximately \$2,000, and \$3,000 annually thereafter is anticipated.						
44	2. One additional tabulating machine operator and machine rental at \$3,300 for posting trust and agency account ledgers.						
45	3. Additional printing and card files at a cost of \$17,000 for an increase in pay roll warrant load.						
46	4. An anticipated reduction in vacant positions and employee turnover at a cost of \$16,500.

1	DIVISION OF COUNTY BUDGETS AND REPORTS								
2	This division administers the law relating to county budgets and to the reporting of county, city, and district financial transactions.								
3	This includes the review of county budgets and reports of tax levies and the preparation for publication of data on property evaluation, tax levies, etc.								
4	Analysis								
5	Of the proposed net increase \$23,494 is attributable to the continued development of the functions imposed upon the State Controller								
6	under Chapter 1521, Statutes of 1949. The State Controller under this program is to secure, compile and publish information								
7	showing the financial transactions of special districts in California.

## Tax Collection Division

SUPPORT EXPENDITURES DETAIL.	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
	52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			

MOTOR VEHICLE TRANSPORTATION TAX FUND

The principal function of this division is to administer the collection provisions of the Motor Vehicle Transportation License Tax Act, the Motor Vehicle Fuel License Tax Act, the tax on insurance companies, and the assessments on oil and gas operators.

Analysis

Except for the reduction of \$2,300 in temporary help provided during 1953-54 for collection of the motor vehicle fuel storage tax the program for 1954-55 will be same as for 1953-54.

1	<b>MOTOR VEHICLE FUEL FUND</b>						
2							
3							
4	The Bureau of Highway Accounts and Reports administers provisions of the Collier-Burns Act requiring local jurisdictions to report						
5	expenditures made for street and highway improvement.						
6							
7	<b>Analysis</b>						
8							
9	The program for 1954-55 will be the same as for 1953-54. The increase of \$11,241 arises from an anticipated reduction in employee						
10	turnover and the replacement of three automobiles.						
11

		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)				
1	<b>MOTOR VEHICLE FUEL FUND</b>							
2	The Motor Vehicle Fuel Tax Refund Division makes tax refunds to users of motor vehicle fuel purchased for nonhighway use.							
3	<b>Analysis</b>							
4	The budget provides for three field representatives and one intermediate typist-clerk for purpose of obtaining increased revenue possi-							
5	ble with a more complete coverage of government, aviation, export, and butane dealer accounts. The addition will cost \$15,048							
6	in salaries and wages, \$1,600 in traveling expense, and \$248 in equipment. The budget shows a net decrease of \$3,266 because							
7	of a reduction in temporary help. This reduction represents funds provided in 1953-54 to cover one-time work load created by							
8	revision of the motor vehicle fuel tax rate.

## Tax-deeded Lands Division

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1	REDEMPTION TAX FUND						
2							
3							
4	The Tax-deeded Lands Division administers the general procedures for tax sales, tax deeds, and redemptions of lands deeded to the						
5	State for nonpayment of taxes; enters into leases for the rental of tax-deeded property; advises county officials regarding the						
6	levying and collection of taxes on real property; and renders service to the counties by setting up an abstract and index of tax-						
7	deeded lands.						
8							
9	Analysis						
10							
11	A reduction in staff from 37 to 35 results from the abolishment of an intermediate clerk and an intermediate account clerk.

## BOARD OF EQUALIZATION—Continued

## General Activities

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55	
		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)				
1	GENERAL ANALYSIS							
2								
3								
4	Number of positions—General Fund activities-----				2,386.7	2,446.6	2,461.1	14.5
5	Number of positions—Special Fund activities-----				207.7	207	210	3
6								
7	Total Number of Positions-----				2,594.4	2,653.6	2,671.1	17.5
8								
9	The total increase for 1954-55 provides for a complete year's operation of the expanded assessment standards program, a 25.5 position reduction in vacant positions, and a two-position increase in the valuation division for additional work load, offset by the elimination of 10 positions in various functions, and reductions in rental, printing, out-of-state travel, and equipment expenditures. A detailed explanation of these changes may be found by reference to the analysis under each division.							
10								
11								
12								
13								
14								
15								
16	GENERAL FUND							
17								
18	GENERAL ADMINISTRATION							
19								
20	This division consists of the general administrative, departmental accounting, and personnel administration functions of the Board of Equalization.							
21								
22	Analysis							
23								
24								
25	The net increase for 1954-55 over 1953-54 of \$11,993 provides an additional \$4,570 for the replacement of wrecked and high mileage automobiles, and \$20,000 for an anticipated reduction in vacant positions and employee turn-over—offset by a \$12,571 decrease in the line item for printing revenue laws, and a \$1,652 decrease in out-of-state travel.							
26								
27								
28

30	DIVISION OF ASSESSMENT STANDARDS						
31	This division has the administrative responsibility of equalizing the assessment of local property between counties. To fulfill this						
32	responsibility the division is required to issue cost and other appraisal data to the county assessors, to prepare maps for						
33	county use, and in general to assist the county assessors in the performance of their duties.						
35	Analysis						
37	The total increase of \$261,738 provides for the following program changes:						
38	1. A complete year's operation of the expanded program for carrying out the provisions of Section 1831 of the Revenue and						
39	Taxation Code requires \$263,000 in additional funds.						
40	2. A reduction in personnel vacancies and turnover at a cost of \$30,190.						
41	3. Replacement of high mileage automobiles will cost an additional \$2,740.						
42	4. A reduction in out-of-state travel at a savings of \$1,290.						
43	5. Termination of one associate auditor-appraiser position, authorized to June 30, 1954, only, reduces salaries and wages						
44	by \$5,772.						
47	SALARIES AND WAGES						
48	Assessment Equalization:

34	VALUATION DIVISION						
35	This division administers the assessment of the public utility properties in the State.						
36	Analysis						
37	The total increase of \$22,777 provides for the following changes in program:						
38	1. Changes in the division's tax area maps have become more complex and numerous as the number of special districts						
39	have increased. All maps must be revised annually to give effect to current tax rates. Two additional delineator posi-						
40	tions, at a cost of \$8,388, are required for this work.						
41	2. An anticipated reduction in vacant positions and employee turnover at a cost of \$11,731.

24	RETAIL SALES TAX DIVISION						
25	This division assesses and collects the retail sales and use taxes.						
26	Analysis						
27	The net total increase of \$266,196 for 1954-55 over 1953-54 provides for the following changes in program:						
28	1. The purchase of mechanical files in 1953-54 and one accounting machine in 1954-55 will eliminate six clerical position and result in a net savings of \$6,326 in 1954-55.						
29	2. A decrease in vacant positions and employee turnover at a cost of \$310,000.						
30	3. A \$30,729 reduction in the equipment category.

## Division of Highway Taxes

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1	MOTOR VEHICLE TRANSPORTATION TAX, ITINERANT						
2	MERCHANTS, AND MOTOR VEHICLE FUEL FUNDS						
3							
4	This division administers the Motor Transportation License Tax Act, the Itinerant Merchants Act, assesses the motor vehicle						
5	fuel tax and the liquefied petroleum gas taxes, and assesses and collects the use fuel tax.						
6							
7	Analysis						
8							
9	The net increase of \$1,673 is made up of the following changes in program:						
10	1. Decrease because of one-time expenditure for assessing motor vehicle fuel storage tax during 1953-54-----\$64,000						
11	2. Reduction in vacant positions and employee turn-over-----56,000						
12	3. Increased work load in administration of use fuel tax from 6,197 permits in 1952-53 to an estimated						
13	8,235 permits in 1954-55-----9,700

55				
56	Accumulated Surplus, June 30 <sup>b</sup> -----	\$3,621,393	\$1,659,169	\$1,685,003

<sup>a</sup> The deficit is caused by the amount of \$27,819 which is due to the General Fund.

<sup>b</sup> Accumulated surplus as of June 30 represents funds reserved for transfer to the Highway Users Tax Fund. Prior to October 1, 1953, amounts shown represent accumulation of one quarter's revenue. After that date amounts shown represent accumulation of one month's revenue. The shift to monthly apportionment is a partial explanation of the increased transfer to the Highway Users' Tax Fund in 1953-54.

<sup>a</sup> The Service Revolving Fund through which collections from special fund agencies for janitor and maintenance services were paid was abolished on June 30, 1953 by Chapter 683, Statutes of 1953. Subsequent collections are treated as reimbursements to the support appropriation. (See pages 448 and 450.)

<sup>b</sup> The expenditures from bond funds are not included in the over-all budget totals. See Schedule 7 for summary of bond fund expenditures.

<sup>c</sup> Neither the expenditures nor the receipts of revolving fund activities are included in the over-all budget totals.

18	<b>GENERAL ANALYSIS</b>				
19					
20	Number of positions .....	1,271.4	1,460.1	1,396.1	—64
21					
22	The budget proposes a reduction in existing staff and related expenses due to proposed economies in the department. A part of the				
23	reduction is offset by increases resulting from the staffing of new facilities which will be completed during the budget year.				
24	The major changes in the proposed budget are summarized as follows:				
25	Budget Deletions:				
26	Elimination of presently authorized positions .....				
27	Discontinued services .....				
28					
29	Budget Additions:				
30	New facilities .....				
31	New positions for increased supervision of janitorial staff and increased clerical work load .....				
32	New positions for increased work load in Administration Division, Buildings and Grounds Division				
33	and Local Allocations Division .....

1	ACCOUNTS AND DISBURSEMENTS DIVISION						
2	Analysis						
3							
4							
5							
6	The proposed budget for this division reflects a reduction of two permanent clerical positions due to the mechanization of part						
7	of the billing and costing operations performed for Buildings and Grounds Division. As a result, this has reduced the per-						
8	manent staff from 71 to 69. Over a two-year period, mechanization of hand operations in the division has resulted in a re-						
9	duction of eight positions.						
10

59	DIVISION OF BUDGETS AND ACCOUNTS						
61	Analysis						
63	The current year transfer of the Architectural and Construction Advisers Section from Administration to the Division of Budgets and						
64	Accounts is reflected in the budget for all years in order to provide proper comparison of the actual expenditures for this section.						
65	The decrease reflects the elimination of two technical positions, two clerical positions, and increased salary savings for estimated						
66	vacancies.

15	DIVISION OF COMMUNICATIONS						
17	Analysis						
19	A new item of temporary help amounting to \$2,000 is proposed. This amount is proposed to finance a state-wide microwave study in						
20	conjunction with the Legislative Auditor. This study was requested by Senate Concurrent Resolution No. 16 of the 1953 Ses-						
21	sion.						
22	The reduction includes the elimination of one technical position authorized for the 1953-54 year.

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
		52-53 (Filed)	53-54 (Auth.)	54-55 (Auth.)			
1	LIQUIDATION OF SURPLUS EQUIPMENT AND LEASES,						
2	DEPARTMENT OF SOCIAL WELFARE						
3							
4	Analysis						
5							
6	The proposed amount is for the final liquidation of the leases entered into by the Department of Social Welfare for the operations						
7	of Article XXV of the Constitution. The gross expenditure of \$178,648 is mostly offset by reimbursements.						
8	The remaining 46 leases will expire between August, 1954, and February, 1955.						
9							
10	OPERATING EXPENSES						
11	Office .....				\$696	\$700	\$700

35	Department of Social Welfare .....				\$82,883	\$65,129	\$44,007
36							
37	BUILDINGS AND GROUNDS DIVISION						
38							
39	The division maintains state-owned and leased buildings and grounds in Sacramento, San Francisco, and Los Angeles. The staff re-						
40	views for approval all leases of real property for use by state agencies.						
41							
42	Analysis						
43							
44	The proposed budget reflects a net decrease of \$97,347, consisting of abolishing 120 existing positions amounting to \$376,620; offset						
45	by 43 positions and related expenses for new facilities totaling approximately \$135,000, allowance for greater stability in em-						
46	ployment and other offsetting adjustments.

39							
40							
41	LOCAL ALLOCATIONS DIVISION						
42							
43	This division is responsible for the administration of programs involving the allocation of funds to local agencies. These include						
44	allocations from the General Fund, the Postwar Unemployment and Construction Fund, the Public School Building Loan						
45	Fund, and State School Building Aid Fund. In addition, the division is responsible for the supervision of the Emergency						
46	Veterans' Housing Program.						
47							
48	Analysis						
49							
50	The budget proposal reflects the increased costs related to a new position of structural engineering associate. This position is included						
51	in the 1954-55 budget proposal for the purpose of determining the feasibility of rehabilitating school facilities requested for						
52	replacement. This operation is required by a 1953 amendment to the School Building Aid Law of 1952 (Section 7707.1, Educa-						
53	tion Code). The cost for this new position is partially offset by the elimination of one position. The remaining expenditure						
54	program is proposed at the current level of service. However, the work load related to the various programs administered						
55	by the division will change substantially during the 1954-55 Fiscal Year. The tabulation below indicates the estimated percent of						
56	work load time which will be devoted to programs supported by the following funds:						
57							
58							
59

## Department of Finance

## DIVISION OF FAIRS AND EXPOSITIONS

Exercises general supervision over the district, county, and citrus fairs. Prepares a master premium list, approves premium lists and operating budgets of the fairs. Prepares claims for distribution of funds appropriated from the Fair and Exposition Fund and recommends allocations for Capital Outlay.

27	<b>TOTAL EXPENDITURES FOR SUPPORT</b> .....	<b>\$1,890,797</b>	<b>\$1,898,600</b>	<b>\$1,989,308</b>	
28	<b>GENERAL ANALYSIS</b>				
29	Number of positions .....	77	76.4	76.4	—
30	Generally the budget provides a continuation of the California State Fair activities at approximately the 1953-54 level plus the re-				
31	establishment of premium funds formerly provided for the poultry, pigeon, and art exhibits, and a nominal amount of increase				
32	to publicize and celebrate the one-hundredth anniversary of the fair. Expenditures for 1954-55 will exceed the estimated reve-				
33	nues by \$677,458. It is proposed to fund this deficiency from available surplus in the amount of \$63,413; transfers from the				
34	Fair and Exposition Fund under provisions of existing law amounting to \$140,000; and an additional transfer of \$495,000 from				
35	the Fair and Exposition Fund.				
36	The total increase of \$90,708 is made up principally as follows:				
37	<b>SALARIES AND WAGES:</b> \$14,000 is provided in temporary help for the poultry and pigeon programs which were not conducted				
38	in 1953-54, and \$3,500 in temporary help for special television assistance.				
39	<b>OPERATING EXPENSES:</b> An increase of \$28,160 is provided in premiums for the poultry, pigeon and arts and crafts shows				
40	not held in 1953-54; \$25,000 is provided for centennial events and rentals to celebrate the one-hundredth anniversary of the fair;				
41	\$10,000 increase in paid advertising primarily for additional television advertising; and approximately \$10,000 for special				
42	day activities and increased participation in the queen contest.

## GENERAL ANALYSIS

Number of positions----- 24.5 26.3 26.3 -

This budget provides for a continuation of the current level of service. No major increases are provided. The minor increase in total expenditures is due principally to an estimated increased stability factor in employment. The expenditure for maintenance and operation of real property acquired for parking lot purposes consisting of \$2,000 has been shifted from other current expenses to the support portion of the budget since this is a continuing expenditure rather than a special project.

## GENERAL ANALYSIS

## Support

Number of positions----- 66.8 76 79 3

The increase of \$74,982 or 17 percent in the support portion of this budget over 1953-54 expenditures is due principally to the shifting of two expenditure items from other current expenses to support. These consist of \$50,000 for defense of title to tide and submerged lands and \$10,000 for defense of State's interest in property along the Arizona-California Colorado River boundary. These expenditures have been shifted to the support portion of this budget on the basis that they are continuing expenditures rather than special projects.

In addition, the expenditures for 1953-54 and 1954-55 reflect the increase of approximately \$163,000 resulting from loss of reimbursements for tideland lease administration due to the signing of the Submerged Lands Act in May, 1953.

Provision is also made in the budget to provide services to the Colorado River Boundary Commission in the amount of \$37,154. These expenditures are completely reimbursable and recovery is reflected in reimbursements.

**SALARIES AND WAGES:** The increase consists of the shifting of two positions from other current expenses, full-year reimbursable costs for services rendered to the Colorado River Boundary Commission and one new position of assistant real property appraiser. This position is provided on a work load basis to appraise public lands to be sold by the State. The position will keep current the land sales transactions and assist in reducing the accumulated backlog.

**OPERATING EXPENSES:** Increase due to the shifting of other current expenses and full-year reimbursable cost for services rendered to the Colorado River Boundary Commission.

a Composed of savings in salaries and wages, \$5,875; operating expenses, \$3,215; equipment, \$781; and excess reimbursements, \$11,902.

b Included in support portion of budget.

## Department of Finance

## NAPA STATE FARM

The farm is under the control of the Department of Finance. Through cooperation with the state institution, it may be utilized for agricultural or horticultural purposes or as a stock or dairy farm and may distribute to state institutions the products of the farm or the livestock. The Rector Canyon Dam is located on the farm and is the water supply for the Veterans Home of California.

## GENERAL ANALYSIS

27	Number of positions .....	657.4	736	773	37
28					
29	The total budget increase reflects the following program changes:				
30	1. Work load increases and necessary improvements .....			\$134,500	
31	2. Comparison of federal and state income tax returns .....			80,000	
32	3. Decentralization of Sacramento office .....			36,000	
33	4. Reduction in employee turnover .....			90,000	
34	5. Replacement of worn-out equipment .....			14,000

## ADMINISTRATION

In addition to the general administration of the state income and franchise tax programs, this division includes the agency's accounting, statistical, collection, legal, and special investigative functions.

## Analysis

The \$60,620 increase is for the following program changes:

1. Additional space in Sacramento at a cost of \$36,000, for rent, moving, alterations, one junior clerk, and a panel truck.
2. Anticipated reduction in vacant positions and employee turnover at a cost of \$36,781.
3. Offset by a \$9,659 decrease in the equipment category.

Three additional permanent clerks are requested in lieu of temporary help.

## SALARIES AND WAGES

Executive:				SALARY RANGE		
Executive officer .....	1	1	1	\$1,167	\$14,000	\$14,000

## GENERAL ANALYSIS

45					
46					
47					
48					
49	Number of positions-----	41.9	40	40	-
50	The total budgeted increase for 1954-55 over 1953-54 of \$23,808 provides for the following changes in program:				
51	1. A new mechanized procedure for processing warrants. Annual savings in the amount of \$6,500 are anticipated subse-				
52	quent to 1954-55.				
53	2. Recent large issues of veterans, school building aid, and San Francisco Harbor revenue bonds require additional fiscal				
54	agency fees for redemption of bonds and coupons, \$12,000.				
55	3. Anticipated reduction in vacant positions and employee turnover, \$7,000.				
56	4. Partial installation of bond storage lockers in the Treasurer's vault, \$12,500.				
57	5. The printing of 90 million dollars in school building bonds, as compared to 75 million dollars' worth in 1953-54, \$4,200.				
58					
59	<sup>a</sup> Composed of savings in salaries and wages, \$186; operating expenses, \$15,335; equipment, \$317; and a deficiency in reimburse-				
60	ments of -\$3,009.				
61	<sup>b</sup> Composed of savings in salaries and wages, \$2,587; operating expenses, \$502; and excess reimbursements, \$500.				
62	<sup>c</sup> Trust and agency funds are not included in the over-all budget totals. See Schedule 3 for statement of balances in other Treasury				
63	funds.

## GENERAL ANALYSIS

Number of positions ----- 2,053 2,071 2,332 261

The principal changes from the current fiscal year are the proposed increase of 220 positions in the uniformed strength of the Highway Patrol to provide a more adequate degree of enforcement and the addition of supporting personnel and equipment for more effective operations.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
	52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			

## ADMINISTRATION

This function includes the office of the commissioner and the following staff sections: general administration, planning, accounting, personnel, office services, mechanical analysis, automotive equipment, shops and stores, and facilities.

## Analysis

Two additional positions are proposed; one for the work load resulting from the recommended increase in uniformed strength and one to staff the mechanical analysis section properly for existing work load. Changes in operating expenses are based on work load and anticipated price levels.

## SALARIES AND WAGES

62	Executive:				SALARY RANGE

49	ENFORCEMENT						
50							
51	This function includes all field personnel, field office operation, and the Los Angeles headquarters.						
52							
53	Analysis						
54							
55	To achieve more adequate policing of the highways 20 additional traffic sergeants and 200 additional traffic officer positions are						
56	proposed.						
57	The other additional positions are: 16 automotive equipment operators to release uniformed personnel for road patrol; 10 intermediate						
58	typist-clerks for field offices based on work load; and three dispatcher-clerks to provide 24-hour radio coverage in three locations.						
59	The remainder of the increase is attributable to operating expenses and equipment incidental to the augmented uniformed staff.						
60							
61							
62	SALARIES AND WAGES

## DEPARTMENT OF INDUSTRIAL RELATIONS

The department administers the state laws relative to labor through its nine divisions. In general, it is the duty of the department to foster, promote, and develop the welfare of the wage earners of California; to improve their work conditions; and to advance their opportunities for profitable employment.

## DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1952-53	ESTIMATED 1953-54	PROPOSED 1954-55
		52-53 (Filled)	53-54 (Auth.)	54-55 (Auth.)			
1	DIVISION OF ADMINISTRATION						
2							
3							
4	The Division of Administration is composed of the director's office, the Supervisor of Industrial Accident Self-Insurance Plans,						
5	and the accounting office. The functions also include all general housekeeping services and fiscal management.						
6							
7	Analysis						
8							
9	This budget proposes minor increases in rent at such locations where renewal of existing leases must be negotiated at higher rates.						
10	The Business Service Officer II position, authorized for the 1953-54 Fiscal Year to centralize the business service function for all divisions						
11	in the Los Angeles area, has not been established. The function, however, is still in the best interest of effective administration						
12	and the position is continued through the next fiscal year. With the actual establishment and functioning of this position the duties						
13	of the Administrative Assistant position in the Industrial Accident Commission will be subject to a classification review.						
14

17	DIVISION OF LABOR STATISTICS AND RESEARCH						
20	This division collects and compiles facts and statistics relative to the condition of labor in the State; publishes monthly statistics of						
21	employment, and, in cooperation with the Department of Employment, prepares monthly estimates and forecasts on civilian						
22	employment and unemployment within the State. It works in conjunction with other state agencies and the U. S. Bureau of						
23	Labor Statistics in the collection and presentation of this data. The division makes studies and investigations in the field of						
24	industrial relations. It compiles statistics of industrial accidents for use in accident prevention work; administrative statistics for						
25	the Industrial Accident Commission, and performs similar services for other divisions of the department. All new factories are						
26	required by law to be registered with the division.						
28	Analysis

## OFFICE OF FIRE MARSHAL

enforces state fire prevention laws and regulations in the unincorporated areas of the State and assists the local authorities in the enforcement of state laws and regulations inside the corporate cities upon the request of the fire chief or the local government. Scope of work includes: general fire prevention, hospital inspections, Flammable Materials Act enforcement, schools and night clubs, and inspections of state institutions.

## GENERAL ANALYSIS

Number of positions ..... 46 47 47 -

The proposed budget provides for the continuation of the same level of activity as currently authorized. The increase of \$442 consists of an increase of \$6,196 in salaries and wages almost wholly offset by a decrease in operating expenses, equipment, and reimbursements. The cost of fire inspection at fairs is proposed to be financed from the Fairs and Exposition Fund.

SALARIES AND WAGES: Increase of \$6,196 is due to an estimated increase in employment stability.

OPERATING EXPENSES: Decrease of \$5,217 is mainly attributable to the reduction in cost of a special project of research in fire hazards authorized by Chapter 1576, Statutes of 1953.

EQUIPMENT: Decrease of \$5,537. The \$3,784 budgeted provides funds for replacement of worn office equipment, \$1,564; replacement of one automobile, \$1,270; additional laboratory and testing equipment, \$561; and small miscellaneous office equipment, \$389.

REIMBURSEMENTS: The decrease of \$5,000 represents the decreased amount to be paid by the Board of Dry Cleaners for research in fire hazards.

The following is a functional analysis of the agency's expenditures for comparative years:

Public and private school inspections.....	\$44,538	\$52,231	\$52,303	\$72
Welfare institution inspections.....	27,493	32,241	32,286	45

## Department of Investment

## DIVISION OF BANKING

Examines and supervises operating banks and trust companies, grants or denies bank and branch applications and liquidates closed banks. Passes on legality of investments for savings banks and governs the deposit of securities with the State Treasurer by all trust departments and companies, both state and national, for the faithful performance of trust functions. Revenue is derived primarily from an assessment of banks not to exceed .01 percent of total resources less secured deposits and bills payable.

## GENERAL ANALYSIS

Number of positions 38.5 45.4 46 0.6

Provision is made for continuation of the previously authorized level of service. Two positions are extended to June 30, 1955, at which time an evaluation can be made of the actual work load in private trust examinations.

## WORK LOAD

June 30:	1949	1950	1951	1952	1953
Number of banks	117	107	116	121	122
Number of branches	194	198	213	221	231
Bank assets (thousands)	\$3,595,310	\$3,706,217	\$3,936,558	\$4,256,605	\$4,529,065
Bank loans (thousands)	\$1,140,930	\$1,258,307	\$1,576,000	\$1,647,540	\$1,936,393

**SALARIES AND WAGES:** The increase of \$8,487 is due to an anticipated relative stability in employment.

**OPERATING EXPENSES:** The decrease of \$3,850 is due primarily to 1953-54 printing expenses that will not recur for two years, and reduction in out-of-state travel.

**EQUIPMENT:** The amount of \$2,180 includes replacement of worn-out typewriters and office furniture plus additional technical books.

**REIMBURSEMENTS:** The major portion of bank liquidation activities is complete. No further reimbursements are anticipated.

## GENERAL ANALYSIS

Number of positions ..... 129.8 135 142 7

Provision is made for continuation of the existing level of service with six additional positions and one half-time position to full-time proposed for increased work load. An increase also results from the anticipated improvement in employment stability.

A net reduction in the appropriation and estimated revenues results from a change in the method of accounting certain collections from licensees which are based on the cost of performing the regulatory activities to which these receipts pertain. These receipts pertain to activities regarding industrial loan companies, credit unions, personal property brokers, small loan brokers, and check sellers and cashers under provisions of the Financial Code. These items previously recorded as revenues are reflected as reimbursements to the support appropriation for 1954-55.

The major equipment items include replacement of worn-out office furniture and machines, \$2,099; additional equipment for the proposed positions, \$2,315; additional dictating equipment, \$1,479; additional files for expansion of records, \$2,359; and replacement of two worn-out automobiles, \$2,440.

## GENERAL ANALYSIS

Number of positions ..... 195.2      201.5      212      10.5

Provision is made for continuation of the existing level of service; increases result from additional work load caused by the continuing growth of the insurance business in California.

The principal increases are due to nine proposed new positions to handle the increased work load. The prospect of greater employment stability provides an increase in salaries and wages.

## ADMINISTRATION DIVISION

This division handles the general administrative and staff functions of the department, including the direction of branch offices, actuarial work, and fiscal, personnel and office management services.

## Analysis

**SALARIES AND WAGES:** The increase is due to one additional intermediate typist-clerk position proposed to handle increased typing work load in the administrative office.

**OPERATING EXPENSES:** An increase in operating expenses results primarily from moving and increased rental costs in Los Angeles. Other increases result from work load with certain reductions due to nonrecurring expenses.

**EQUIPMENT:** Major items are additional equipment for the new position, \$383; a folding machine for the mail control unit, \$550; and an additional dictating machine, \$351.

COMPLIANCE AND LEGAL DIVISION									
This division is responsible for the legal work of the department, including legal compliance of insurance companies, investigations and disciplinary hearings. It grants authority to companies to do business in California; reviews and approves certain types of policy forms; makes investigations of licensees and license applicants to assure compliance with requirements; analyzes and adjusts disputed policy claims; makes legal preparations for hearings; acts for the department in hearings; renders legal advice to other divisions.									
Analysis									
SALARIES AND WAGES: The principal increase is caused by five additional positions proposed to meet work load increases.									
OPERATING EXPENSES: An increase results from additional space in the Los Angeles office, increased hearing services from the Division of Administrative Procedure, and added travel expense for the new positions.									
EQUIPMENT: Major items are the replacement of worn-out dictating equipment in the Los Angeles office, the augmentation of existing dictating equipment and law books.

21	Totals, Compliance and Legal Division				\$367,874	\$401,605	\$440,521
22	LICENSE DIVISION						
23	This division gives qualifying tests and issues licenses to insurance production agencies (life agents, insurance agents, brokers, solicitors, bail agents, bail permittees). It prepares training manuals, approves training courses, and compiles written tests for license applicants. License records are maintained and all changes in license status are processed in this division.						
24	Analysis						
25	SALARIES AND WAGES: Increase due to new positions requested to take care of work load increases. A position is proposed for one year to assist with a backlog of technical functions that cannot be delegated to clerical personnel and for which the division chief does not have time. Two additional clerks are requested to meet increases in work load.						
26	OPERATING EXPENSES: Most of the increase is a result of additional printing and postage costs which reflect the three-year license cycle, and increased office space.						
27	EQUIPMENT: Major items are desks and chairs for new requested positions.						
28	SALARIES AND WAGES				SALARY RANGE

## GENERAL ANALYSIS

Number of positions ..... 109.3 119 126.5 7.5

Provision is made for continuation of present level of service with additional deputy and clerical positions for increase in work load.

## WORK LOAD

	Actual 1950-51	Actual 1951-52	Actual 1952-53	Estimated 1953-54	Estimated 1954-55
Number of licensees	94,429	98,361	105,730	113,131	118,787
License examination applicants	13,474	14,407	18,023	21,628	23,781
Subdivisions filed	1,680	1,750	2,418	2,500	2,625

SALARIES AND WAGES: The increase is due primarily to two proposed deputy and five clerical positions for increased work load and anticipated improvement in employment stability.

OPERATING EXPENSES: The decrease results from several nonrecurring expenses in 1953-54 (1) moving and expanding the Los Angeles, San Francisco and Oakland offices; (2) contractual services to review the filing and examination systems. These reductions are partially offset by increases due to the proposed new deputy positions and additional printing costs for the increase in licensees.

EQUIPMENT: Provision is made for replacement of a worn-out addressing machine, a cash register, and other worn-out office equipment, additional furniture and equipment for the proposed new positions, a postage meter machine for Los Angeles, reproduction equipment, additional items for expansion of the Fresno office and law books.

a Now received as a reimbursement from the Department of Motor Vehicles and the Department of California Highway Patrol rather than by direct appropriation from the Motor Vehicle Fund.

b Expenditures for this purpose are reflected in the budget for the Division of Civil Law effective in the 1953-54 Fiscal Year.

c Expenditures for the above cases are reflected in the budget of the Division of State Lands. The amount to be expended through the Department of Justice for legal services has not been determined for the 1954-55 Fiscal Year.

d To be collected as reimbursement.

GENERAL ANALYSIS

The Department of Mental Hygiene's 1954-55 Fiscal Year budget provides a program that continues the authorized level of care approved in prior budgets with adjustments for work load changes in the existing facilities; plus the activation of new receiving and treatment buildings at Mendocino and Patton, a new juvenile unit at Camarillo, new ward buildings at Mendocino, Napa, Stockton, Pacific, and Sonoma; and an adjustment in staffing at Porterville based upon resurvey of ward classifications as indicated by the state-wide waiting list for mentally defective patients.

The Porterville State Hospital received its first patients June 30, 1953, and will care for an average population of 583 in the 1953-54 Fiscal Year. This hospital will provide service for an average population of 1,408 in the 1954-55 Fiscal Year and provide care for 1,715 by June 30, 1955.

The Atascadero State Hospital will receive its first patients June 1, 1954. It is estimated that the hospital will have an average resident population of 675 in 1954-55 and provide care for 1,100 patients by June 30, 1955.

The Berkeley Clinic has been transferred from full federal financing to partial financing from the General Fund in the 1954-55 Fiscal Year as a result of a 25 percent reduction in federal aid in 1953-54, and a similar reduction predicted for 1954-55. This will permit the clinic to continue its service without interruption pending legislative consideration of a report on policy and formula for joint financing of the total clinic program between State, county and/or city.
